

An MCC- and GoM-funded grant facility will support selected private sector-driven training centers by issuing grants for infrastructure, equipment, and technical assistance. Additionally, results-based incentive mechanisms, such as social impact bonds, will be used to support promising programs that provide integrated job placement services for women and at-risk urban youth. MCC funding will also support the development and implementation of rigorous impact evaluations to test other non-MCC funded promising labor market interventions.

Land Productivity Project

The project aims to increase land productivity in Morocco by enabling land markets to better respond to investor demand and by strengthening the enabling environment for investment. To achieve this objective, MCC funding will support the following activities:

1. *Governance Activity.* The Governance Activity is designed to support the development and implementation of a long-term land productivity strategy to address governance and land market constraints to investment and productivity. Once the strategy and roadmap to its implementation are in place, the activity will finance implementation of key elements of the roadmap.

2. *Rural Land Activity.* The Rural Land Activity aims to increase rural productivity by making the GoM's current process for privatizing irrigated collective lands more inclusive and less time-consuming. The activity will (i) develop procedures for privatization of irrigated collective land that can be implemented within three years or less; (ii) use these improved procedures to support the privatization of up to 46,000 hectares of collective land within Morocco's Gharb region; and (iii) develop and apply tools to address other land-related root causes of low

productivity identified during due diligence, such as minimum parcel size requirements. The activity will engage in extensive consultations and outreach in the region of intervention and will develop and apply fair and inclusive land allocation criteria that protect the rights of land holders, including women.

3. *Industrial Land Activity.* The Industrial Land Activity aims to transform the way the GoM brings industrial land to market, from a state-to a market-driven approach, through the development of a new model for industrial zone development. By using public-private partnerships for industrial land development, the activity seeks to encourage private sector participation in the development and management of industrial zones, and to ensure that such development and management responds to private sector demand in terms of location, land offering, infrastructure and site and social services.

ECONOMIC ANALYSIS

| Project/activity | ERR | Beneficiaries |
|--|----------------|---------------|
| Education and Training for Employability Project | 12.7% to 14.5% | 2,019,100 |
| Secondary Education | 12.4% to 15.1% | 1,744,100 |
| Workforce Development | 13.2% | 275,000 |
| Land Productivity Project | 15.8% to 18.0% | 177,800 |
| Governance | | |
| Rural Land | 23.0% | 81,500 |
| Industrial Land | 13.4% to 16.7% | 96,300 |

* The costs of the governance activity are included in the Land Productivity Project's overall ERR.

An economic rate of return (ERR) was calculated for each of the compact's projects. The costs of the Governance Activity, which is a critical national policy and institutional reform component that will support a land strategy and roadmap, as well as the long-term sustainability and impact of the project's other two activities, are included in the overall ERR for the Land Productivity Project.

The Compact is expected to benefit 2.2 million people over a twenty-year period.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-346; NRC-2010-0298]

License Renewal for Davis-Besse Nuclear Power Station, Unit 1

AGENCY: Nuclear Regulatory Commission.

ACTION: License renewal and record of decision; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) has issued renewed facility operating license No. NPF-3 to FirstEnergy Nuclear Operating Company (FENOC or the licensee), the operator of the Davis-Besse Nuclear Power Station, Unit 1. Renewed facility operating license No. NPF-3 authorizes operation of Davis-Besse by the licensee at reactor core power levels not in excess of 2817 megawatts thermal, in accordance with the provisions of the Davis-Besse renewed license and technical specifications. In addition, the NRC has prepared a record of decision (ROD) that supports the NRC's decision to renew facility operating license No. NPF-3.

DATES: The license renewal of facility operating license No. NPF-3 was effective on December 8, 2015.

ADDRESSES: Please refer to Docket ID NRC-2010-0298 when contacting the NRC about the availability of information regarding this document. You may obtain publicly-available information related to this document using any of the following methods:

- **Federal Rulemaking Web site:** Go to <http://www.regulations.gov> and search for Docket ID NRC-2010-0298. Address questions about NRC dockets to Carol Gallagher; telephone: 301-415-3463;
