

The BLM will consult with Indian tribes on a government-to-government basis in accordance with Executive Order 13175 and other policies. The BLM will give tribal concerns, including impacts on Indian trust assets and potential impacts to cultural resources, due consideration. The BLM invites Federal, State and local agencies, along with tribes and other stakeholders that may be interested in or affected by the proposed action the BLM is evaluating, to participate in the scoping process and, if eligible, may request or be requested by the BLM to participate in developing the environmental analysis as a cooperating agency.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. The minutes and list of attendees for each scoping meeting will be available to the public and open for 30 days after the meeting to any participant who wishes to clarify the views he or she expressed. The BLM will evaluate identified issues to be addressed in the plan, and will place them into one of three categories:

1. Issues to be resolved in the Plan Amendment;
2. Issues to be resolved through policy or administrative action; or
3. Issues beyond the scope of this Plan Amendment.

The BLM will provide an explanation in the Preliminary EA as to why an issue was placed in category two or three. The BLM also encourages the public to identify any management questions and concerns that should be addressed in the amendment process. The BLM will collaborate with interested parties to identify the management decisions best suited to local, regional, and national needs and concerns.

The BLM will use an interdisciplinary approach to develop the Plan Amendment in order to consider the variety of resource issues and concerns identified. Specialists with expertise in the following disciplines will be involved in the planning process: Rangeland management, minerals and geology, outdoor recreation, archaeology, paleontology, wildlife and fisheries, lands and realty, hydrology, soils, sociology and economics.

Interested parties may submit written comments on the suitability of the land for use as a park, unemployment resource center, and arts enrichment center with appurtenances for children and adults with intellectual disabilities.

Interested parties may also submit written comments regarding the specific use proposed in the application and plan of development, and whether the BLM followed proper administrative procedures in reaching the decision to change the use from a park to a park, unemployment resource center, and arts enrichment center with appurtenances for children and adults with intellectual disabilities under the R&PP Act, or any other factor not directly related to the suitability of the land for R&PP use.
