SUPPLEMENTARY INFORMATION:

Introduction

The Privacy Act (5 U.S.C. 552a(e)(4)) requires NASA to publish in the **Federal Register** a notice of new system of records maintained by NASA. NASA’s regulations implementing the Privacy Act are contained in the Code of Federal Regulations (CFR) in 14 CFR part 1212.

The Privacy Act applies to information about an individual that is maintained in a system of records from which individually identifying information is retrieved by a unique identifier associated with each individual, such as a name or social security number. The information about each individual is called a “record,” and the system, whether manual or computer-driven, is called a “system of records.” The Privacy Act requires each agency to publish a system of records notice in the **Federal Register** and to submit reports to the Administrator of the Office of Information and Regulatory Affairs, OMB, the Chair of the House of Representatives Committee on Oversight and Government Reform, and the Chair of the Senate Committee on Homeland Security and Governmental Affairs,

whenever the agency publishes a new or altered system of records.

Background of System of Records

ADAS is a system of records that will store individually identifying information from a variety of individuals who have applied for or received grants, contracts, cooperative or other agreements, loans, or payments from NASA. These individuals include: Current and former employees of NASA; consultants; contractors; grantees; advisory committee members or others who have received funds from NASA for performing services or have otherwise transacted business with or affected NASA.

Information in this system will be obtained from the following systems of records maintained by NASA: Biographical Records for Public Affairs (System Number 10BRPA), NASA Foreign National Management System (System Number 10FNMS), Integrated Enterprise Management Program (IEMP)—Core Financial System (System Number 10IEM1), NASA Education Program Evaluation System (System Number 10EDUA), Government Motor Vehicle Operators Permit Records (System Number 10GMVP), NASA Guest Operations System (System Number 10GOS), Inspector General Investigations Case Files (System Number 10IGIC), NASA Personnel and Payroll Systems (System Number 10NPPS), Parking and Transit System (System Number 10PATs), Security Records System (System Number 10SECR), Special Personnel Records (System Number 10SPER), Exchange Records on Individuals (System Number 10XROI), Johnson Space Center Exchange Activities Records (System Number 72XOPR).

Information for the ADAS may also be obtained from systems of records maintained by other government agencies. All applicable provisions of the Privacy Act, including relevant portions of the Computer Matching Act, will be observed when obtaining and maintaining such records in the ADAS.

This new system of records notice is being established because it will involve the new use of records covered by existing NASA systems of records. This new system of records will be used to identify internal control weaknesses and to identify system issues to improve methods of data modeling and annual audit planning. This system will provide the NASA Office of Inspector General (OIG) with access to a single repository of data that currently resides in many, different NASA systems of records. The NASA OIG will conduct data modeling on this data, using

statistical and mathematical techniques, in order to predict anomalies indicating suspicious or fraudulent activity.

Under the Inspector General Act of 1978, as amended, 5 U.S.C. Appendix, Inspectors General, including the NASA Inspector General, are responsible for conducting, supervising, and coordinating audits and investigations, relating to programs and operations of the Federal agency for which their office is established. This system of records facilitates OIG's performance of this statutory duty.

Electronic Access to This Document

You can view this document, as well as all other NASA documents published in the **Federal Register**, in text or Adobe Portable Document Format (PDF) on the Internet at the following site: <https://www.federalregister.gov/agencies/national-aeronautics-and-space-administration>.

This system is maintained for the purpose of improving the efficiency, quality, and accuracy of existing data collected by NASA. Records in this system will be used to conduct data modeling for indications of fraud, abuse and internal control weaknesses concerning NASA programs and operations. The result of that data modeling may be used in the conduct of audits, investigations, inspections or other activities as necessary to prevent and detect waste, fraud and abuse and to promote economy and efficiency in NASA programs and operations.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES FOR SUCH USES:

The NASA OIG may disclose information contained in a record in this system of records without the consent of the individual if the
