Abstract: Respondents are existing facilities and new facilities with miscellaneous metal parts and products surface coating operations, and associated equipment or containers used for mixing, conveying, storage, or waste.

Form Numbers: None.

Respondents/affected entities:

Respondents are existing facilities and new facilities with miscellaneous metal parts and products surface coating operations, and associated equipment or containers used for mixing, conveying, storage, or waste.

Respondent's obligation to respond:

Mandatory (40 CFR part 63, subpart MMMM).

Estimated number of respondents:

4,992 (total).

Frequency of response: Initially, occasionally, and semiannually.

Total estimated burden: 2,280,000 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$230,050,000 (per year), which includes \$1,050,000 in either annualized capital/start up or operation & maintenance costs.

Changes in the Estimates: There is a small increase in the respondent burden due to adjustments. The increase is not due to regulation changes. In this ICR, we assume existing respondents have to re-familiarize themselves each year with the regulatory requirements. In addition, we have rounded the estimates to three

significant digits, which results in an apparent increase.

Acting Director, Collection Strategies Division.
