SUPPLEMENTARY INFORMATION: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501-3520), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

OMB Control Number: 3060-0370.

Title: Part 32, Uniform System of Accounts for Telecommunications Companies.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit, not-for-profit institutions, and state, local or tribal government.

Number of Respondents and Responses: 852 respondents; 852 responses.

Estimated Time per Response: 1 hour.

Frequency of Response: On occasion recordkeeping requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 11, 151, 154, 161, 201-205, 215, and 218-220.

Total Annual Burden: 852 hours.

Total Annual Cost: No cost(s).

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: The Commission is not requesting that the respondents submit confidential information to the Commission. If the Commission requests applicants to submit information that the respondents believe is confidential, respondents may request confidential treatment of such information under 47 CFR 0.459 of the Commission's rules.

Needs and Uses: The Commission, in 2004, adopted the Joint Conference's recommendations to reinstate the following part 32 accounts: Account 5230, Directory revenue; Account 6621, Call completion services; Account 6622, Number services; Account 6623, customer services; Account 6561, Depreciation expense-telecommunications plant in service; Account 6562, Depreciation expense-property held for future telecommunications use; Account 6563, Amortization expense-tangible; Account 6564, Amortization expense-intangible; and Account 6565, Amortization expense-other. The Commission established a recordkeeping requirement that Class A ILECs maintain subsidiary record categories for unbundled network element revenues, resale revenues, reciprocal compensation revenues, and other interconnection revenues in the accounts in which these revenues are currently recorded. The use of subsidiary record categories allows carriers to use whatever mechanisms they choose, including those currently in place, to identify the relevant amounts as long as the information can be made available to state and federal regulators upon request. The use of subsidiary record categories for interconnection revenue does not require massive changes to the ILECs' accounting systems and is a far less burdensome alternative than the creation of new accounts and/or subaccounts. The information submitted

to the Commission by carriers provides the necessary detail to enable the Commission to fulfill its regulatory responsibilities.

Federal Communications Commission.

Secretary, Office of the Secretary.

SUPPLEMENTARY INFORMATION:

Title: Informal Dispute Settlement Procedures Rule (the Dispute Settlement Rule or the Rule), 16 CFR 703.

OMB Control Number: 3084-0113.

Type of Review: Extension of a currently approved collection.

Abstract: The Informal Dispute Settlement Procedures Rule (the Dispute Settlement Rule or the Rule) specifies the minimum standards which must be met by any informal dispute settlement mechanism (IDSM) that is incorporated into a written consumer product warranty and which the consumer must use before pursuing legal remedies under the Magnuson-Moss Warranty Act, 15 U.S.C. 2301 *et seq.* (Warranty Act or Act) in court. These minimum standards for IDSMs include requirements concerning the mechanism's structure (e.g., funding, staffing, and neutrality), the qualifications of staff or decision makers, the mechanism's procedures for resolving disputes (e.g., notification, investigation, time limits for decisions, and follow-up), recordkeeping, and annual audits. The Rule requires that IDSMs establish written operating procedures and provide copies of those

procedures upon request. The Rule applies only to those firms that choose to be bound by it by requiring consumers to use an IDSM. A warrantor is free to set up an IDSM that does not comply with the Rule as long as the warranty does not contain a prior resort requirement.

On January 27, 2017, the Commission sought comment on the Rule's information collection requirements. 82 FR 8614. No germane comments were received.¹ As required by OMB regulations, 5 CFR 1320, the FTC is providing this second opportunity for public comment.

(c) Disclosures—Warrantors, 17, annual 30 hours each; IDSMs, 2, 5 minutes/case for 2,145 consumer cases.
