Department will instruct U.S. Customs and Border Protection (CBP) to liquidate all appropriate entries for TFM without regard to antidumping duties.

Consistent with the Department's assessment practice, for entries of subject merchandise during the POR produced by TFM for which it did not know that the merchandise was destined for the United States, we will instruct CBP to liquidate un-reviewed entries at the all-others rate if there is no rate for the intermediate company(ies) involved in the transaction.⁵

The following cash deposit requirements will be effective upon publication of the notice of final results of administrative review for all shipments of OBAs from Taiwan entered, or withdrawn from warehouse, for consumption on or after the date of publication as provided by section 751(a)(2) of the Act: (1) The cash deposit rate for TFM will be 0.00 percent, the weighted average dumping margin established in the final results of this administrative review; (2) for other manufacturers and exporters covered in a prior segment of the proceeding, the cash deposit rate will continue to be the company-specific rate published for the most recently completed segment of this proceeding; (3) if the exporter is not a firm covered in this review, a prior review, or the original investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recently completed segment of this proceeding for the manufacturer of subject merchandise; and (4) the cash deposit rate for all other manufacturers or exporters will continue to be 6.19 percent, the all-others rate established in the less than fair value investigation.⁶ These cash deposit requirements, when imposed, shall remain in effect until further notice.

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: In response to a request from Petitioners,¹ the Department of Commerce (the Department) is conducting an administrative review of the antidumping duty order on brass sheet and strip from Germany. The period of review (POR) is March 1, 2013, through February 28, 2014.² The

review covers ten producers or exporters of subject merchandise.³ We find that three of the producers or exporters for which the Department initiated a review, Schwermetall, ThyssenKrupp, and Wieland, had no shipments during the POR. Further, we find that subject merchandise has been sold at less than normal value by seven of the companies subject to this review.⁴ Based on our analysis of the comments and information received, these final results remain unchanged from the *Preliminary Results*.⁵ For the final weighted-average dumping margin, see the “Final Results of Review” section below.

DATES: *Effective Date:* October 13, 2015.

SUPPLEMENTARY INFORMATION:

Scope of the Order

The merchandise subject to the antidumping duty order is brass sheet and strip, other than leaded brass and tin brass sheet and strip, from Germany, which is currently classified under subheading 7409.21.00.50, 7409.21.00.75, 7409.21.00.90, 7409.29.00.50, 7409.29.00.75, and

Request for Revocation in Part, 79 FR 24398 (April 30, 2014) (*Initiation*).

³ The ten producers or exporters include: Aurubis Stolberg GmbH & Co. KG, Carl Schreiber GmbH, KME Germany AG & Co. KG, Messingwerk Plettenberg Herfeld GmbH & Co. KG (Messingwerk), MKM Mansfelder Kupfer & Messing GmbH, Schlenk Metallfolien GmbH & Co. KG, Schwermetall Halbzeugwerk GmbH & Co. KG (Schwermetall), Sundwiger Messingwerke GmbH & Co. KG, ThyssenKrupp VDM GmbH (ThyssenKrupp), and Wieland-Werke AG (Wieland).

⁴ The seven companies include Aurubis Stolberg GmbH & Co. KG, Carl Schreiber GmbH, KME Germany AG & Co. KG, Messingwerk, MKM Mansfelder Kupfer & Messing GmbH, Schlenk Metallfolien GmbH & Co. KG, and Sundwiger Messingwerke GmbH & Co. KG.

The three producers or exporters which we determine had no shipments are Schwermetall, ThyssenKrupp, and Wieland.

7409.29.00.90 of the Harmonized Tariff Schedule of the United States (HTSUS). Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the merchandise subject to the order is dispositive.⁶

Methodology

In accordance with sections 776(a) and (b) of the Tariff Act of 1930, as amended (the Act), we relied on facts available with an adverse inference with respect to Messingwerk, the sole company selected for individual examination in this review. Thus, we are assigning a rate of 55.60 percent as the dumping margin for Messingwerk.⁷ In making these findings, we relied on facts available because Messingwerk failed to respond to the Department’s antidumping duty questionnaire, and thus withheld requested information, failed to provide requested information by the established deadlines, and significantly impeded this proceeding. See sections 776(a)(1) and (2)(A)–(C) of the Act. Furthermore, because we determine that Messingwerk failed to cooperate by not acting to the best of its ability to comply with the Department’s requests for information, we drew an adverse inference in selecting from among the facts otherwise available. See section 776(b) of the Act.

Additionally, as indicated in the “Final Results of Review” section below, we determine that a margin of 22.61 percent applies to the six firms not selected for individual review. We have determined to base the dumping margin for the six companies not selected for individual examination in this review on an average of the range of certain dumping margins contained in the underlying Petition.⁸ For further information, see the Preliminary Decision Memorandum⁹ at the section titled, “Rate for Non-Examined Companies.”
