*Total Estimated Number of Annual Responses:* 450.

*Total Estimated Number of Annual Burden Hours:* 4,500.

*Abstract:* This supporting statement serves as an update to approved OMB package 1810-0669. Implemented under the No Child Left Behind Act of 2001, Title II, Part B, the Mathematics and Science Partnerships (MSP) program is a formula grant program strategically designed to improve the content knowledge of teachers and the academic performance of students in mathematics and science. By funding collaborative partnerships between science, technology, engineering, and mathematics (STEM) departments at institutions of higher education (IHEs), and high-need school districts, the MSP program enables the delivery of intensive, content-rich professional development intended to improve classroom instruction and, ultimately, to raise student achievement in math and science.

Because MSP is a formula grant program, the size of individual state awards is based on student population and poverty rates, with no state receiving less than one half of one percent of the total appropriation. Each state is then responsible for administering a competitive grant making process to determine the distribution of funds across proposed MSP projects.

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Project No. 184–244]

### El Dorado Irrigation District; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969, as

amended, and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380 (Order No. 486, 52 FR 47897), the Office of Energy Projects has reviewed an application to amend the El Dorado Project license filed by El Dorado Irrigation District (licensee). The licensee proposes constructing an earthen stability buttress, raising the crest of the dam, and upgrading appurtenant facilities. No Federal lands would be involved in the proposed action. The project is located on the South Fork American River adjacent to the unincorporated community of Pollock Pines in El Dorado, County, California.

An environmental assessment (EA) has been prepared for Commission staff's review of the proposed action, containing staff's analysis of the proposed action and concluding that approval of the proposal, with staff's recommended measures, would not constitute a major federal action significantly affecting the quality of the human environment. The EA is available for electronic review and reproduction at the Commission's Public Reference Room, located at 888 First Street NE., Room 2A, Washington, DC 20426. The EA may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number (P–184) in the docket number field to access the document. Any comments on the EA should be filed by *November 27, 2015*, and addressed to Kimberly D.
