History and Description of the Remains

In the 1860s, human remains representing, at minimum, one individual were removed by Colonel Henry Inman from the Smoky Hill Reservation, in what was then Kansas. The human remains represent one individual and consist of a partial cranium of a male age 25-40. The human remains came to the Hudson Museum as a transfer from the former Portland Museum of Natural History in

1970. They were given catalog number AMUa27640. No known individuals were identified. No associated funerary objects are present.
