

information provided here is solely for questions regarding this notice. It is not for individual case status inquiries. Applicants seeking information about the status of their individual cases can check Case Status Online, available at the USCIS Web site at <http://www.uscis.gov>, or call the USCIS National Customer Service Center at (800) 375-5283; TTY (800) 767-1833.

#### SUPPLEMENTARY INFORMATION:

##### Comments

You may access the information collection instrument with instructions or additional information by visiting the Federal eRulemaking Portal site at: <http://www.regulations.gov> and entering USCIS-2006-0050 in the search box. Written comments and suggestions from the public and affected agencies should address one or more of the following four points:

(1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

##### Overview of This Information Collection

(1) *Type of Information Collection Request:* Revision of a Currently Approved Collection.

(2) *Title of the Form/Collection:* Nonimmigrant Petition Based on Blanket L Petition.

(3) *Agency form number, if any, and the applicable component of DHS sponsoring the collection:* I-129S; USCIS.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* Primary: Business or others for profit. This form is used by an employer to classify employees as L-1 nonimmigrant intracompany transferees under a blanket L petition approval. USCIS will use the data on this form to determine eligibility for the requested immigration benefit.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* The estimated total number of respondents for the information collection Form I-129S is 75,000, and the estimated hour burden per response is 3 hours.

(6) *An estimate of the total public burden (in hours) associated with the collection:* The total estimated annual hour burden associated with this collection is 225,000 hours.

(7) *An estimate of the total public burden (in cost) associated with the collection:* The estimated total annual cost burden associated with this collection of information is \$89,180,000.

Dated: August 24, 2015.

**Laura Dawkins,**

Chief, Regulatory Coordination Division, Office of Policy and Strategy, U.S. Citizenship and Immigration Services, Department of Homeland Security.

#### DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-5830-N-04]

##### 30-Day Notice of Submission of Proposed Information Collection for HUD Generic Clearance for Collection of Qualitative Feedback on Proposed New HUD Services or Products

**AGENCY:** Office of the Chief Information Officer, HUD.

**ACTION:** Notice.

**SUMMARY:** HUD has submitted the proposed information collection described below to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. The purpose of this notice is to allow for an additional 30 days of public comment.

**DATES:** *Comments Due Date:* September 28, 2015.

**ADDRESSES:** Interested persons are invited to submit comments regarding this proposal. Comments should refer to the proposal by name, or the FR number shown above, and should be sent to: Colette Pollard, Reports Management Officer, QDAM, Department of Housing and Urban Development, 451 7th Street SW., Room 4176, Washington, DC 20410-5000; telephone 202-402-3400 (this is not a toll-free number) or email at [Colette.Pollard@hud.gov](mailto:Colette.Pollard@hud.gov) for a copy of the proposed forms or other available information. Persons with hearing or speech impairments may access this

number through TTY by calling the toll-free Federal Relay Service at (800) 877-8339.

#### FOR FURTHER INFORMATION CONTACT:

Colette Pollard, Reports Management Officer, QDAM, Department of Housing and Urban Development, 451 7th Street SW., Washington, DC 20410; email [Colette.Pollard@hud.gov](mailto:Colette.Pollard@hud.gov) or telephone 202-402-3400. This is not a toll-free number. Persons with hearing or speech impairments may access this number through TTY by calling the toll-free Federal Relay Service at (800) 877-8339.

#### SUPPLEMENTARY INFORMATION:

##### I. Purpose and Background

###### A. Purpose

This notice informs the public that HUD has submitted to OMB a request for approval of the information collection described in Section II.A. The first notice that solicited public comment on the information collection described in Section II.A for a period of 60 days (60-day Notice) was published on June 10, 2015, at 80 FR 32974.

###### B. Background

Executive Order 12862, entitled "Setting Customer Service Standards," requires that Federal agencies provide the highest quality service to their customers by identifying needed services and seeking feedback on offered services. The information proposed to be collected under this notice is designed by HUD to garner qualitative feedback from HUD customers in an efficient, timely manner, in accordance with the Administration's commitment to improving service delivery.

In accordance with the Executive Order, the term "customer" means an individual or entity that is directly served by a department or agency. The term "qualitative feedback" refers to information that provides useful insights on perceptions and opinions, but does not constitute statistical surveys that yield quantitative results that can be generalized to the population of the study. The collections to be undertaken under this HUD proposed generic collection will allow for ongoing, collaborative, and actionable communications between HUD and its customers. The collections will also allow feedback to contribute directly to the improvement of HUD products and services, help identify where existing products and services may be lacking in some aspects, and whether there are additional products and services that could be offered by HUD. This notice informs the public that HUD is seeking approval from OMB

for the information collection described in Section A.

### C. Public Comments and HUD Responses

The 60-day Notice welcomed the submission of comments through HUD's docket at [www.regulations.gov](http://www.regulations.gov) (see <http://www.regulations.gov/#!docketDetail;D=HUD-2015-0053>) and to HUD's Reports Management Officer. HUD received no comments through the [www.regulations.gov](http://www.regulations.gov) Web site but HUD's Reports Management Officer received three public comments. The comments stated that the HUD's 60-day notice lacked specificity as to the information that HUD proposed to collect. As HUD advised both commenters the purpose of a "generic" clearance is to describe generally the type of information that an agency may seek in one or more upcoming survey. The survey, however, will not be general. The survey will be specific. Generic refers to the category of information that an agency may seek under a generic clearance.

HUD further advised that for the generic clearance that HUD seeks approval from OMB, the category of information that HUD is seeking pertains to feedback on new services or new products needed by HUD program participants or prospective participants. In the June 10, 2015, 60-day Notice, HUD provided a specific example of the type of solicitation of information that would fall under the generic clearance described in the June 10, 2015, notice and that example was the National Resource Network. As HUD stated in the June 10, 2015, notice: "An example of these types of services or products are the services offered by the National Resource Network that were initially determined best suited for cities with populations of 40,000 or more, and having, among other criteria, an annual average unemployment rate of 9 percent or more. (See [http://](http://nationalresourcenetwork.org/en/solutions/rfa)

[nationalresourcenetwork.org/en/solutions/rfa](http://nationalresourcenetwork.org/en/solutions/rfa)). HUD appreciates the comments received on the 60-day notice.

## II. Information Collection Proposed by This Notice

### A. Overview of Information Collection

**Title of Information Collection:** Generic Clearance for the Collection of Qualitative Feedback on Proposed New HUD Services or Products.

**OMB Approval Number:** Pending.

**Type of Request:** New.

**Form Number:** No specific form is currently contemplated.

**Description of the need for the information and proposed use:** For HUD to be successful in its mission, input from HUD customers and interested members of the public is essential. Such feedback takes many forms, including the solicitation of public comments through **Federal Register** notices, but also through surveys directly sent to HUD customers designed to gauge satisfaction with services and products offered by HUD. This generic clearance is designed to elicit input on possible new HUD products or services that may be helpful to HUD customers. An example of these types of services or products are the services offered by the National Resource Network that were initially determined best suited for cities with populations of 40,000 or more, and having, among other criteria, an annual average unemployment rate of 9 percent or more. (See <http://nationalresourcenetwork.org/en/solutions/rfa>.)

A generic collection, such as HUD is proposing through this notice, would allow HUD to survey its customers to determine whether HUD has identified appropriate eligibility criteria for new products and services under consideration, and correctly identified the categories of customers in need of these products or services. The areas of

inquiry anticipated to be surveyed would be those seeking information about the specific customer being surveyed, for example, the public housing agency (PHA), State and local government, private housing provider, nonprofit organizations, or other organization participating in HUD programs. Of the category or categories of program participants surveyed, the survey would inquire about: The demographics of the populations the customer serves; the type of HUD subsidized housing that is provided; energy, other utility, technological, or other infrastructure needs of the housing provided; the need for better access to community assets, such as transportation, financial services, educational services (schools, libraries or computer facilities), and sports and exercise facilities; the availability of any federal, other governmental, and local resources to address identified needs if these resources were made available; and any demonstration of community or governmental support to improve the quality of the housing provided. HUD anticipates the survey will solicit basic information regarding the customer and current or anticipated needs for which brief responses will suffice. However, the survey would provide the opportunity for the customer to present additional information pertaining to these topics that customers may choose to note.

**Respondents (i.e. affected public):** PHAs, State and local governments, tribal nations, multifamily housing providers, nonprofit organizations, and other organizations that participate in HUD programs.

**Estimated Number of Respondents:** 1,000.

**Estimated Number of Responses Annually:** 100.

**Frequency of Response:** Once.

**Average Hours per Response:** 1 hour.

**Total Estimated Burdens:** 100 hours.

Information collection	Number of respondents annually	Frequency of response	Responses per annum	Burden hour per response	Annual burden hours	Hourly cost per response	Annual cost
Demographics .....	1,000	1	100	1	1	0	0
Type of subsidized housing .....	1,000	1	100	1	1	0	0
Energy, Utility, Technology Needs .....	1,000	1	100	1	1	0	0
Community Assets Needs .....	1,000	1	100	1	1	0	0
Potential uses of federal and local resources .....	1,000	1	100	1	1	0	0
Totals .....	1,000	1	100	1	1	0	0

**B. Solicitation of Public Comment**

This notice is soliciting comments from members of the public and affected parties concerning the collection of information described in Section II.A on the following:

(1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) The accuracy of the agency's estimate of the burden of the proposed collection of information;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) Ways to minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

HUD encourages interested parties to submit comment in response to these questions.

**Authority:** Section 3507 of the Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35.

Dated: August 21, 2015.

**DEPARTMENT OF THE INTERIOR****Geological Survey**

[GX15RB00CMFCA00]

**Agency Information Collection Activities: Request for Comments**

**AGENCY:** U.S. Geological Survey (USGS), Interior.

**ACTION:** Notice of a new information collection: Use of Landsat satellite imagery in water resource management in the Western United States.

**SUMMARY:** We (the U.S. Geological Survey) will ask the Office of Management and Budget (OMB) to approve the information collection (IC) described below. As required by the Paperwork Reduction Act (PRA) of 1995, and as part of our continuing efforts to reduce paperwork and respondent burden, we invite the general public and other Federal agencies to take this opportunity to comment on this IC.

**DATES:** To ensure that your comments are considered, we must receive them on or before October 27, 2015.

**ADDRESSES:** You may submit comments on this information collection to the Information Collection Clearance Officer, U.S. Geological Survey, 12201 Sunrise Valley Drive MS 807, Reston, VA 20192 (mail); (703) 648-7197 (fax); or *gs-info\_collections@usgs.gov* (email). Please reference 'Information Collection 1028-NEW, Landsat satellite imagery use in Western United States water resource management' in all correspondence.

**FOR FURTHER INFORMATION CONTACT:**

Larisa Serbina, Economist, at (970) 222-9073 or *lserbina@usgs.gov*.

**SUPPLEMENTARY INFORMATION:**

**I. Abstract**

Water resources in the Western United States (U.S.) are scarce and recent droughts have only exacerbated disputes over water usage. As such, managing water resources effectively and efficiently is important for both private and public sector water users. However, monitoring water use comprehensively can be difficult using only on-the-ground techniques, due to the labor and time required for such efforts. Recent case studies initiated by the U.S. Geological Survey's (USGS) Land Remote Sensing (LRS) Program have indicated that Landsat satellite imagery plays an important role in Western U.S. water resource management. Landsat satellites are the only satellites to continuously collect the thermal imagery needed to measure evapotranspiration and provide it to the public at no cost. Evapotranspiration derived from thermal imagery can be used to objectively assess present and past water use on the landscape. For example, thermal data from Landsat satellites has been used in court cases to help settle water disputes. Landsat satellites also provide a range of other imagery which are used in water resource management. For example, the imagery can be used to identify different types of vegetation, such as agricultural crop types. There are unique considerations users must address in using Landsat imagery in water resources applications. The newest Landsat satellite, Landsat 8, launched in 2013, has two thermal spectral bands whereas the Landsat 7 satellite has one band. Thermal imagery from both Landsats 7 and 8 is also collected at a lower spatial resolution (60 meters and 100 meters, respectively) than the multispectral imagery collected by these satellites, though it is resampled to the same 30-meter resolution as the rest of the imagery.

While the handful of completed case studies have indicated the importance of Landsat imagery in water resource management, a broader picture of the use of the imagery by water resources users is not available. This makes it difficult for LRS to meet the needs of these users both now and in the future.

Given the consistency in water rights and the general scarcity of water in the Western U.S. as compared to the rest of the nation, we are proposing a survey that will focus specifically on the users who apply Landsat imagery in water resources in this region. Questions will be asked to determine the extent and type of use of Landsat imagery in water resource management projects, the preferred characteristics (*e.g.*, spatial
