

participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests, and interventions via the internet in lieu of paper. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site (www.ferc.gov) under the "e-Filing" link. Persons unable to file electronically should submit an original and five copies of the protest or intervention to the Federal Energy regulatory Commission, 888 First Street NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. III. Description of Programs and Potential Disclosure of Information Claimed as Confidential Business Information (CBI) to Contractors

The EPA's Office of Transportation and Air Quality (OTAQ) has responsibility for protecting public health and the environment by regulating air pollution from motor vehicles, engines, and the fuels used to operate them, and by encouraging travel choices that minimize emissions. In order to implement various Clean Air Act programs, and to permit regulated entities flexibility in meeting regulatory requirements (e.g., compliance on average), we collect compliance reports and other information from them. Occasionally, the information submitted is claimed to be confidential business information (CBI). Information submitted under such a claim is handled in accordance with EPA's regulations at 40 CFR part 2, subpart B and in accordance with the EPA procedures, including comprehensive system security plans (SSPs) that are consistent with those regulations. When the EPA has determined that disclosure of information claimed as CBI to contractors is necessary, the corresponding contract must address the appropriate use and handling of the information by the contractor and the contractor must require its personnel who require access to information claimed as CBI to sign written non-disclosure agreements before they are granted access to data.

In accordance with 40 CFR 2.301(h), we have determined that the contractors, subcontractors, and grantees (collectively referred to as "contractors") listed below require access to CBI submitted to us under the Clean Air Act and in connection with the Mandatory Greenhouse Gas (GHG) Reporting Rule [40 CFR part 98, subparts A (general registration and reporting provisions) LL, and MM], as well as various OTAQ programs related to fuels, vehicles, and engines (40 CFR parts 79 and 80) and we are providing notice and an opportunity to comment. OTAQ collects this data in order to monitor compliance with Clean Air Act programs and, in many cases, to permit regulated parties flexibility in meeting regulatory requirements. For example, data that may contain CBI are collected to register fuels and fuel additives prior to introduction into commerce. Certain programs are designed to permit regulated parties an opportunity to comply on average, or to engage in transactions using various types of credits. For example, OTAQ collects information about batches of gasoline

that refiners produce to ensure compliance with reformulated gasoline standards. We are issuing this **Federal Register** notice to inform all affected submitters of information that we plan to grant access to material that may be claimed as CBI to the contractors identified below on a need-to-know basis.

Under Contract Number EP-C-11-007, CSRA, located at 3170 Fairview Park Drive, Falls Church, VA 22042, and at 650 Peter Jefferson Parkway, Suite 300, Charlottesville, VA 22901, and its subcontractor, Ecco Select, 1301 Oak Street, Suite 400, Kansas City, MO 64106, provide report processing, program support, technical support, and information technology services that involve access to information claimed as CBI related to 40 CFR part 79, 40 CFR part 80, and 40 CFR part 98 subparts A, LL, and MM. Access to data, including information claimed as CBI, will commence on December 31, 2015, and will continue until June 30, 2016. If the contract is extended, this access will continue for the remainder of the contract without further notice.

OTAQ utilizes the services of enrollees under the Senior Environmental Employment (SEE) program. Some SEE enrollees are provided through Grant Number CQ-834621, the National Association for Hispanic Elderly (NAHE), located at 234 East Colorado Boulevard, Suite 300, Pasadena, CA 91101, and through Grant Numbers CQ-835372 and CQ-835572, the Senior Service America, Inc. (SSAI), located at 8403 Colesville Road, Suite 1200, Silver Spring, MD 20910. Access to data relating to all of OTAQ's programs and to subparts A, LL, and MM of the Mandatory GHG Reporting Rule, including information claimed as CBI, is ongoing until December 31, 2016 for Grant Number CQ-834621, October 14, 2016 for Grant Number CQ-835372, and September 30, 2016 for Grant Number CQ-835572. If these grants are extended, this access will continue for the remainder of the grants and any future extensions without further notice.

OTAQ also has fellows provided via the Oak Ridge Institute for Science and Education (ORISE) Intern/Research Participation Program. Some participants are provided through Interagency Agreement Number DW89924039, the ORISE, located at 1299 Bethel Valley Road, Building SC-200, Oak Ridge, TN 37830. Access to data relating to all of OTAQ's programs and to subparts A, LL, and MM of the Mandatory GHG Reporting Rule, including information claimed as CBI, but excluding CBI under the Toxic Substances Control Act (TSCA) and the

Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), is ongoing until September 30, 2016. If the program is extended, this access will continue for the remainder of the program and any future extensions without further notice.
