Proposed Project

Early Hearing Detection and Intervention (EHDI) Follow-up Survey (OMB Control No. 0920–0733, Expiration Date: 8/31/2016)—Reinstatement with Change—National Center on Birth Defects and Developmental Disabilities (NCBDDD), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

NCBDDD promotes the health of babies, children, and adults, with a focus on preventing birth defects and developmental disabilities and optimizing the health outcomes of those with disabilities. The majority of these EHDI programs have adopted the “1–3–6” plan, which consists of three core goals: (1) Screening all infants for hearing loss before 1 month of age, (2) ensuring diagnostic audiologic evaluation before 3 months of age for those who do not pass the screening, and (3) enrollment
