Background

The FHWA's Buy America policy in 23 CFR 635.410 requires a domestic manufacturing process for any steel or iron products (including protective coatings) that are permanently incorporated in a Federal-aid construction project. The regulation also provides for a waiver of the Buy America requirements when the application would be inconsistent with the public interest or when satisfactory quality domestic steel and iron products are not sufficiently available. This notice provides information regarding FHWA's finding that a Buy America waiver is appropriate for use of non-domestic Vanessa 30,000 series water line valves (two 42 inch, three 16 inch, and one 8 inch) for the Woodmen Road corridor improvement project, phase 2, in Colorado Spring, Colorado. These waterline materials are required to relocate an existing 42 inch high pressure water line outside of the roadway. These valves would meet a zero leakage performance that is necessary for worker safety during water line construction.

In accordance with Division K, section 122 of the "Consolidated and Further Continuing Appropriations Act, 2015" (Pub. L. 113–235), FHWA published a notice of intent to issue a waiver on its Web site (<http://www.fhwa.dot.gov/construction/contracts/waivers.cfm?id=111>) on August 18. The FHWA received no comments in response to the publication. Based on all the information available to the agency, FHWA concludes that there are no domestic manufacturers of Vanessa 30,000 series water line valves.

In accordance with the provisions of section 117 of the SAFETEA–LU Technical Corrections Act of 2008 (Pub. L. 110–244, 122 Stat. 1572), FHWA is providing this notice as its finding that a waiver of Buy America requirements is appropriate. The FHWA invites public comment on this finding for an additional 15 days following the effective date of the finding. Comments may be submitted to FHWA's Web site
