Abstract: The Department of Education regulations at 34 CFR 668.49 require institutions to collect statistics on fires occurring in on-campus student housing facilities, including the number and cause of each fire, the number of injuries related to each fire that required treatment at a medical facility, the number of deaths related to each fire, and the value of property damage caused by each fire. Institutions must also publish an annual fire safety report containing the institution’s policies regarding fire safety and the fire statistics information. Further institutions are required to maintain a fire log that records the date, time, nature, and general location of each fire in on-campus student housing facilities.

This request is to extend the current approval of reporting requirements contained in the regulations. The collection requirements in the regulations are necessary to meet institutional information reporting to students and staff as well as for reporting to Congress through the Secretary.
