Draft Habitat Conservation Plan for Oregon Department of Transportation Routine Maintenance Activities

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comment.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), have received an application from the Oregon Department of Transportation (ODOT) for an incidental take permit (permit) under the Endangered Species Act (ESA) of 1973, as amended. The ODOT's

application requests a 25-year permit that would authorize "take" of the endangered Fender's blue butterfly and the threatened Oregon silverspot butterfly incidental to otherwise lawful activities associated with road right-of-way (ROW) maintenance and management activities. The application includes ODOT's draft habitat conservation plan (HCP), which describes the actions ODOT will implement to minimize and mitigate the impacts of incidental take caused by covered activities. We invite comment on the application, draft HCP, and the Service's draft environmental action statement (EAS) and preliminary determination that the draft HCP qualifies for a categorical exclusion under the National Environmental Policy Act (NEPA).

DATES: Written comments on the draft HCP and the NEPA categorical exclusion determination must be received from interested parties no later than November 4, 2015.

ADDRESSES: To request further information or submit written comments, please use one of the following methods, and note that your information request or comments are in reference to the ODOT HCP.

SUPPLEMENTARY INFORMATION:

Background

Section 9 of the ESA (16 U.S.C. 1531 *et seq.*) prohibits the take of fish and wildlife species listed as endangered or threatened under section 4 of the ESA. Under the ESA, the term "take" means to harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct (16 U.S.C. 1532(19)). The term "harm," as defined in our regulations, includes significant habitat modification or degradation that results in death or injury to listed species by significantly impairing essential behavioral patterns, including breeding, feeding, or sheltering (50 CFR 17.3). The term "harass" is defined in our regulations as an intentional or negligent act or omission which creates the likelihood of injury to wildlife by annoying it to such an extent as to significantly disrupt normal behavioral patterns, which include, but are not limited to, breeding, feeding, or sheltering (50 CFR 17.3).

Under specified circumstances, the Service may issue permits that authorize take of federally listed species, provided the take is incidental to, but not the purpose of, an otherwise lawful activity. Regulations governing permits for endangered and threatened species are at 50 CFR 17.22 and 17.32, respectively. Section 10(a)(1)(B) of the ESA contains provisions for issuing such incidental take permits to non-Federal entities for the take of endangered and threatened species, provided the following criteria are met:

- (1) The taking will be incidental;
- (2) The applicant will prepare a conservation plan that, to the maximum extent practicable, identifies the steps the applicant will take to minimize and mitigate the impact of such taking;
- (3) The applicant will ensure that adequate funding for the plan will be provided;
- (4) The taking will not appreciably reduce the likelihood of the survival and recovery of the species in the wild; and
- (5) The applicant will carry out any other measures that the Service may
