SUPPLEMENTARY INFORMATION:**Background**

On February 13, 2014, we published in the **Federal Register** (79 FR 8656) a proposed rule to remove the Modoc sucker from Federal List of Endangered and Threatened Wildlife due to information suggesting that the species no longer needs protections under the Endangered Species Act of 1973, as amended (Act; 16 U.S.C. 1531 *et seq.*). A completed scientific analysis of the biological information and threats facing the Modoc sucker is presented in detail in the Modoc Sucker Species Report (Service 2013, entire), which is available at <http://www.regulations.gov> at Docket No. FWS-R8-ES-2013-0133. The Species Report was prepared by Service biologists to provide thorough discussion of the species' ecology and biological needs, and to provide an analysis of the threats that may be impacting the species.

In order to comply with the public notification requirements of the Act under section 4(b)(5)(D) and to ensure that the public has an adequate opportunity to review and comment on our proposal, we are reopening the comment period on the proposed rule for an additional 30 days (see **DATES**, above).

Information Requested

We intend that any final action resulting from the proposed rule will be based on the best scientific and commercial data available and be as accurate and complete as possible. Therefore, we request comments or information from other concerned

Federal and State agencies, the scientific community, or any other interested party concerning the proposal to remove the Modoc sucker from the Federal List of Endangered and Threatened Wildlife. Please see the Information Requested section of the February 13, 2014, proposed rule (79 FR 8656) for a list of the information and comments that we particularly seek.

If you previously submitted comments or information on the proposed rule, please do not resubmit them. We have incorporated them into the public record, and we will fully consider them in our final rulemaking. Our final determination concerning the proposed rule will take into consideration all written comments and any additional information we receive.

Please note that submissions merely stating support for or opposition to the action under consideration without providing supporting information, although noted, will not be considered in making a determination, as section 4(b)(1)(A) of the Act directs that determinations as to whether any species is an endangered or threatened species must be made "solely on the basis of the best scientific and commercial data available."

You may submit your comments and materials concerning the proposed rule by one of the methods listed in **ADDRESSES**. We request that you send comments only by the methods described in **ADDRESSES**. If you submit information via <http://www.regulations.gov>, your entire submission—including any personal identifying information—will be posted on the Web site. If your submission is made via a hardcopy that includes personal identifying information, you may request at the top of your document that we withhold this information from public review. However, we cannot guarantee that we will be able to do so. We will post all hardcopy submissions on <http://www.regulations.gov>. Please include sufficient information with your comments to allow us to verify any scientific or commercial information you include.

Comments and materials we receive, as well as supporting documentation we used in preparing the proposed rule, will be available for public inspection on <http://www.regulations.gov>, or by appointment, during normal business hours, at the U.S. Fish and Wildlife Service, Klamath Falls Fish and Wildlife Office (see **FOR FURTHER INFORMATION CONTACT**).
