

Sub-region	National Forest System unit	Date of current LMP
	Wasatch-Cache National Forest	2003

The Idaho and Southwestern Montana, Nevada, and Northeast California, and Utah Draft Land Use Plan Amendments (LUPAs)/Draft Environmental Impact Statements (EISs) and Proposed LUPAs/Final EISs included proposed GRSG management direction on Bureau of Land Management (BLM) public lands. However, the BLM completed a separate ROD and Resource Management Plan Amendments under BLM planning authorities. Management decisions within this ROD and Approved LMP Amendments apply only to National Forest System lands. There were no National Forest System lands involved in this effort in Northeast California.

A Notice of Availability for the Great Basin Region GRSG Proposed LMP Amendments/Final EISs for the Idaho and Southwest Montana, Nevada, and Northeast California, Oregon, and Utah sub-regions was published in the **Federal Register** on May 29, 2015, which initiated a 30-day protest period.

The BLM and Forest Service received 102 timely and valid protest submissions for all the Great Basin Region Proposed LUPAs/Final EISs. After careful consideration of all the issues raised in these protests, the Deputy Chief for the National Forest System concluded the responsible planning team followed all applicable laws, regulations, and policies and considered all relevant resource information and public input in developing the Proposed LMPs/Final EISs. For a full description of the issues raised during the protest period and how they were addressed, please refer to the Protest Resolution Reports for the Idaho and Southwest Montana, Nevada and Northeast California, and Utah Proposed LUPAs/Final EISs. These Reports, which include three Forest Service Proposed LMPs for Idaho and Southwest Montana, Nevada, and Utah, are available at the following Web site: http://www.blm.gov/wo/st/en/prog/planning/planning_overview/protest_resolution/protestreports.html.

The preferred alternatives, as presented in the Draft LUPA/Draft EISs and and further developed in the Proposed LUPAs/Final EISs as the Proposed Plan Amendment, were selected in the ROD as the Approved LMP Amendments with some minor clarifications.

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: U.S. Census Bureau.

Title: Quarterly Survey of Public

Pensions.

OMB Control Number: 0607-0143.

Form Number(s): F-10.

Type of Request: Extension of a currently approved collection.

Number of Respondents: 100.

Average Hours per Response: 45 minutes.

Burden Hours: 300.

Needs and Uses: A small number of large retirement systems control over 3.3 trillion dollars in public pension assets in the financial markets. In the process of preparing the frame for the 2012 Census of Governments, 3,992 public retirement systems administered by state and local governments were identified. The 100 largest systems, as measured by the system assets, account for about 87.2 percent of the total assets of all systems, based on the 2012 Census of Governments. The Quarterly Survey of Public Pensions is used to collect data on the assets, revenues, and expenditures of these 100 systems enabling policy makers and economists to follow the changing characteristics of these funds. 100 units are selected in an attempt to balance timeliness, respondent burden, workload, and data quality. The survey provides a more timely subset of the data presented in the Annual Survey of Public-Employee Pension Systems. Both Surveys are part of the Census Bureau's Government Finance program.

The U.S. Census Bureau initiated this survey in 1968 at the request of both the Council of Economic Advisers and the Federal Reserve Board. The most important information this survey provides is the quarterly change in composition of the securities holdings of the defined benefit public employee

retirement systems component of the economy. The Federal Reserve Board uses these data to track the public sector portion of the Flow of Funds Accounts. The Bureau of Economic Analysis (BEA) uses these data to estimate dividends received by state and local government retirement systems that, in turn, are used in preparing the National Income and Product Accounts. Additionally, the data are used by a variety of government officials, academics, students, and non-profit organizations to analyze trends in public employee retirement and the impact of retirement obligations on the fiscal well-being of state and local governments. Media that serve investment and public policy audiences routinely report on the quarterly data release, further disseminating the data.

Affected Public: State, local or tribal government.

Frequency: Quarterly.

Respondent's Obligation: Voluntary.

Legal Authority: 13 U.S.C. Sections 161 and 182.

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to OIRA_Submission@omb.eop.gov or fax to (202) 395-5806.

Sheleen Dumas,

PRA Lead, Office of the Chief Information Officer.
