List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Carbon monoxide, Incorporation by reference, Intergovernmental relations, Lead, Nitrogen dioxide, Ozone, Particulate matter, Reporting and recordkeeping requirements, Sulfur oxides, Volatile organic compounds.

Dated: October 30, 2015. Mark Hague,

Acting Regional Administrator, Region 7.

For the reasons stated in the preamble, EPA amends 40 CFR part 52 as set forth below:

Part 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

■ 1. The authority citation for part 52 continues to read as follows:

EPA-APPROVED MISSOURI REGULATIONS

Authority: 42 U.S.C. 7401 et. seq.

Subpart AA—Missouri

■ 2. In § 52.1320(c) the table is amended by revising the entry for "10–5.220" to read as follows:

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA-R05-OAR-2015-0637; FRL-9933-71-Region 5]

Air Plan Approval; Ohio; Revised Format for Materials Being Incorporated by Reference

AGENCY: Environmental Protection Agency (EPA). ACTION: Final rule; administrative change.

SUMMARY: The Environmental Protection Agency (EPA) is revising the format for materials that are incorporated by reference (IBR) into the Ohio State Implementation Plan (SIP). The regulations and other materials affected by this format change have all been previously submitted by Ohio and approved by EPA.

DATES: This final rule is effective on November 10, 2015.

ADDRESSES: EPA has established a docket for this action under Docket ID No. EPA–R05–OAR–2015–0637. SIP

materials which are incorporated by reference into 40 CFR part 52 are available for inspection at the following locations: Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604 and the National Archives and Records Administration (NARA). For information on the availability of this material at NARA, call (202) 741–6030, or go to: http://www.archives.gov/ federal-register/cfr/ibr-locations.html.

FOR FURTHER INFORMATION CONTACT: Matt Rau, Environmental Engineer, Control Strategies Section, Air Programs Branch (AR–18J), Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604, (312) 886–6524, rau.matthew@epa.gov.

SUPPLEMENTARY INFORMATION:

Throughout this document whenever "we", "us", or "our" is used, we mean EPA. This supplementary information section is arranged as follows:

Table of Contents

- I. Background
 - A. Description of a SIP
 - B. How EPA Enforces SIPs
 - C. How the State and EPA Update the SIP
 - D. How EPA Compiles the SIP
 - E. How EPA Organizes the SIP Compilation
 - F. Where You Can Find a Copy of the SIP Compilation

- G. The Format of the New Identification of Plan Section
- H. When a SIP Revision Becomes Federally Enforceable
- I. The Historical Record of SIP Revision Approvals
- II. What is EPA doing in this action?
- II. Statutory and Executive Order Reviews

I. Background

This format revision will primarily affect the "Identification of plan" section, as well as the format of the SIP materials that will be available for public inspection at NARA and the EPA Region 5 Office. EPA is also adding a table in the "Identification of plan" section which summarizes the approval actions that EPA has taken on the nonregulatory and quasi-regulatory portions of the Ohio SIP.

A. Description of a SIP

Each state has a SIP containing the control measures and strategies to attain and maintain the National Ambient Air Quality Standards (NAAQS) along with other Clean Air Act (CAA) requirements. The SIP is extensive, containing such elements as air pollution control regulations, emission inventories, monitoring networks, attainment demonstrations, and enforcement mechanisms.

B. How EPA Enforces SIPs

Each state must formally adopt the control measures and strategies in the SIP after the public has had an opportunity to comment on them. The states then submit them to EPA as requested SIP revisions on which EPA must formally act.

EPA evaluates submitted SIPs to determine if they meet CAA requirements. If and when these control measures and strategies are approved by EPA, after notice and comment rulemaking, they are incorporated into the Federally approved SIP and identified in part 52 (Approval and Promulgation of Implementation Plans), title 40 of the Code of Federal Regulations (40 CFR part 52). The actual state regulations approved by EPA are not reproduced in their entirety in 40 CFR part 52, but are "incorporated by reference", which means that EPA has approved a given state regulation with a specific effective date. This format allows the public to know which measures are contained in a given SIP and to help determine whether the state is enforcing the regulations. It also assists EPA and the public to take enforcement action should a state not enforce its SIP-approved regulations.

C. How the State and EPA Update the SIP

The SIP is a dynamic document that the state can revise as necessary to address the unique air pollution problems in the state. Therefore, EPA must periodically take action on SIP revisions containing new and/or revised regulations in order to make them part of the SIP. On May 22, 1997 (62 FR 27968), EPA revised the procedures for incorporating by reference Federally approved SIPs.

ÈPA has been developing the following: (1) A revised SIP document for each state that would be incorporated by reference under the provisions of title 1 CFR part 51; (2) a revised mechanism for announcing EPA approval of revisions to an applicable SIP and updating both the IBR document and the CFR; and (3) a revised format of the "Identification of plan" sections for each applicable subpart to reflect these revised IBR procedures

D. How EPA Compiles the SIP

The Federally approved regulations, source-specific permits, and nonregulatory provisions (entirely or portions of) submitted by each state agency and approved by EPA have been organized into a "SIP compilation". The SIP compilation contains the updated regulations, source-specific permits, and nonregulatory provisions approved by EPA through previous rulemaking actions in the **Federal Register**.

E. How EPA Organizes the SIP Compilation

Each SIP compilation contains three parts. Part one contains regulations, part two contains source-specific requirements, and part three contains nonregulatory provisions that have been EPA approved. Each part consists of a table of identifying information for each SIP-approved regulation, each SIPapproved permit, and each nonregulatory SIP provision. In this action, EPA is publishing the tables summarizing the applicable SIP requirements for Ohio. The state effective dates in the tables indicate the date of the most recent revision to a particular approved regulation. The EPA Regional Offices have the primary responsibility for updating the compilations and ensuring their accuracy.

F. Where You Can Find a Copy of the SIP Compilation

EPA's Region 5 Office developed and will maintain the compilation for Ohio. A copy of the full text of Ohio's regulatory and source-specific compilations will also be maintained at NARA.

G. The Format of the New Identification of Plan Section

In order to better serve the public, EPA revised the organization of the "Identification of plan" section and included additional information to clarify the enforceable elements of the SIP.

The revised Ohio Identification of plan section contains five subsections:

- 1. Purpose and scope
- 2. Incorporation by reference
- 3. EPA-approved regulations
- 4. EPA-approved source-specific requirements
- 5. EPA-approved nonregulatory and quasi-regulatory provisions

H. When a SIP Revision Becomes Federally Enforceable

All revisions to the applicable SIP become Federally enforceable as of the effective date of the revisions to paragraphs (c), (d), or (e) of the applicable Identification of plan section found in each subpart of 40 CFR part 52.

I. The Historical Record of SIP Revision Approvals

To facilitate enforcement of previously approved SIP provisions and provide a smooth transition to the new SIP processing system, EPA retains the original Identification of plan section, previously appearing in the CFR as the first or second section of part 52 for each state subpart. After an initial twoyear period, EPA will review its experience with the new system and enforceability of previously approved SIP measures and will decide whether or not to retain the Identification of plan appendices for some further period.

Although EPA is retaining the original Identification of Plan section, other sections of part 52 are duplicative of the new Identification of Plan section. EPA is therefore removing §§ 52.1881(b) "Regulations for the control of sulfur dioxide in the State of Ohio", 52.1890 "Removed control measures", 52.1891 "Section 110(a)(2) infrastructure requirements", and 52.1919 "Identification of plan-conditional approval" as part of the general "housekeeping" discussed below.

II. What is EPA doing in this action?

This action constitutes a "housekeeping" exercise to ensure that all revisions to the state programs that have occurred are accurately reflected in 40 CFR part 52. State SIP revisions are controlled by EPA regulations at 40 CFR part 51.

EPA has determined that this action falls under the "good cause" exemption in section 553(b)(3)(B) of the Administrative Procedures Act (APA) which, upon finding "good cause," authorizes agencies to dispense with public participation and section 553(d)(3) allows an agency to make a rule effective immediately (thereby avoiding the 30-day delayed effective date otherwise provided for in the APA). This action simply codifies provisions which are already in effect as a matter of law in Federal and approved state programs.

Under Section 553 of the APA, an agency may find good cause where procedures are "impractical, unnecessary, or contrary to the public interest" since the codification only reflects existing law. Likewise, there is no purpose served by delaying the effective date of this action. Immediate notice in the CFR benefits the public by removing outdated citations.

In this rule, EPA is finalizing regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, EPA is finalizing the incorporation by reference of the Ohio Regulations described in the amendments to 40 CFR part 52 set forth below. EPA has made, and will continue to make, these documents generally available electronically through *www.regulations.gov* and/or in hard copy at the appropriate EPA office (see the **ADDRESSES** section of this preamble for more information).

III. Statutory and Executive Order Reviews

A. General Requirements

Under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011), this action is not a "significant regulatory action" and is therefore not subject to review by the Office of Management and Budget. This rule is not subject to Executive Order 13211, "Actions Concerning **Regulations That Significantly Affect** Energy Supply, Distribution, or Use" (66 FR 28355, May 22, 2001) because it is not a significant regulatory action under Executive Order 12866. Because the agency has made a "good cause" finding that this action is not subject to noticeand-comment requirements under the Administrative Procedure Act or any other statute as indicated in the SUPPLEMENTARY INFORMATION section above, it is not subject to the regulatory flexibility provisions of the Regulatory Flexibility Act (5 U.S.C. 601 et seq.), or to sections 202 and 205 of the Unfunded Mandates Reform Act of 1995 (UMRA) (Pub. L. 104-4). In addition, this action does not significantly or uniquely affect small governments or impose a significant intergovernmental mandate, as described in sections 203 and 204 of UMRA. This rule also does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal government and Indian tribes, or on the distribution of power and responsibilities between the Federal government and Indian tribes, as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), nor will it have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132 (64 FR 43255, August 10, 1999). This rule also is not subject to Executive Order 13045 (62 FR 19885, April 23, 1997), because it is not economically significant. This rule does not involve technical standards; thus the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) do not apply. The rule also does not involve special consideration of environmental justice related issues as required by Executive Order 12898 (59 FR 7629, February 16, 1994). In issuing this rule, EPA has taken the necessary steps to eliminate drafting

errors and ambiguity, minimize potential litigation, and provide a clear legal standard for affected conduct, as required by section 3 of Executive Order 12988 (61 FR 4729, February 7, 1996). EPA has complied with Executive Order 12630 (53 FR 8859, March 15, 1998) by examining the takings implications of the rule in accordance with the "Attorney General's Supplemental Guidelines for the Evaluation of Risk and Avoidance of Unanticipated Takings" issued under the executive order. This rule does not impose an information collection burden under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.). EPA's compliance with these statutes and Executive Orders for the underlying rules is discussed in previous actions taken on the State's rules.

B. Submission to Congress and the Comptroller General

The Congressional Review Act (5 U.S.C. 801 et seq.), as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. Section 808 allows the issuing agency to make a rule effective sooner than otherwise provided by the CRA if the agency makes a good cause finding that notice and public procedure is impracticable, unnecessary or contrary to the public interest. This action simply codifies provisions which are already in effect as a matter of law in Federal and approved State programs. 5 U.S.C. 808(2). As stated previously, EPA has made such a good cause finding, including the reasons therefore, and established an effective date of November 10, 2015. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the Federal Register. The changes in format to the "Identification of plan" section for Ohio are not a "major rule" as defined by 5 U.S.C. 804(2).

C. Petitions for Judicial Review

EPA has also determined that the provisions of section 307(b)(1) of the CAA pertaining to petitions for judicial review are not applicable to this action. Prior EPA rulemaking actions for each individual component of the Ohio SIP compilations had previously afforded interested parties the opportunity to file a petition for judicial review in the United States Court of Appeals for the appropriate circuit within 60 days of such rulemaking action. Thus, EPA sees no need in this action to reopen the 60day period for filing such petitions for judicial review for these "Identification of plan" reorganization actions for Ohio.

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Carbon monoxide, Incorporation by reference, Intergovernmental relations, Lead, Nitrogen dioxide, Ozone, Particulate matter, Reporting and recordkeeping requirements, Sulfur oxides, Volatile organic compounds.

Dated: August 28, 2015.

Susan Hedman,

Regional Administrator, Region 5.

Part 52 of chapter I, title 40, Code of Federal Regulations, is amended as follows:

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

■ 1. The authority for citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 et seq.

Subpart KK—Ohio

§ 52.1870 [Redesignated as § 52.1894]

■ 2. Section 52.1870 is redesignated as § 52.1894 and a new § 52.1870 is added to read as follows:

§ 52.1870 Identification of plan.

(a) *Purpose and scope.* This section sets forth the applicable State Implementation Plan (SIP) for Ohio under Section 110 of the Clean Air Act, 42 U.S.C. 7401 *et seq.*, and 40 CFR part 51 to meet National Ambient Air Quality Standards.

(b) *Incorporation by reference*. (1) Material listed in paragraphs (c) and (d) of this section with an EPA approval date prior to September 1, 2015, was approved for incorporation by reference by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Material is incorporated as it exists on the date of the approval, and notice of any change in the material will be published in the Federal **Register.** Entries in paragraphs (c) and (d) of this section with an EPA approval date after September 1, 2015, will be incorporated by reference in the next update to the SIP compilation.

(2) EPA Region 5 certifies that the rules/regulations provided by EPA in the SIP compilation at the addresses in paragraph (b)(3) of this section are an exact duplicate of the officially

promulgated state rules/regulations which have been approved as part of the SIP as of September 1, 2015.

(3) Copies of the materials incorporated by reference may be inspected at the Environmental

Protection Agency, Region 5, Air Programs Branch, 77 West Jackson Boulevard, Chicago, IL 60604 or the National Archives and Records Administration (NARA). For

information on the availability of this material at NARA, call (202) 741-6030, or go to: http://www.archives.gov/ federal-register/cfr/ibr-locations.html. (c) EPA approved regulations.

[Docket No. 150610515-5999-02]

RIN 0648-BF16

Fisheries of the Northeastern United States; Atlantic Coastal Fisheries Cooperative Management Act Provisions; American Lobster Fishery

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule.

SUMMARY: This action modifies the timing of the Lobster Conservation Management Area 4 seasonal closure. This action is necessary to ensure fishery regulations for the lobster fishery in Federal waters remain consistent with the Commission's Interstate Fishery Management Plan for American Lobster and previously implemented state measures and the intent of the Atlantic Coastal Fisheries Cooperative Management Act. This action is intended to ensure fishing effort is reduced in Area 4.

DATES: This rule is effective December 10, 2015.

FOR FURTHER INFORMATION CONTACT: Allison Murphy, Fishery Policy Analyst, (978) 281–9122.

SUPPLEMENTARY INFORMATION:

Background

The American lobster fishery is managed by the Atlantic States Marine Fisheries Commission under Amendment 3 to the Interstate Fishery Management Plan for American Lobster (ISFMP). We manage the portion of the fishery conducted in Federal waters from 3 to 200 miles offshore, based on management recommendations made by the Commission.

The American lobster management unit is divided between two lobster stocks and seven Lobster Conservation Management Areas.
