Availability and Summary of Documents Proposed for Incorporation by Reference

This document proposes to amend FAA Order 7400.9Y, Airspace Designations and Reporting Points, dated August 6, 2014, and effective September 15, 2014. FAA Order 7400.9Y is publicly available as listed in the **ADDRESSES** section of this proposed rule. FAA Order 7400.9Y lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

This action proposes to amend Title 14, Code of Federal Regulations (14 CFR), Part 71 by establishing Class E airspace extending upward from 700

feet above the surface within an 11.2-mile radius of Searcy County Airport, Marshall, AR, to accommodate new standard instrument approach procedures. Controlled airspace is needed for the safety and management of IFR operations at the airport.

Class E airspace areas are published in Paragraph 6005 of FAA Order 7400.9Y, dated August 6, 2014, and effective September 15, 2014, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal.

Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1E, "Environmental Impacts: Policies and Procedures" prior to any FAA final regulatory action.

SUMMARY: In the Rules and Regulations section of this issue of the **Federal Register**, the IRS is issuing temporary regulations that will remove the automatic extension of time to file information returns on forms in the W-2 series (except Form W-2G). The

temporary regulations will allow only a single 30-day non-automatic extension of time to file these information returns. In addition, the temporary regulations will update the list of information returns subject to the rules regarding extensions of time to file. These proposed regulations incorporate the temporary regulations with respect to extensions of time to file information returns on forms in the W-2 series (except Form W-2G). In addition, these proposed regulations would remove the automatic 30-day extension of time to file all information returns listed in the temporary regulation.

DATES: Written or electronic comments and requests for a public hearing must be received by November 12, 2015.

ADDRESSES: Send submissions to: CC:PA:LPD:PR (REG-132075-14), Room 5203, Internal Revenue Service, P.O. Box 7604, Ben Franklin Station, Washington, DC 20044. SUPPLEMENTARY INFORMATION:

Background and Explanation of Provisions

Temporary regulations § 1.6081-8T in the Rules and Regulations section of this issue of the **Federal Register** will amend 26 CFR part 1 by removing the automatic extension of time to file information returns on forms in the W-2 series (except Form W-2G), effective for filing season 2017. The temporary regulations will allow only a single 30-day non-automatic extension of time to file these information returns that the IRS may, in its discretion, grant if the IRS determines that an extension of time to file is warranted based on the filer's or transmitter's explanation attached to a Form 8809, "Application for Extension of Time to File Information Returns," signed under penalties of perjury. The temporary regulations will also add Forms 3921, 3922, 1094-C, and forms in the 1097 series to the list of information returns covered by § 1.6081-8T(a) and clarify that Forms 1095-B and 1095-C, but not Form

1095-A, are covered by the rules in § 1.6081-8T(a).

These proposed regulations would remove the automatic 30-day extension of time to file the information returns listed in § 1.6081-8T(a) and allow only a single non-automatic extension of time to file all information returns listed in § 1.6081-8T.

The IRS anticipates that, as described in the temporary regulations with respect to forms in the W-2 series (other than Forms W-2G), under the proposed regulations, the IRS will grant the non-automatic 30-day extension of time to file information returns listed in § 1.6081-8(a) only in limited cases where the filer's or transmitter's explanation demonstrates that an extension of time to file is needed as a result of extraordinary circumstances or catastrophe, such as a natural disaster or fire destroying the books and records a filer needs for filing the information returns.

Treasury and the IRS request comments on the appropriate timing of the removal of the automatic 30-day extension of time to file information returns covered by these proposed regulations, such as Form 1042-S, including whether special transitional considerations should be given for any category or categories of forms or filers relative to other forms or filers. Although these regulations are proposed to be effective for requests for extensions of time to file information returns due on or after January 1 of the calendar year immediately following the date of publication of a Treasury decision adopting these rules as final regulations in the **Federal Register**, removal of the automatic 30-day extension of time to file will not apply to information returns (other than forms in the W-2 series except Forms W-2G) due any earlier than January 1, 2018. Please follow the instructions in the "Comments and Requests for Public Hearing" portion of this preamble.

The temporary regulations affect taxpayers who are required to file information returns on forms in the W-2 series (except Forms W-2G) and need an extension of time to file. These proposed regulations also affect taxpayers who need an extension of time to file any of the information returns listed in § 1.6081-8T(a).

The substance of the temporary regulations is incorporated in these proposed regulations. The preamble to the temporary regulations explains these amendments. These proposed regulations would also expand the rules in § 1.6081-8T(b) to the other information returns, which are listed in § 1.6081-8T(a).
