- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of This Information Collection

(1) *Type of Information Collection:* Extension of a Currently Approved Collection.

(2) *The Title of the Form/Collection:* National Corrections Reporting Program. The collection includes the forms: Prisoner Admission Report, Prisoner Release Report, Prisoners in Custody at Yearend Report, Post-Custody Community Supervision Entry Report, Post-Custody Community Supervision Exit Report.

(3) *The agency form number, if any, and the applicable component of the Department sponsoring the collection:* Form number(s): NCRP-1A, NCRP-1B, NCRP-1D, NCRP-1E, NCRP-1F. The applicable component within the Department of Justice is the Bureau of Justice Statistics (Corrections Unit), in the Office of Justice Programs.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* Primary: State departments of corrections. Others: State government and Federal government. The National Corrections Reporting Program (NCRP) is the only national data collection furnishing annual individual-level information for state prisoners at five points in the incarceration process:

Prison admission; prison release; annual yearend prison custody census; entry to post-custody community corrections supervision; and exits from post-custody community corrections supervision. BJS, the U.S. Congress, researchers, and criminal justice practitioners use these data to describe annual movements of adult offenders through state correctional systems, as well as to examine long term trends in time served in prison, demographic and offense characteristics of inmates, sentencing practices in the states that submit data, transitions between incarceration and community corrections, and recidivism. Providers of the data are personnel in the states' Departments of Corrections and Parole, and all data are submitted on a voluntary basis. The NCRP collects the following administrative data on each inmate in participating states' custody:

- County of sentencing
- State and federal inmate identification numbers
- Dates of: Birth; prison admission; prison release; projected prison release; mandatory prison release; eligibility hearing for post-custody community corrections supervision; post-custody community corrections supervision entry, post-custody community corrections supervision exit
- First and last names
- Demographic information: Sex; race; Hispanic origin; education level; prior military service; date and type of last discharge from military
- Offense type and number of counts per inmate for a maximum of three convicted offenses per inmate
- Prior time spent in prison and jail, and prior felony convictions
- Total sentence length imposed
- Additional offenses and sentence time imposed since prison admission
- Type of facility where inmate is serving sentence (for yearend custody census records only, the name of the facility is also requested)
- Type of prison admission
- Type of prison release
- Whether inmate was AWOL/escape during incarceration
- Agency assuming custody of inmate released from prison (post-custody community supervision records only)
- Supervision status prior to discharge from post-custody community supervision and type of discharge
- Location of post-custody community supervision exit or post-custody community supervision office (post-custody community supervision records only)

In addition, BJS is requesting OMB clearance to add the following items to

the NCRP collection, all of which are likely available from the same databases as existing data elements, and should therefore pose minimal additional burden to the respondents, while greatly enhancing BJS' ability to better characterize the corrections systems and populations it serves:

- 9-digit social security number
- Address of last residence prior to incarceration
- Custody security level at which the inmate is held

BJS uses the information gathered in NCRP in published reports and statistics. The reports will be made available to the U.S. Congress, Executive Office of the President, practitioners, researchers, students, the media, others interested in criminal justice statistics, and the general public via the BJS Web site.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* BJS anticipates 57 respondents to NCRP for report year 2015: 50 state respondents and seven separate state parole boards. Each respondent currently submitting NCRP prison and post-custody community supervision data will require an estimated 27 hours of time to supply the information for their annual caseload and an additional 3 hours documenting or explaining the data for a total of 1,317 hours. For the one state which has not submitted prison data since 2004, and the 19 states that do not currently submit post-custody community supervision data, the total first year's burden estimate is 510 hours, which includes the time required for developing or modifying computer programs to extract the data, performing and checking the extracted data, and submitting it electronically to BJS' data collection agency via SFTP. The total burden for all 57 NCRP data providers is 1,827 hours for report year 2015. All states submit data via a secure file transfer protocol (SFTP) electronic upload.

(6) *An estimate of the total public burden (in hours) associated with the collection:* There are an estimated 1,827 total burden hours associated with this collection for report year 2015.

If additional information is required contact: Jerri Murray, Department Clearance Officer, United States Department of Justice, Justice Management Division, Policy and Planning Staff, Two Constitution Square, 145 N Street NE., 3E.405B, Washington, DC 20530.

information to be collected can be enhanced; and

- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

Overview of This Information Collection

(1) *Type of Information Collection:* Extension of a currently approved collection.

(2) *The Title of the Form/Collection:* Methodological research to support the redesign of the National Crime Victimization Survey (NCVS).

(3) *The agency form number, if any, and the applicable component of the Department sponsoring the collection:* Form numbers not available for generic clearance. The applicable component within the Department of Justice is the Bureau of Justice Statistics, in the Office of Justice Programs.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* Persons 12 years or older living in sampled households located throughout the United States. The National Crime Victimization Survey (NCVS) collects, analyzes, publishes, and disseminates statistics on the criminal victimization in the U.S.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* An estimate of the total number of respondents is 20,000. The average length of interview will vary by the type of interview conducted. Completing the crime screener and incident report is estimated to take the average interviewed respondent 15–30 minutes to respond, while a cognitive interview for testing alternative methods for measuring victimization may take 1–2 hours.

(6) *An estimate of the total public burden (in hours) associated with the collection:* There are an estimated 12,075 total burden hours associated with this collection.
