- I. Introduction
- II. Notice of Commission Action
- III. Ordering Paragraphs

I. Introduction

On September 24, 2015, the Postal Service filed notice that it has entered into an additional Global Expedited Package Services 3 (GEPS 3) negotiated service agreement (Agreement).¹

To support its Notice, the Postal Service filed a copy of the Agreement, a copy of the Governors' Decision authorizing the product, a certification of compliance with 39 U.S.C. 3633(a), and an application for non-public treatment of certain materials. It also filed supporting financial workpapers.

II. Notice of Commission Action

The Commission establishes Docket No. CP2015-143 for consideration of matters raised by the Notice.

The Commission invites comments on whether the Postal Service's filing is consistent with 39 U.S.C. 3632, 3633, or 3642, 39 CFR part 3015, and 39 CFR part 3020, subpart B. Comments are due no later than October 5, 2015. The public portions of the filing can be accessed via the Commission's Web site (<http://www.prc.gov>).

The Commission appoints Kenneth R. Moeller to serve as Public Representative in this docket.

III. Ordering Paragraphs

It is ordered:

1. The Commission establishes Docket No. CP2015-143 for consideration of the matters raised by the Postal Service's Notice.

2. Pursuant to 39 U.S.C. 505, Kenneth R. Moeller is appointed to serve as an officer of the Commission to represent

the interests of the general public in this proceeding (Public Representative).

3. Comments are due no later than October 5, 2015.

4. The Secretary shall arrange for publication of this order in the **Federal Register**.

By the Commission.

Shoshana M. Grove,
Secretary.

Notice of Applications for Deregistration Under Section 8(f) of the Investment Company Act of 1940

September 25, 2015.

The following is a notice of applications for deregistration under section 8(f) of the Investment Company Act of 1940 for the month of September 2015. A copy of each application may be obtained via the Commission's Web site by searching for the file number, or for an applicant using the Company name box, at <http://www.sec.gov/search/search.htm> or by calling (202) 551-8090. An order granting each application will be issued unless the SEC orders a hearing. Interested persons may request a hearing on any application by writing to the SEC's Secretary at the address below and serving the relevant applicant with a copy of the request, personally or by mail. Hearing requests should be received by the SEC by 5:30 p.m. on October 20, 2015, and should be accompanied by proof of service on applicants, in the form of an affidavit or, for lawyers, a certificate of service. Pursuant to Rule 0-5 under the Act, hearing requests should state the nature of the writer's interest, any facts bearing upon the desirability of a hearing on the matter, the reason for the request, and the issues contested. Persons who wish to be notified of a hearing may request notification by writing to the Commission's Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-75986; File No. SR-MIAX-2015-55]

Self-Regulatory Organizations: Miami International Securities Exchange LLC; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Amend the MIAX Options Fee Schedule

September 25, 2015.

Pursuant to the provisions of Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² notice is hereby given that on September 21, 2015, Miami International Securities Exchange LLC ("MIAX" or "Exchange") filed with the Securities and Exchange Commission ("Commission") a proposed rule change as described in Items I, and II, below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of the Substance of the Proposed Rule Change

The Exchange is filing a proposal to amend the MIAX Options Fee Schedule (the "Fee Schedule") to modify the Exchange's connectivity fees.

The text of the proposed rule change is available on the Exchange's Web site at http://www.miaxoptions.com/filter/wotitle/rule_filing, at MIAX's principal office, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend its Fee Schedule regarding connectivity to the Exchange. Specifically, the Exchange proposes to (a) establish a new connectivity fee for a 10Gigabit ("Gb") ultra-low latency ("ULL") fiber connection; (b) establish a new connectivity testing and certification fee for the 10Gb ULL fiber connection; and (c) change the network connectivity fees so that the fees assessed to a subscriber during a trading month are pro-rated when a subscriber makes a change to the connectivity (by adding or deleting connections) with such pro-rated fees based on the number of trading days that the subscriber has been credentialed to utilize any of the Exchange application program interfaces ("APIs") in the production environment through such connection, divided by the total number of trading days in such month multiplied by the applicable monthly rate.

The Exchange currently offers various bandwidth alternatives for connectivity to the Exchange, including a 10Gb fiber connection and a 1Gb fiber connection.³ The Exchange now proposes to provide a second 10Gb fiber connection offering, which uses ultra-low latency switches.⁴ A switch is a type of network hardware that facilitates communication between a MIAX participant's application servers and the Exchange's application servers that service MIAX participants. Each of the Exchange's current connection offerings uses different switches, but the switches are of uniform type within each offering. As a consequence, all subscribers to a particular connection

receive the same latency in terms of the capabilities of their switches. The 10Gb ULL offering uses a new ultra-low latency switch, which provides faster processing of messages sent to it in comparison to the current switch in use for other types of connectivity. As a consequence, MIAX participants that seek faster processing of their messages to the Exchange will now have the opportunity to subscribe to a faster and more efficient connection to the Exchange.⁵

The Exchange proposes a monthly network connectivity fee of \$7,500 for a 10Gb ULL connection for both members and non-members. The Exchange also proposes a network connectivity testing and certification fee of \$4,000 for members and \$4,200 for non-members, which is identical to the testing and certification fee for the current 10Gb fiber connection. It has been MIAX's experience that Member testing takes less time than non-Member testing because Members have more experience testing these systems with the Exchange; generally fewer questions and issues arise during the testing and certification process. Therefore, the Exchange believes that it is reasonable to charge non-Members more for testing and certification than Members.

The network connectivity fee for the 10Gb ULL connectivity will be pro-rated based on the number of trading days that the member or non-member has been credentialed to utilize any of the Exchange APIs in a production environment through the 10Gb ULL connection, divided by the total number of trading days in such month multiplied by the monthly rate. MIAX participants may also be credentialed to receive market data through the 10Gb ULL connection.

The Exchange believes that the pricing of the 10Gb ULL connectivity is reflective of the value it will provide and the cost to the Exchange for the necessary hardware and other infrastructure and maintenance costs to the Exchange associated with this technology. The growth in the size of consolidated and proprietary data feeds has resulted in demand for faster processing of message traffic, and ultra-low latency switches meet this demand by decreasing the time in which individual messages are processed and market data is transmitted by these new switches. The Exchange's proposal will provide MIAX participants with the opportunity to connect to the Exchange via faster switch processing. The

³ See MIAX Fee Schedule, Section 5.

⁴ The Term "latency" for these purposes is a measure of the time it takes for an order to enter into a switch and then exit for entry into the Exchange's system.

⁵ The Exchange is not offering a low latency alternative for other bandwidth connections at this time, but may do so in the future.
