

DEPARTMENT OF TRANSPORTATION**National Highway Traffic Safety Administration****[Docket No. NHTSA–2015–0054; Notice 1]****Mack Trucks, Inc., Receipt of Petition for Decision of Inconsequential Noncompliance****AGENCY:** National Highway Traffic Safety Administration (NHTSA), Department of Transportation (DOT).**ACTION:** Receipt of petition.

SUMMARY: Mack Trucks, Inc. (Mack), has determined that certain model year (MY) 2014–2016 Mack LEU model incomplete vehicles do not fully comply with paragraphs S5.3.3 and S5.3.4 of Federal Motor Vehicle Safety Standard (FMVSS) No. 121, *Air Brake Systems*. Mack has filed an appropriate report dated April 27, 2015, pursuant to 49 CFR part 573, *Defect and Noncompliance Responsibility and Reports*.

DATES: The closing date for comments on the petition is September 17, 2015.

ADDRESSES: Interested persons are invited to submit written data, views, and arguments on this petition. Comments must refer to the docket and notice number cited at the beginning of this notice and submitted by any of the following methods:

- **Mail:** Send comments by mail addressed to: U.S. Department of Transportation, Docket Operations, M–30, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE., Washington, DC 20590.
- **Hand Deliver:** Deliver comments by hand to: U.S. Department of Transportation, Docket Operations, M–30, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE., Washington, DC 20590. The Docket Section is open on weekdays from 10 a.m. to 5 p.m. except Federal Holidays.
- **Electronically:** Submit comments electronically by: Logging onto the Federal Docket Management System (FDMS) Web site at <http://www.regulations.gov/>. Follow the online instructions for submitting comments. Comments may also be faxed to (202) 493–2251.

Comments must be written in the English language, and be no greater than 15 pages in length, although there is no limit to the length of necessary attachments to the comments. If comments are submitted in hard copy form, please ensure that two copies are provided. If you wish to receive confirmation that your comments were received, please enclose a stamped, self-

addressed postcard with the comments. Note that all comments received will be posted without change to <http://www.regulations.gov>, including any personal information provided.

Documents submitted to a docket may be viewed by anyone at the address and times given above. The documents may also be viewed on the Internet at <http://www.regulations.gov> by following the online instructions for accessing the dockets. DOT's complete Privacy Act Statement is available for review in the **Federal Register** published on April 11, 2000, (65 FR 19477–78).

The petition, supporting materials, and all comments received before the close of business on the closing date indicated below will be filed and will be considered. All comments and supporting materials received after the closing date will also be filed and will be considered to the extent possible. When the petition is granted or denied, notice of the decision will be published in the **Federal Register** pursuant to the authority indicated below.

SUPPLEMENTARY INFORMATION:

I. Mack's Petition: Pursuant to 49 U.S.C. 30118(d) and 30120(h) (see implementing rule at 49 CFR part 556), Mack submitted a petition for an exemption from the notification and remedy requirements of 49 U.S.C. Chapter 301 on the basis that this noncompliance is inconsequential to motor vehicle safety. After reviewing the petition, NHTSA requested additional information from Mack by letter dated July 9, 2015. In response to that letter, Mack provided supplemental information by letter dated July 17, 2015. Copies of NHTSA's request and Mack's response are available from the petition docket.

This notice of receipt of Mack's petition is published under 49 U.S.C. 30118 and 30120 and does not represent any agency decision or other exercise of judgment concerning the merits of the petition.

II. Vehicles Involved: Affected are approximately 1,977 MY 2014–2016 Mack LEU model incomplete vehicles manufactured between July 22, 2013 and April 20, 2015.

III. Noncompliance: Mack explains that the noncompliance is that the brake actuation and release times slightly (by milliseconds) exceed the requirements as specified in paragraphs S5.3.3 and S5.3.4 of FMVSS No. 121.

IV. Rule Text: Paragraph S5.3.3 of FMVSS No. 121 requires in pertinent part:

S5.3.3 *Brake Actuation time.* Each service brake system shall meet the requirements of S5.3.3.1(a) and (b) . . .

S5.3.3.1(a) With an initial service reservoir system air pressure of 100 psi, the air pressure in each brake chamber shall, when measured from the first movement of the service brake control, reach 60 psi in not more than 0.45 second in the case of trucks and buses, . . .

Paragraph S5.3.4 of FMVSS No. 121 requires in pertinent part:

S5.3.4 *Brake Release time.* Each service brake system shall meet the requirements of S5.3.4.1(a) and (b) . . .

S5.3.4.1(a) With an initial service brake chamber air pressure of 95 psi, the air pressure in each brake chamber shall, when measured from the first movements of the service brake control, fall to 5 psi in not more than 0.55 second in the case of trucks and buses, . . .

V. Summary of Mack's Analyses: Mack stated its belief that the subject noncompliance is inconsequential to motor vehicle safety for the following reasons:

(A) Mack conducted pneumatic brake timings tests on a test vehicle representative of the affected population to show the results compared to the requirement. The test vehicle was configured similar to a dual-drive (or twin steer) residential garbage truck equipped with left-hand and right-hand steering and brake controls. Tests were conducted on each axle, separately, using the left-hand brake control and then, the right hand brake control.

Mack's data indicate that, on average, steer axle pneumatic brake actuation times exceed the requirement by 0.04 seconds, steer axle pneumatic brake release times, on average, exceed the requirement by 0.09 seconds, and drive axle brake timing results indicate compliance with the safety standard's requirement.

Mack stated that a change in brake chamber size from type 24 to type 30, which occurred in 2013 production, may have caused the noncompliance.

(B) Mack conducted additional brake timing and dynamic performance tests to evaluate how this noncompliance affects overall brake performance. The tests were performed by an independent testing and evaluation company, Link Commercial Vehicle Testing (Link) located in East Liberty, Ohio. According to Mack, the results of these tests clearly show that the trucks that are affected by the subject noncompliance are compliant with the brake stopping distance requirements. Mack provided a chart to illustrate the stopping distance test results. (Detailed results from the tests provided by Mack are available from the docket for this petition).

(C) Mack stated that LEU's are used almost exclusively in residential garbage collection service. Because of that, Mack

says there are no concerned vehicles that tow air-braked trailers and that compatibility with other air brake vehicles is also not cause for concern.

(D) Mack also stated that brake release timing has been the subject of previous petitions that it believes are similar to its petition and were granted by NHTSA.

Mack has additionally informed NHTSA that it is correcting the noncompliance so that all future production of the subject trucks will fully comply with FMVSS No. 121.

In summation, Mack believes that the described noncompliance of the subject trucks is inconsequential to motor vehicle safety, and that its petition, to exempt Mack from providing recall notification of noncompliance as required by 49 U.S.C. 30118 and remedying the recall noncompliance as required by 49 U.S.C. 30120 should be granted.

NHTSA notes that the statutory provisions (49 U.S.C. 30118(d) and 30120(h)) that permit manufacturers to file petitions for a determination of inconsequentiality allow NHTSA to exempt manufacturers only from the duties found in sections 30118 and 30120, respectively, to notify owners, purchasers, and dealers of a defect or noncompliance and to remedy the defect or noncompliance. Therefore, any decision on this petition only applies to the subject incomplete vehicles that Mack no longer controlled at the time it determined that the noncompliance existed. However, any decision on this petition does not relieve equipment distributors and dealers of the prohibitions on the sale, offer for sale, or introduction or delivery for introduction into interstate commerce of the noncompliant incomplete vehicles under their control after Mack notified them that the subject noncompliance existed.

Authority: (49 U.S.C. 30118, 30120; delegations of authority at 49 CFR 1.95 and 501.8).

Jeffrey Giuseppe,

Director, Office of Vehicle Safety Compliance.

BILLING CODE 4910-59-P

DEPARTMENT OF TRANSPORTATION

Pipeline and Hazardous Materials Safety Administration

[Docket No. PHMSA-2014-0098; Notice No. 15-15]

Hazardous Materials: Information Collection Activities

AGENCY: Pipeline and Hazardous Materials Safety Administration (PHMSA), Department of Transportation (DOT).

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces that the Information Collection Requests (ICRs) discussed below will be forwarded to the Office of Management and Budget (OMB) for renewal and extension. These ICRs describe the nature of the information collections and their expected burdens. A **Federal Register** notice with a 60-day comment period soliciting comments on these ICRs was published in the **Federal Register** on April 29, 2015 [80 FR 23582] under Docket No. PHMSA-2015-0098 (Notice No. 15-8). PHMSA did not receive any comments in response to the April 29, 2015 notice.

DATES: Interested persons are invited to submit comments on, or before September 17, 2015.

ADDRESSES: Send comments regarding the burden estimate, including suggestions for reducing the burden, by mail to the Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for DOT-PHMSA, 725 17th Street NW., Washington, DC 20503, by fax, 202-395-5806, or by email, to OIRA_Submission@omb.eop.gov. Comments should refer to the information collection by title and/or OMB Control Number.

We invite comments on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (2) the accuracy of the Department's estimate of the burden of the proposed information collection; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

Docket: For access to the dockets to read background documents or comments received, go to <http://www.regulations.gov>.

FOR FURTHER INFORMATION CONTACT:

Steven Andrews or T. Glenn Foster, Standards and Rulemaking Division (PHH-12), U.S. Department of Transportation, Pipeline and Hazardous Materials Safety Administration, 1200 New Jersey Avenue SE., East Building, 2nd Floor, Washington, DC 20590-0001, Telephone (202) 366-8553.

SUPPLEMENTARY INFORMATION: Section 1320.8 (d), Title 5, Code of Federal Regulations requires Federal agencies to provide interested members of the public and affected agencies an opportunity to comment on information collection and recordkeeping requests. This notice identifies information collection requests that PHMSA will be submitting to OMB for renewal and extension. These information collections are contained in 49 CFR parts 172, 173, 174, 175, 176, and 177 of the Hazardous Materials Regulations (HMR; 49 CFR parts 171-180). PHMSA has revised burden estimates, where appropriate, to reflect current reporting levels or adjustments based on changes in proposed or final rules published since the information collections were last approved. The following information is provided for each information collection: (1) Title of the information collection, including former title if a change is being made; (2) OMB Control Number; (3) abstract of the information collection activity; (4) description of affected persons; (5) estimate of total annual reporting and recordkeeping burden; and (6) frequency of collection. PHMSA will request a three-year term of approval for each information collection activity and, when approved by OMB, publish notice of the approvals in the **Federal Register**.

PHMSA requests comments on the following information collections:

Title: Hazardous Materials Shipping Papers and Emergency Response Information.

OMB Control Number: 2137-0034.

Summary: This information collection is for the requirement to provide a shipping paper and emergency response information with shipments of hazardous materials. Shipping papers are considered to be a basic communication tool relative to the transportation of hazardous materials. The definition of a shipping paper in 49 CFR 171.8 includes a shipping order, bill of lading, manifest, or other shipping document serving a similar purpose and containing the information required by §§ 172.202, 172.203, and 172.204 of the HMR. A shipping paper with emergency response information must accompany most hazardous materials shipments and be readily
