LNSS consists of the Local National Recruitment System (LNRS) and the Europe Summer Hire Application (ESH).

AE Form 690-70A is the application form that employment respondents must complete to be considered for positions in Germany. The form is written in both English and German. The completed form is stored as a record of the respondent's personal information, education, employment history, military history, and

availability, as well as a list of applicable language(s) and other skills. If this form is not submitted, the respondent will not be eligible for employment positions through LNSS. Personally Identifiable Information (PII) on the AE Form 690-70A is entered into the LNSS system by the Administration Assistant.

Local National Recruitment System (LNRS) is a component of Local National Staffing Suite (LNSS). LNRS was developed to automate German Local National (LN) recruitment processes for United States Army Europe (USAREUR). The application supports the Army Civilian Personnel Operations Center (CPOC) and services Civilian Personnel Advisory Centers (CPACs) in Europe. The application is primarily used to automate local national recruitment processes for USAREUR including Priority Placement, Reduction In Force, and Referrals, while taking into account the Local National Tariff Agreements. LNRS is accessible at the following URL: <https://acpol2.army.mil/lhrs>.

Europe Summer Hire Application (ESH) is a component of Local National Staffing Suite (LNSS). ESH is a Web-based government developed Linux application accessible at <https://acpol2.army.mil/sh/staffing/summerhire>. ESH allows the accumulation of resume data for summer hiring of German local nationals to work in and support the Army USAREUR civilian personnel community. ESH is designed to contain and rank resumes of local nationals in USAREUR area to work in and support the Army civilian personnel community and to allow the HR Specialist to review the resume information. ESH consists of a Linux web/application server using Microsoft Internet Information Services (IIS) and a Linux database server using Oracle.

Korean National Recruitment System (KNRS) respondents are employment applicants. KNRS was developed to provide immediate and accurate status/response to applicants via a Web-based interface. KNRS provides customers with a timely and more reliable customer service system. It also eliminates the long wait periods when recruiting Korean National (KN) employees to support the Army's FN mission. Respondents (applicants) enter their own employment application information directly into the electronic form in the system. The electronic form is a record of the respondent's personal information, education, employment history, military history, and other qualifications and skills. If this electronic form is not submitted, the respondent will not be eligible for the

KN employment position. KNRS is accessible at the following URL: <https://lr.acpol.army.mil/knrs/selfservice>.
