RE: U.S. Government Procurement; Title III, Trade Agreements Act of 1979 (19 U.S.C. 2511); Subpart B, Part 177, CBP Regulations; WorkFit-TL Sit-Stand Desktop Workstation

Dear Mr. Noreault:

This is in response to your correspondence of September 29, 2016 requesting a final determination on behalf of Ergotron Inc. (“Ergotron”), pursuant to subpart B of Part 177, U.S. Customs and Border Protection (“CBP”) Regulations (19 CFR 177.21 *et seq.*). Under the pertinent regulations, which implement Title III of the Trade Agreements Act of 1979, as amended (19 U.S.C. 2511 *et seq.*), CBP issues country of origin advisory rulings and final determinations as to whether an article is or would be a product of a designated country or instrumentality for the purposes of granting waivers of certain “Buy American” restrictions in U.S. law or practice for products offered for sale to the U.S. Government.

This final determination concerns the country of origin of the WorkFit-TL Sit-Stand Desktop Workstation. We note that Ergotron is a party-at-interest within the meaning of 19

CFR 177.22(d)(1) and is entitled to request this final determination.

FACTS:

The merchandise at issue is the WorkFit-TL Sit-Stand Desktop Workstation. You state that the WorkFit-TL is an ergonomic, height adjustable desk intended to help promote a healthy work environment by giving the user the ability to easily adjust between a standing or sitting position. The WorkFit-TL can be adjusted by releasing the hand-brake levers on either side of the unit to position the surface higher or lower to accommodate sitting or standing position. The WorkFit-TL is assembled in the United States from U.S. and Chinese components. Ergotron received a country of origin marking ruling for the WorkFit-T Sit-Stand Desktop Workstation from the National Commodity Specialist Division (New York Ruling Letter (“NY”) N276731, dated July 15, 2016). You state that WorkFit-TL features a larger keyboard tray and wider work surface than the WorkFit-T but the products and the assembly processes are otherwise identical.

You have submitted photographs, an assembly drawing, a process flow map, and two bills of materials for the WorkFit-TL. The first bill of materials is for materials utilized for all processing performed in the United States. The second bill of materials is for all processing performed in China. You state that of the total cost of production, 57 percent is attributable to materials of U.S. origin and U.S. labor costs (including overhead).

You state that the WorkFit-TL is comprised of three main components: A Chinese origin lift assembly, a U.S. origin laminated particle board work surface and keyboard tray. The lift assembly consists of base metal and provides user assisted lift functionality by means of spring force to allow adjustment of the product between sitting and standing positions. The lift assembly from China is assembled with components fabricated in Ergotron’s facility in the United States including the work surface, keyboard tray, right and left keyboard support brackets, and metal support bar. The design and development of the WorkFit-TL occurs in the United States. The production that occurs in the United States includes the following:

The right and left keyboard support brackets and metal support bar

- Laser cutting sheet metal components
- Press braking to bend sheet metal components to create the right and left brackets and the metal support bar
- Stud insertion into the sheet metal components
- Painting the sheet metal components
- Assembling the sheet metal components to the imported lift mechanism.

The work surface and keyboard tray

- Sawing raw Medium-Density Fiberboard (“MDF”) to the size of the work surface and keyboard tray
- Routing of profiles on the MDF sheets
- Sanding of MDF to prepare for the vinyl laminate
- Applying glue to the MDF
- Pressing the vinyl laminate onto the MDF
