BILLING CODE 4910–13–P

DEPARTMENT OF TRANSPORTATION**Federal Aviation Administration****Notice of Passenger Facility Charge (PFC) Approvals and Disapprovals**

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Monthly Notice of PFC Approvals and Disapprovals. In January 2015, there were nine applications approved. This notice also includes information on two applications, one approved in May 2012 and the other disapproved in November 2014, inadvertently left off the May 2012 and November 2014 notices, respectively. Additionally, three approved amendments to previously approved applications are listed.

SUMMARY: The FAA publishes a monthly notice, as appropriate, of PFC approvals and disapprovals under the provisions of the Aviation Safety and Capacity Expansion Act of 1990 (title IX of the Omnibus Budget Reconciliation Act of 1990) (Pub. L. 101–508) and part 158 of the Federal Aviation Regulations (14 CFR part 158). This notice is published pursuant to paragraph d of § 158.29.

PFC Application Disapproved

Public Agency: The Pennsylvania State University, State College, Pennsylvania.

Application Number: 15–06–C–00–UNV.

Application type: Impose and use a PFC.

Reason for Disapproval: The Centre County Airport Authority has exclusive control of the terminal complex at University Park Airport (UNV) while the Pennsylvania State University (PSU) has exclusive control of the airfield. The FAA has determined that both organizations operate independently of each other. Since the proposed PFC application, submitted by the PSU, included projects that would impact both airfield and terminal areas, the FAA concluded that the existing arrangement between the two entities contravenes the public agency's obligations under the PFC assurances, including requisite legal authority to impose a PFC to finance and carry out the proposed projects. Therefore, the FAA could not approve PSU's PFC application.

Decision date: November 20, 2014.

FOR FURTHER INFORMATION CONTACT: Lori Ledeborn, Harrisburg Airports District Office, (717) 730-2835.

Brief Description of Projects Approved for Collection and Use at a \$3.00 PFC Level:

Land use and development study.
Long term development feasibility study.
Drainage pumping station design and construction.

Brief Description of Projects Partially Approved for Collection and Use at a \$3.00 PFC Level: Airfield pavement condition study.

Determination: The FAA reviewed the scope of the project and found that the following work elements do not meet the requirements of § 158.15(b). Therefore, PFC revenue cannot be used on these elements: (1) Micro Paver software (or an approved equal); (2) onsite training to airport staff; and (3) preparing an airfield signage plan showing the plan location of the airfield signs, depicting sign type, style, size, model, etc.

Long term planning study.

Determination: The FAA reviewed the supporting documentation and found that the documentation supported only \$6,801,500 in total project costs and not the \$7,551,500 amount shown in the PFC application.

Long term development program—terminal design and construction.

Determination: The FAA partially approved this project for two reasons. (1) The FAA reviewed the scope of the project and found that the following work elements did not meet the requirements of § 158.15(b): airport administration (operations offices), baggage service offices, airline ticket offices, Transportation Security Administration offices, loading dock, storage, police station, central baggage inspection system equipment (build out and equipment), and escalation and contingency fees. (2) The public agency did not include a letter from Customs and Border Control certifying that the Federal Inspection Services (FIS) facility is sized to the staffing levels that will be provided. Therefore, the FAA was not able to verify that the space requested was the minimum necessary as required in Table N-5 (1) of FAA Order 5100.38D, Airport Improvement Program (AIP) Handbook, (September 30, 2014). Therefore, PFC revenue cannot be used on items relating to the FIS facility.

Long term development program—airside design and construction.

Determination: The FAA reviewed the scope of the project and found that the use of PFC revenue for contingencies does not meet the requirements of § 158.15(b). Therefore, the public agency may not use PFC revenue for contingencies.

Long term development program—landside design and construction.

Determination: The FAA reviewed the scope of the project and found that the following work elements do not meet the requirements of § 158.15(b). Therefore, the public agency may not use PFC revenue on the following elements: contingencies; parking structure(s); hotel infrastructure; access roads (off-airport); landscaping within site development; surface parking; and utilities.

Brief Description of Disapproved Project: Access road improvements, design and construction.

Determination: Table P-3(a)(6) of FAA Order 5100.38D, AIP Handbook, (September 30, 2014), requires that eligible access roads must exclusively serve airport traffic. This means that an access road that serves both airport traffic and non-airport traffic cannot be prorated. In mixed use situations of

airport/non-airport use, only the portion of the road that is beyond the non-airport access point is eligible. In this case, the proposed road is not beyond the non-airport access point and, therefore, the road is not PFC-eligible.

Buy America Waiver Notification

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice.

SUMMARY: This notice provides information regarding FHWA's finding that a Buy America waiver is appropriate for the use of non-domestic U-69 guard bars, manganese casting, turnout braces, and weld kits for CREATE rail projects in Chicago, Illinois.

DATES: The effective date of the waiver is February 17, 2015.

Electronic Access

An electronic copy of this document may be downloaded from the **Federal Register's** home page at: <http://www.archives.gov> and the Government Publishing Office's database at: <http://www.access.gpo.gov/nara>.

Background

The FHWA's Buy America policy in 23 CFR 635.410 requires a domestic manufacturing process for any steel or iron products (including protective coatings) that are permanently

incorporated in a Federal-aid construction project. The regulation also provides for a waiver of the Buy America requirements when the application would be inconsistent with the public interest or when satisfactory quality domestic steel and iron products are not sufficiently available. This notice provides information regarding FHWA's finding that a Buy America waiver is appropriate in procurement of non-domestic U-69 guard bars, manganese casting, turnout braces, and weld kits for CREATE rail projects in Chicago, Illinois.

In accordance with Division A, section 122 of the "Consolidated and Further Continuing Appropriations Act, 2012" (Pub. L. 112-55), FHWA published a notice of intent to issue a waiver on its Web site for non-domestic U-69 guard bars, manganese casting, turnout braces, and weld kits (<http://www.fhwa.dot.gov/construction/contracts/waivers.cfm?id=103>) on December 9, 2014. The FHWA received no comments in response to the publication. During the 15-day comment period, FHWA conducted additional nationwide review to locate potential domestic manufacturers of U-69 guard bars, manganese casting, turnout braces, and weld kits. Based on all the information available to the agency, FHWA concludes that there are no domestic manufacturers of the U-69 guard bars, manganese casting, turnout braces, and weld kits.

In accordance with the provisions of section 117 of the SAFETEA-LU Technical Corrections Act of 2008 (Pub. L. 110-244, 122 Stat. 1572), FHWA is providing this notice as its finding that a waiver of Buy America requirements is appropriate. The FHWA invites public comment on this finding for an additional 15 days following the effective date of the finding. Comments may be submitted to FHWA's Web site via the link provided to the Illinois waiver page noted above.
