BILLING CODE 4910-13-P

DEPARTMENT OF TRANSPORTATION**Federal Highway Administration****Notice of Final Federal Agency Actions on Proposed Highway in Idaho**

AGENCY: Federal Highway Administration (FHWA), Department of Transportation (DOT).

ACTION: Notice of limitation on claims for judicial review of actions by FHWA.

SUMMARY: This notice announces actions taken by the FHWA that are final within the meaning of 23 U.S.C. 139(l)(1). The actions relate to a proposed highway project, US-95 Thorncreek Road to Moscow in the County of Latah in the State of Idaho, FHWA Project # DHP-NH-4110(156); Idaho Transportation Department (ITD) Key #9294.

DATES: By this notice, the FHWA is advising the public of final agency actions subject to 23 U.S.C. 139(l)(1). A claim seeking judicial review of the Federal agency actions on the highway project will be barred unless the claim is filed on or before August 29, 2016. If the Federal law that authorizes judicial review of a claim provides a time period of less than 150 days for filing such claim, then that shorter time period still applies.

FOR FURTHER INFORMATION CONTACT: For FHWA, contact Kyle Holman, Operations Engineer, FHWA Idaho Division, 3050 Lakeharbor Lane #126, Boise, ID 83703, telephone 208-334-9180, extension 127, or via email at kyle.holman@dot.gov. Regular office hours are from 7:00 a.m. to 4:00 p.m., m.t., Monday through Friday, except Federal holidays. For ITD, contact Ken Helm, ITD Project Manager, P.O. Box 837, Lewiston, ID 83501, telephone 208-799-5090, or via email at ken.helm@itd.idaho.gov. Regular office hours are from 8:00 a.m. to 5:00 p.m., p.t., Monday through Friday.

SUPPLEMENTARY INFORMATION: Notice is hereby given that FHWA has taken final agency actions by issuing approvals for the following highway project in the State of Idaho: US-95 Thorncreek Road to Moscow Project No. DHP-NH-4110 (156), Latah County. The project involves improvements and realignment to section of US-95. The highway will be improved from milepost 337.67 to milepost 344.00 to improve safety and capacity of this section of US-95. The existing two-lane undivided highway from Thorncreek Road to the South Fork Palouse River Bridge will be replaced with a four-lane divided highway with a 34-foot median through the majority of the corridor. A four-lane highway with center turn lane, curb, gutter and sidewalk will be constructed at the northern end of the project. The actions by the Federal agencies, and the laws under which such actions were taken, are described in the Final Environmental Impact Statement (FEIS) and Final Section 4(f) Evaluation US-95 Thorncreek Road to Moscow (FHWA-ID-EIS-12-01-F) for the project,

approved on July 28, 2015, in the FHWA Record of Decision (ROD) issued on March 21, 2016, and in other documents in the project records. The FEIS, ROD, and other project records are available by contacting FHWA or the ITD using the contact information provided above. The FEIS and ROD can be viewed and downloaded from the project Web site at <http://US95Thorncreek.com>. Select the link labelled "ROD" near the top of the page. Otherwise, a copy can be viewed or obtained by contacting FHWA or ITD as provided above.

This notice applies to all FHWA decisions that are final as of the issuance date of this notice and all laws and regulations under which such actions were taken, including but not limited to the following:

1. General: National Environmental Policy Act (42 U.S.C. 4321-4370h); Federal-Aid Highway Act (23 U.S.C. 109); and associated regulations (23 CFR).

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

[Docket No. NHTSA–2016–0035]

Revision of the Emergency Medical Services Agenda for the Future; Request for Information

AGENCY: National Highway Traffic Safety Administration (NHTSA), Department of Transportation (DOT).

ACTION: Notice; request for information.

SUMMARY: NHTSA, on behalf of the Federal Interagency Committee on Emergency Medical Services (FICEMS), is seeking comments from all sources (public, private, governmental, academic, professional, public interest groups, and other interested parties) on the planned revision of the 1996 *Emergency Medical Services Agenda for the Future* (EMS Agenda).

FICEMS was created (42 U.S.C. 300d–4) by the Secretaries of Transportation, Health and Human Services and Homeland Security to, in part, ensure coordination among the Federal agencies involved with State, local, tribal or regional emergency medical

services and 9–1–1 systems. FICEMS has statutory authority to identify State and local Emergency Medical Services (EMS) and 9–1–1 needs, to recommend new or expanded programs and to identify the ways in which Federal agencies can streamline their processes for support of EMS. FICEMS includes representatives from the Department of Defense (DoD) Office of the Assistant Secretary of Defense—Health Affairs, the Department of Health and Human Services (HHS) Office of the Assistant Secretary for Preparedness and Response (ASPR), HHS Indian Health Service (IHS), HHS Centers for Disease Control and Prevention (CDC), HHS Health Resources and Services Administration (HRSA), HHS Centers for Medicare and Medicaid Services (CMS), the Department of Homeland Security (DHS) Office of Health Affairs (OHA), DHS U.S. Fire Administration (USFA), NHTSA, the Federal Communications Commission (FCC) and a State EMS Director appointed by the Secretary of Transportation.

On June 19, 2014, FICEMS unanimously approved a motion to proceed with a revision of the EMS Agenda, with a focus on data-driven approaches to future improvements.

This followed an April 24, 2014 letter in which the National Emergency Medical Services Advisory Council (NEMSAC) issued recommendations to NHTSA regarding revision of the EMS Agenda. NEMSAC's recommendations were as follows:

- A major revision of the *EMS Agenda for the Future* should be undertaken as soon as possible;
- The revision process should be guided by an external entity (not NEMSAC) that will ensure a consensus- and data-driven process with broad stakeholder representation. The goal should be to replicate the process used to develop the original EMS Agenda for the Future, published in 1996;
- The U.S. Department of Transportation should seek financial support and assistance from members of FICEMS to accomplish this task.

The purpose of this notice is to solicit comments on the planned revision of the EMS Agenda, and to request responses to specific questions provided below. This is neither a request for proposals nor an invitation for bids.

DATES: It is requested that comments on this announcement be submitted by June 30, 2016.

ADDRESSES: You may submit comments [identified by Docket No. NHTSA–2016–0035] through one of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the online instructions for submitting comments.

- *Mail or Hand Delivery:* Docket Management Facility, U.S. Department of Transportation, 1200 New Jersey Avenue SE., West Building, Room W12–140, Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except on Federal holidays.

FOR FURTHER INFORMATION CONTACT:

Gamunu Wijetunge, Office of Emergency Medical Services, (202) 493–2793, gamunu.wijetunge@dot.gov, located at the United States Department of Transportation, 1200 New Jersey Avenue SE., NPD–400, Room W44–232, Washington, DC 20590. Office hours are from 9 a.m. to 5 p.m., Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION:

Background

In 1996 NHTSA, in partnership with HRSA, published the EMS Agenda (www.ems.gov/pdf/2010/EMSagendaWeb_7-06-10.pdf). The document created a vision for the future of EMS systems in the United States and led to EMS system improvements across the Nation. Changes envisioned by the EMS Agenda included the National EMS Information System (NEMSIS), the “EMS Education Agenda for the Future: A Systems Approach”, universal wireless 9–1–1, automatic crash notification, the recognition of EMS as a physician sub-specialty, and many others.

The EMS Agenda included the following vision statement: “Emergency medical services (EMS) of the future will be community-based health management that is fully integrated with the overall health care system. It will have the ability to identify and modify illness and injury risks, provide acute illness and injury care and follow-up, and contribute to treatment of chronic conditions and community health monitoring. This new entity will be developed from redistribution of existing health care resources and will be integrated with other health care providers and public health and public safety agencies. It will improve community health and result in more appropriate use of acute health care resources. EMS will remain the public's emergency medical safety net.”

Furthermore, the EMS Agenda proposed development of the following 14 EMS attributes:

- Integration of Health Services;
- EMS Research;
- Legislation and Regulation;
- System Finance;
- Human Resources;
