BILLING CODE 4830-01-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA-R10-OAR-2014-0562: FRL-9935-47-Region 10]

Approval and Promulgation of Implementation Plans; Oregon: Lane Regional Air Protection Agency Open Burning Rules and Oregon Department of Environmental Quality Enforcement Procedures

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to approve into Oregon's State Implementation Plan (SIP) a submittal from the Oregon Department of Environmental Quality (ODEQ) dated July 7, 2014, containing revisions to the Lane Regional Air Protection Agency's (LRAPA) open burning rules adopted on March 14, 2008. The revised LRAPA open burning rules make clarifications and provide for additional controls of open burning activities in Lane County, would reduce particulate emissions in Lane County, and would strengthen Oregon's SIP. The EPA is also proposing to approve a submittal from the ODEQ dated June 30, 2014, to update Oregon Administrative Rules (OAR) that relate to procedures in contested cases (appeals), enforcement procedures, and civil penalties. The EPA is proposing to approve most of the submitted provisions because the revisions clarify and strengthen the SIP and are consistent with the Clean Air Act (CAA). The EPA is not proposing to approve certain provisions of the submitted rules that do not relate to the requirements for SIPs under section 110 of the CAA. Finally, the EPA is proposing to correct the SIP pursuant to the authority of section 110(k)(6) of the CAA to remove certain provisions

previously approved by the EPA that do not relate to the requirements for SIPs under section 110 of the CAA.

DATES: Comments must be received on or before November 23, 2015.

SUPPLEMENTARY INFORMATION: For further information, please see the direct final action, of the same title, which is located in the Rules section of this **Federal Register**. The EPA is simultaneously approving the State's SIP revision as a direct final rule without prior proposal because the EPA views this as a noncontroversial SIP revision and anticipates no adverse comments. A detailed rationale for the approval is set forth in the preamble to the direct final rule. If the EPA receives no adverse comments, the EPA will not take further action on this proposed rule.

If the EPA receives adverse comments, the EPA will withdraw the direct final rule and it will not take effect. The EPA will address all public comments in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time. Please note that if we receive adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule,

the EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment.

SUPPLEMENTARY INFORMATION:

Background on the Convention

The Convention on the Conservation and Management of Highly Migratory Fish Stocks in the Western and Central Pacific Ocean (Convention) focuses on the conservation and management of highly migratory species (HMS) and the management of fisheries for HMS. The objective of the Convention is to ensure, through effective management, the long-term conservation and sustainable use of HMS in the WCPO. To accomplish this objective, the Convention established the Commission, which includes Members, Cooperating Non-members, and Participating Territories. The United States of America is a Member. American Samoa, Guam, and the Commonwealth of the Northern Mariana Islands are Participating Territories.

As a Contracting Party to the Convention and a Member of the Commission, the United States implements domestically conservation and management measures adopted by the Commission and other decisions of the Commission. The Western and Central Pacific Fisheries Convention Implementation Act (16 U.S.C. 6901 *et seq.*; WCPFC Implementation Act), authorizes the Secretary of Commerce, in consultation with the Secretary of State and the Secretary of the

Department in which the United States Coast Guard is operating (currently the Department of Homeland Security), to promulgate such regulations as may be necessary to carry out the obligations of the United States under the Convention, including the decisions of the Commission. The WCPFC Implementation Act further provides that the Secretary of Commerce shall ensure consistency, to the extent practicable, of fishery management programs administered under the WCPFC Implementation Act and the Magnuson-Stevens Fishery Conservation and Management Act (MSA; 16 U.S.C. 1801 *et seq.*), as well as other specific laws (see 16 U.S.C. 6905(b)). The Secretary of Commerce has delegated the authority to promulgate regulations under the WCPFC Implementation Act to NMFS. A map showing the boundaries of the area of application of the Convention (Convention Area), which comprises the majority of the WCPO, can be found on the WCPFC Web site at: www.wcpfc.int/doc/convention-area-map.

Background on Purse Seine Fishing Effort Limits in the Convention Area

Since 2009, NMFS regulations have established limits on fishing effort by U.S. purse seine fishing vessels in the area of application of the Convention (Convention Area), including in the area known as the Effort Limit Area for Purse Seine, or ELAPS, which is comprised of all areas of high seas and the U.S. exclusive economic zone (EEZ) between the latitudes of 20° N. and 20° S. in the Convention Area. These regulations are promulgated under authority of the WCPFC Implementation Act and have been codified at 50 CFR 300.223(a).

NMFS has established the purse seine fishing effort limits in the ELAPS to implement a series of Commission decisions for tropical tuna stocks in the Convention Area.

NMFS established a purse seine fishing effort limit in the ELAPS for 2015 in an interim rule published May 21, 2015 (80 FR 29220). NMFS issued a final rule, responding to comments on the interim rule and making final the interim rule, on August 25, 2015 (80 FR 51476). The limit is 1,828 fishing days.

On June 8, 2015, NMFS issued a notice announcing that the U.S. purse seine fishery in the ELAPS would close as a result of reaching the limit of 1,828 fishing days (80 FR 32313). The closure took effect June 15, 2015, and will remain in effect through December 31, 2015. The closure applies to all U.S. purse seine fishing vessels. During the closure, fishing vessels of the United
