BILLING CODE 4312-52-P

DEPARTMENT OF THE INTERIOR**Bureau of Ocean Energy Management**

[OMB Control Number 1010-0187]

Information Collection: Project Planning for the Use of Outer Continental Shelf Sand, Gravel, and Shell Resources in Construction Projects That Qualify for a Negotiated Noncompetitive Agreement; Proposed Collection for OMB Review; Comment Request; MMAA104000

ACTION: 60-day notice.

SUMMARY: To comply with the Paperwork Reduction Act of 1995 (PRA), the Bureau of Ocean Energy Management (BOEM) is inviting comments on a renewal of a collection of information that we will submit to the Office of Management and Budget (OMB) for review and approval. The information collection request (ICR) concerns the paperwork requirements that respondents will submit to BOEM to obtain Outer Continental Shelf (OCS) sand, gravel, and shell resources for use in shore protection, beach and coastal restoration, and other authorized projects that qualify for a negotiated noncompetitive agreement.

DATES: Submit written comments by April 28, 2017.

ADDRESSES: Please send your comments on this ICR to the BOEM Information Collection Clearance Officer, Anna Atkinson, Bureau of Ocean Energy Management, 45600 Woodland Road, Sterling, Virginia 20166 (mail); or anna.atkinson@boem.gov (email); or 703-787-1209 (fax). Please reference ICR 1010-0187 in your comment and include your name and return address.

FOR FURTHER INFORMATION CONTACT: To obtain information pertaining to this notice, contact Anna Atkinson at (703) 787-1025.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 1010-0187.

Title: Project Planning for the Use of Outer Continental Shelf Sand, Gravel, and Shell Resources in Construction

Projects that Qualify for a Negotiated Noncompetitive Agreement.

Abstract: Under the authority delegated by the Secretary of the Interior, BOEM is authorized, pursuant to section 8(k)(2) of the OCS Lands Act (43 U.S.C. 1337(k)(2)), to convey rights to OCS sand, gravel, and shell resources by negotiated noncompetitive agreement for use in shore protection and beach and coastal restoration, or for use in construction projects funded, in whole or part by, or authorized by the Federal Government.

Background

Between 1994 and 2014, 43 shore protection or beach and coastal restoration projects were completed using OCS sand resources, conveying more than 119 million cubic yards of OCS material and restoring more than 295 miles of shoreline. The program has seen an increase in demand for OCS resources due to the decreasing availability of sand sources located in state waters and an increase in coastal storm intensity, duration, and frequency. Since 2014, an additional eight projects have been processed. In order for BOEM to continue to meet the needs of local and state governments, information regarding upcoming projects must be acquired to plan for future projects and anticipated workload. Therefore, BOEM will issue calls for information about needed resources and locations from interested parties to develop and maintain a project schedule. It includes an annual call for information and the potential for a call in response to an emergency declaration, such as a tropical storm. This ICR has no significant changes from the 2014 OMB approved information collection.

BOEM's calls for information (e.g., letters or **Federal Register** notices) will request interested parties to submit, in writing or electronically, a description of their proposed projects for which OCS resources will be used. The description must include the offshore borrow sites (if known); the estimated date of construction; a short description of current project funding; the name of a primary point of contact with that person's mailing address, telephone number, and email address and any additional information concerning the status of the project that would be useful to BOEM. This information may include detailed maps; geospatial data and coordinates of desired sand resources and sites that would be nourished; a description of the environmental documents that have been completed to date concerning any portion of the project; a cited reference

list; status of geological and geophysical permit (if required); information concerning known or suspected archaeological or historic artifacts; interpretations of the geology and extent of sand areas; known volumes of sand resource sites; historical data related to the proposed borrow or placement area; and a description of the status of Federal, state, and/or local permits required for the project.

In the event the number of requested projects exceeds the limits of the current BOEM staff and funding resources, BOEM may request the relevant states to prioritize their own projects based on several criteria including likelihood of project funding and progress of environmental work.

BOEM will use the information to determine appropriate future resource allocations, identify potential conflicts of use, conduct environmental analyses, develop negotiated noncompetitive agreements, and meet all necessary environmental and legal requirements. BOEM will publish all ongoing projects on the Web site <https://www.boem.gov/MMP-State-and-Regional-Activities/>.

With this renewal, we are also including a provision for a call in response to emergency declarations, such as a tropical storm. Hurricane Sandy demonstrated BOEM's need for accurate and timely information following a natural disaster declaration.

We will protect information from respondents considered proprietary under the Freedom of Information Act (5 U.S.C. 552) and the Department of the Interior's implementing regulations at 43 CFR part 2. No items of a sensitive nature are collected, and responses are voluntary.

Frequency: Annually and on occasion.

Description of Respondents: Potential respondents comprise States, counties, localities and tribes.

Estimated Reporting and Recordkeeping Hour Burden: We estimate that the annual reporting burden for this collection is about 200 hours, assuming an emergency declaration is made each year.

Local Government Compilation: 25 local \times 1 hour/entity \times 2 responses/year = 50 hours; State Compilation: 15 States \times 5 hours/State \times 2 responses/year = 150 hours (50 county hours + 150 State hours = 200 total burden hours).

Estimated Reporting and Recordkeeping Non-Hour Cost Burden: We have identified no non-hour paperwork cost burdens for this collection.

Public Disclosure Statement: The PRA (44 U.S.C. 3501, *et seq.*) provides that an agency may not conduct or sponsor a collection of information, unless it

displays a currently valid OMB control number.

Comments: Before submitting an ICR to OMB, PRA section 3506(c)(2)(A) requires each agency “. . . to provide notice . . . and otherwise consult with members of the public and affected agencies concerning each proposed collection of information . . .” Agencies must specifically solicit comments on: (a) Whether or not the collection of information is necessary, including whether or not the information will have practical utility; (b) the accuracy of the burden estimates; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden on respondents.

Agencies must also estimate the non-hour cost burdens to respondents or recordkeepers resulting from the collection of information. Therefore, if you incur costs to generate, maintain, and disclose this information, you should comment and provide your total capital and startup costs or annual operation, maintenance, and purchase of service costs. You should describe the methods you use to estimate major cost factors, including system and technology acquisition, expected useful life of capital equipment, discount rate(s), and the period over which you incur costs. Capital and startup costs include, among other items, computers and software you purchase to prepare for collecting information, monitoring, and record storage facilities. You should not include estimates for equipment or services purchased: (a) Before October 1, 1995; (b) to comply with requirements not associated with the information collection; (c) for reasons other than to provide information or keep records for the Government; or (d) as part of customary and usual business or private practices.

We will summarize written responses to this notice and address them in our submission for OMB approval. Any necessary adjustments to the burden resulting from your comments will be reflected in our submission to OMB.

Public Availability of Comments: Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Dated: February 14, 2017.

Robert Sebastian,

Acting Chief, Office of Policy, Regulations, and Analysis.

INTERNATIONAL TRADE COMMISSION

[USITC SE-17-007]

Government in the Sunshine Act Meeting Notice

AGENCY HOLDING THE MEETING: United States International Trade Commission.

TIME AND DATE: March 3, 2017 at 11:00 a.m.

PLACE: Room 101, 500 E Street SW., Washington, DC 20436, Telephone: (202) 205-2000.

STATUS: Open to the public.

MATTERS TO BE CONSIDERED:

1. Agendas for future meetings: None.
 2. Minutes.
 3. Ratification List.
 4. Vote in Inv. Nos. 701-TA-560 and 731-TA-1320 (Final) (Carbon and Alloy Steel Cut-to-Length Plate from China). The Commission is currently scheduled to complete and file its determinations and views of the Commission by March 13, 2017.
 5. Vote in Inv. Nos. 701-TA-557 and 731-TA-1312 (Final) (Stainless Steel Sheet and Strip from China). The Commission is currently scheduled to complete and file its determinations and views of the Commission by March 24, 2017.
 6. Outstanding action jackets: None.
- In accordance with Commission policy, subject matter listed above, not disposed of at the scheduled meeting, may be carried over to the agenda of the following meeting.

By order of the Commission.

Issued: February 22, 2017.

William R. Bishop,

Supervisory Hearings and Information Officer.

BILLING CODE 2210-55-P

DEPARTMENT OF JUSTICE

Antitrust Division

Notice Pursuant to the National Cooperative Research and Production Act of 1993—Automotive Cybersecurity Industry Consortium

Notice is hereby given that, on January 11, 2017, pursuant to Section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* (“the Act”), Automotive Cybersecurity Industry Consortium (“ACIC”) has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the identities of the parties to the venture and (2) the nature and objectives of the venture. The notifications were filed for the purpose of invoking the Act’s provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances.

Pursuant to Section 6(b) of the Act, the identities of the parties to the venture are: General Motors LLC, Detroit, MI; Ford Motor Company, Dearborn, MI; and Hyundai America Technical Center Inc., Superior Township, MI. The general area of ACIC’s planned activity is collaboration to conduct or facilitate cooperative research, development, testing, and evaluation procedures to improve cyber security in automotive vehicles. ACIC’s objectives are to promote the interests of the automotive sector in cyber security while maintaining impartiality, the
