

9. In determining allocations, Western will consider existing Federal power resource allocations of the applicants.

10. Western will base allocations to Native American tribes on actual loads experienced in the most recent calendar year. Western may use estimated load values if actual load data are not available. Western will evaluate and may adjust inconsistent estimates during the allocation process. Western is available to assist tribes in developing load estimates.

11. Western will base allocations to eligible applicants on the actual loads experienced in the most recent calendar year and will apply current marketing criteria to these loads.

12. The minimum allocation will be 100 kW.

13. Contractors must execute electric service contracts within 6 months of receiving a contract offer from Western, unless Western agrees otherwise in writing.

14. If unanticipated obstacles to the delivery of electric service to a Native American tribe arise, Western retains the right to provide the economic benefit of the resource directly to the tribe.

15. *Existing Marketable Resource:* Dependent upon available resource, Western proposes extending the existing contract rates of delivery commitments, with associated energy, to the existing SLCA/IP long-term, firm power customers.

16. *Hydrology and River Operations Withdrawal Provision:* Western will reserve the right to adjust, at its discretion and sole determination, the contract rate of delivery on 5 years' advance written notice in response to changes in hydrology and river operations. Any such adjustments would occur after an appropriate public process.

17. *Service Seasons:* The Proposed 2025 Marketing Plan supports continuing the current SLCA/IP summer and winter seasons.

A. Summer Season: The 6-month period from the first day of the April billing period through the last day of the September billing period in any calendar year.

B. Winter Season: The 6-month period from the first day of the October billing period of any calendar year through the last day of the March billing period of the next succeeding calendar year.

18. *Retention of Existing Contract Provisions:* The Proposed 2025 Marketing Plan supports using the existing SLCA/IP firm electric service contract provisions with only minor modifications. Customer Displacement Power (CDP) and Western Replacement

Power (WRP) contract provisions will continue to be available in the new SLCA/IP firm electric service contracts. The CDP and WRP provisions allow customers, at their discretion, to augment hydropower allocations with purchase power. Western reserves enough capacity on the CRSP transmission system to deliver the maximum amount of hydropower the system is capable of generating, which under certain conditions can sometime occur. In times when hydropower deliveries are lower, this transmission capacity can be made available for use by the customers. Under CDP, customers may elect to use this reserved transmission capacity to deliver their own energy resources in hours that it is needed to augment the hydropower deliveries. WRP is similar to CDP, but customers request that Western act as their agent and purchase energy available on the market to augment hydropower deliveries.

Availability of Information

Documents developed or retained by Western during this public process will be available, by appointment, for inspection and copying at the CRSP MC, located at 150 East Social Hall Avenue, Suite 300, Salt Lake City, Utah. Western will post information concerning the Proposed 2025 Marketing Plan on its Web site at: <https://www.wapa.gov/regions/CRSP/PowerMarketing/Pages/power-marketing.aspx>. Written comments received as part of the 2025 Marketing Plan formal public process will be available for viewing on the Web site.

Procedural Requirements

Environmental Compliance

Western will evaluate this action for compliance with the National Environmental Policy Act (NEPA) of 1969 (42 U.S.C. 4321–4347), the Council on Environmental Quality Regulations (40 CFR parts 1500–1508), and DOE NEPA Regulations (10 CFR 1021).

Determination Under Executive Order 12866

Western has an exemption from centralized regulatory review under Executive Order 12866; accordingly, no clearance of this notice by the Office of Management and Budget is required.

Dated: December 8, 2015.

Mark A. Gabriel,
Administrator.

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; Disinfectants/Disinfection Byproducts, Chemical and Radionuclides Rules

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The U.S. Environmental Protection Agency (EPA) has submitted an Information Collection Request (ICR) for the Disinfectants/Disinfection Byproducts, Chemical and Radionuclides Rules (EPA ICR No. 1896.10, OMB Control No. 2040–0204) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (PRA; 44 U.S.C. 3501 *et seq.*). This is a proposed extension of the ICR, which is currently approved through December 31, 2015. Public comments were previously requested via the **Federal Register** (80 FR 17040) on March 31, 2015, during a 60-day comment period. This notice allows for an additional 30 days for public comments. A description of the ICR is provided in this renewal notice, including its estimated burden and cost to the public. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before January 15, 2016.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA–HQ–OW–2011–0439, to (1) EPA online using www.regulations.gov (our preferred method), by email to OW-Docket@epa.gov or by mail to EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW., Washington, DC 20460, and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without modification including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT: Kevin Roland, Drinking Water

Protection Division, Office of Ground Water and Drinking Water, (4606M), Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460; telephone number: 202-564-4588; email address: roland.kevin@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov, or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: The Disinfectants/Disinfection Byproducts, Chemical and Radionuclides Rules ICR examines public water systems' and primacy agencies' burden and costs for recordkeeping and reporting requirements in support of the chemical drinking water regulations. These recordkeeping and reporting requirements are mandatory for compliance with the *Code of Federal Regulations* (CFR) at 40 CFR parts 141 and 142. The following chemical regulations are included: The Stage 1 Disinfectants and Disinfection Byproducts Rule (Stage 1 DBPR), the Stage 2 Disinfectants and Disinfection Byproducts Rule (Stage 2 DBPR), the Chemical Phase Rules (Phases II/IIB/V), the Radionuclides Rule, the Disinfectant Residual Monitoring and Associated Activities under the Surface Water Treatment Rule (SWTR), the Arsenic Rule and the Lead and Copper Rule (LCR). Future chemical-related rulemakings will be added to this consolidated ICR after the regulations are promulgated and the initial, rule-specific, ICRs are due to expire.

Form Numbers: None.

Respondents/affected entities: Entities potentially affected by this action are new and existing public water systems and primacy agencies.

Respondent's obligation to respond: Mandatory for compliance with 40 CFR parts 141 and 142.

Estimated number of respondents: 149,822.

Frequency of response: Varies by requirement (*i.e.*, on occasion, monthly, quarterly, semi-annually, annually, biennially, and every 3, 6 and 9 years).

Total estimated burden: 5,305,696 hours (per year). Burden is defined in 5 CFR 1320.03(b).

Total estimated cost: \$464,896,000 (per year), includes \$5,492,000

annualized capital costs and \$253,440,000 operation and maintenance costs.

Changes in the Estimates: There is a decrease of 428,639 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease is a result of updating relevant baseline information for each rule with the most current and accurate information available and updating burden to incorporate the results of consultation with stakeholders. Estimated violation and other associated rates have also been updated to reflect current information on rule compliance.

Courtney Kerwin,

Acting Director, Collection Strategies Division.

Abstract: EPA published the Non-Hazardous Secondary Materials (NHSM) Rule on March 21, 2011. Amendments to this rule were published in the **Federal Register** on February 7, 2013. These amendments provided clarification on certain issues on which EPA received new information, as well as specific targeted revisions. In addition, these amendments listed several NHSMs as categorical non-wastes when used as fuels. The Agency also indicated that we would consider
