SUPPLEMENTARY INFORMATION:

I. Abstract

The Secretary of the United States Department of the Interior is responsible for mineral resource development on Federal and Indian lands and the Outer Continental Shelf (OCS). Under various laws, the Secretary's responsibility is to manage mineral resources production on Federal and Indian lands and the OCS, collect royalties due, and distribute the funds collected under those laws. The Secretary also has a trust responsibility to manage Indian lands and seek advice and information from Indian beneficiaries. ONRR performs the minerals revenue management functions for the Secretary and assists the Secretary in carrying out the Department's trust responsibility for Indian lands. Public laws pertaining to mineral leases on Federal and Indian lands are available at http://www.onrr.gov/Laws_R_D/PubLaws/default.htm.

Information collections that we cover in this ICR are found at 30 CFR part 1202, subparts C and J, which pertain to royalties; part 1206, subparts B and E, which govern the valuation of oil and

gas produced from leases on Indian lands; and part 1207, which pertains to recordkeeping. Indian Tribes and individual Indian mineral owners receive all royalties generated from their lands. Determining product valuation is essential to ensure that Indian Tribes and individual Indian mineral owners receive payment on the full value of the minerals removed from their lands. Failure to collect the data that we describe in this ICR could result in the undervaluation of leased minerals on Indian lands. All data reported is subject to subsequent audit and adjustment.

Indian Oil

Regulations at 30 CFR part 1206, subpart B, govern the valuation for royalty purposes of all oil produced from Indian oil and gas leases (Tribal and allotted), except leases on the Osage Indian Reservation, and are consistent with mineral leasing laws, other applicable laws, and lease terms. Generally, these regulations provide that lessees determine the value of oil based upon the higher of (1) the gross proceeds under an arm's-length contract; or (2) major portion analysis. The value that a lessee determines may be eligible for a transportation allowance.

From information collected on Form ONRR-4110, Oil Transportation Allowance Report, ONRR and Tribal audit personnel evaluate (1) whether lessee-reported transportation allowances are within regulatory allowance limitations and calculated under applicable regulations; and (2) whether the lessees reported and paid the proper amount of royalties. Lessees must use Form ONRR-4110 for both arm's-length and non-arm's-length contracts.

Indian Gas

Regulations at 30 CFR part 1206, subpart E, govern the valuation for royalty purposes of natural gas produced from Indian oil and gas leases (Tribal and allotted). These regulations apply to all gas production from Indian oil and gas leases, except leases on the Osage Indian Reservation.

Most Indian leases contain the requirement to perform accounting for comparison (dual accounting) for gas produced from the lease. Lessees must elect to perform actual dual accounting as defined in 30 CFR 1206.176, or alternative dual accounting as defined in 30 CFR 1206.173. Lessees use Form ONRR-4410, Accounting for Comparison [Dual Accounting], to certify that dual accounting is not required on an Indian lease or to make

an election for actual or alternative dual accounting for Indian leases.

The regulations require lessees to submit Form ONRR-4411, Safety Net Report, when they sell gas production from an Indian oil or gas lease beyond the first index pricing point. The safety net calculation establishes the minimum value, for royalty purposes, of natural gas production from Indian oil and gas leases. This reporting requirement ensures that Indian lessors receive all royalties due and aids ONRR compliance efforts.

From information collected on Form ONRR-4295, Gas Transportation Allowance Report, ONRR and Tribal audit personnel evaluate (1) whether lessee-reported transportation allowances are within regulatory allowance limitations and calculated under applicable regulations; and (2) whether the lessees reported and paid the proper amount of royalties.

From information collected on Form ONRR-4109, Gas Processing Allowance Summary Report, ONRR and Tribal audit personnel evaluate (1) whether lessee-reported processing allowances are within regulatory allowance limitations and calculated under applicable regulations; and (2) whether the lessees reported and paid the proper amount of royalty.

Indian Oil and Gas

Lessees must submit Form ONRR-4393, Request to Exceed Regulatory Allowance Limitation, for both Federal and Indian leases to request to exceed the regulatory allowance limitation. Most of the burden hours are incurred on Federal leases; therefore, OMB approved the form under OMB Control Number 1012-0005, pertaining to Federal oil and gas leases. However, we include a discussion of the form in this ICR, as well as the burden hours for Indian leases. To request permission to exceed a regulatory allowance limit, lessees must (1) submit a letter to ONRR explaining why a higher allowance limit is necessary; and (2) provide supporting documentation, including a completed Form ONRR-4393. This form provides ONRR with the data necessary to make a decision whether to approve or deny the request.

OMB Approval

We are requesting OMB's approval to continue to collect this information. Not collecting this information would limit the Secretary's ability to discharge fiduciary duties and may also result in the inability to confirm the accurate royalty value to Indian Tribes and individual Indian mineral owners. ONRR protects proprietary information

that it receives and does not collect items of a sensitive nature. The requirement to report is mandatory for Form ONRR-4410, Accounting for Comparison [Dual Accounting], and for Form ONRR-4411, Safety Net Report, under certain circumstances. For all other forms in this collection, the requirement to report is required to obtain a benefit.
