¹ For purposes of this investigation, the Department of Commerce has defined the subject merchandise as diocetyl terephthalate (“DOTP”), regardless of form. DOTP that has been blended with other products is included within this scope when such blends include constituent parts that have not been chemically reacted with each other to produce a different product. For such blends, only the DOTP component of the mixture is covered by the scope of this investigation. DOTP that is otherwise subject to this investigation is not excluded when commingled with DOTP from sources not subject to this investigation. Commingled refers to the mixing of subject and nonsubject DOTP. Only the subject component of such commingled products is covered by the scope of the investigation. DOTP has the general chemical formulation C₆H₄(C₈H₁₇COO)₂ and a chemical name of “bis (2-ethylhexyl) terephthalate” and has a Chemical Abstract Service (“CAS”) registry number of 6422–86–2. Regardless of the label, all DOTP is covered by this investigation. Subject merchandise is currently classified under subheading 2917.39.2000 of the Harmonized Tariff Schedule of the United States (“HTSUS”). Subject merchandise may also enter under subheadings 2917.39.7000 or 3812.20.1000 of the HTSUS. While the CAS registry number and HTSUS classification are provided for convenience and customs purposes, the written description of the scope of this investigation is dispositive.
