Consultation

A detailed assessment of the human remains was made by the Neville Public Museum of Brown County professional staff in consultation with representatives of the Yankton Sioux Tribe of South Dakota.

History and Description of the Remains

Prior to 1970, human remains representing, at minimum, one individual were acquired by James Dobry Sr. from an unknown area of South Dakota, as part of a 36" long necklace identified by him as being "authentic Sioux with claws, beads, and teeth." In 1970, the human remains were donated to the Neville Public Museum of Brown County. No known individuals were identified. The 94 associated funerary objects which are all part of the necklace include 43 raptor claws and mammal canines, 20 glass and clay beads, 29 shells, and two non-human phalanges. Trade beads indicate this is an historic period necklace.

Determinations Made by the Neville Public Museum of Brown County

Officials of the Neville Public Museum of Brown County have determined that:

- Pursuant to 25 U.S.C. 3001(9), the human remains described in this notice represent the physical remains of 1 individuals of Native American ancestry.

- Pursuant to 25 U.S.C. 3001(3)(A), the 94 objects described in this notice are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony.

- Pursuant to 25 U.S.C. 3001(2), there is a relationship of shared group identity that can be reasonably traced between the Native American human remains and associated funerary objects
