Administration****Comment Request for Information
Collection for Unemployment
Compensation for Ex-Servicemembers
(UCX), Extension Without Revisions**

AGENCY: Employment and Training
Administration (ETA), Labor.

ACTION: Notice.

SUMMARY: The Department of Labor (Department), as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 [44 U.S.C. 3506(c)(2)(A)]. This program helps ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed.

Currently, ETA is soliciting comments concerning the collection of data for the administration of the UCX program, the current expiration date is June 31, 2016

DATES: Submit written comments to the office listed in the addresses section below on or before October 13, 2015.

ADDRESSES: Send written comments to Jeffery Haluska, Office of Unemployment Insurance, Room S-4524, Employment and Training Administration, U.S. Department of Labor, 200 Constitution Avenue NW., Washington, DC 20210. Telephone number: (202) 693-2992 (this is not a toll-free number). SUPPLEMENTARY INFORMATION:**I. Background**

The UCX law (5 U.S.C. 8521-8525) requires State Workforce Agencies (SWAs) to administer the UCX program in accordance with the same terms and conditions of the paying state's unemployment insurance law which apply to unemployed claimants who worked in the private sector. Each state agency needs to obtain certain military

service information on claimants filing for UCX benefits to enable the state to determine their eligibility for benefits. As needed, most state agencies record required UCX information on the form developed by the Department, ETA 843, Request for Military Document and Information. States not using the ETA 843 record required UCX information on form ETA 841, Request for Determination of Federal Military Service and Wages. The use of these forms is essential to the UCX claims process. Information pertaining to the UCX claimant which is recorded on the ETA 841 report can only be obtained from the individual's military discharge papers, maintained by the appropriate branch of military service or the Department of Veterans' Affairs (formerly the Veterans' Administration). Without the claimant's military information, a state cannot adequately determine potential UCX eligibility of ex-servicemembers and would not be able to properly administer the program.

II. Review Focus

The Department is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- enhance the quality, utility, and clarity of the information to be collected; and
- minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

Authority: 44 U.S.C. 3507(a)(1)(D).

SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Roof Control Plans for Underground Coal Mines information collection requirements codified in regulations 30 CFR part 75. In order to prevent occupational injuries resulting from falls of roofs, faces, and ribs—which are a leading cause of injuries and death in underground coal mines—regulations 30 CFR 75.215 and 75.220 to 75.223 make it mandatory for an underground coal mine operator to develop and to submit roof control plans to the MSHA for evaluation and approval. The agency evaluates each roof control plan to determine whether it is adequate for prevailing mining conditions. Federal Mine Safety and Health Act of 1977 sections 101(a), 103(h), and 302(a) authorize this information collection. See 30 U.S.C. 811(a); 813(h); 862(a).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1219-0004.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on October 31, 2015. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection

requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on December 1, 2014 (79 FR 71129).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1219-0004. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
