SUPPLEMENTARY INFORMATION: Due to circumstances beyond the control of the Designated Federal Officer and the Department of Defense, the Defense Science Board was unable to provide public notification concerning its meeting on April 26 through 27, 2017, of the Defense Science Board 2017 Summer Study Task Force on Countering Anti-access Systems with Longer Range and Standoff Capabilities, as required by 41 CFR 102–3.150(a). Accordingly, the Advisory Committee Management Officer for the Department of Defense, pursuant to 41 CFR 102–3.150(b), waives the 15-calendar day notification requirement.

This meeting is being held under the provisions of the Federal Advisory Committee Act (FACA) of 1972 (5 U.S.C., Appendix, as amended), the Government in the Sunshine Act of 1976 (5 U.S.C. 552b, as amended), and 41 CFR 102–3.150.

The mission of the DSB is to provide independent advice and recommendations on matters relating to the Department of Defense's (DoD) scientific and technical enterprise. The objective of the Long Range Effects 2017 Summer Study Task Force is to explore new defense systems and technologies that will enable cost effective power projection that relies on the use of longer stand-off distances than current capabilities. System components may be deployed on manned or unmanned platforms with a range of potential autonomous capabilities. Use of cost reducing technology and advanced production practices from defense and

commercial industry may be a major part of the strategy for deploying adequate numbers of weapons. The study should investigate and analyze all of these areas and recommend preferred system options. This two-day session will focus on future capabilities and architectures for the Department. Day One briefings will include opening remarks and expectations for the two-day session from Dr. David Whelan and Mr. Mark Russell, task force co-chairs; a briefing on long-range effects in the Pacific, including U.S. Navy operational programs and planning in the U.S. Pacific Command area of responsibility, from Commander David Fields, U.S. Pacific Fleet, U.S. Navy; a briefing on Future Naval Capabilities, including utilization of Navy resources to address adversary long range strike capabilities, from VADM Jan Tighe, Deputy Chief of Naval Operations for Information Warfare/Director of Naval Intelligence, U.S. Navy; a briefing on countering anti-access systems with longer range and standoff capabilities from Mr. James MacStravic, Performing the Duties of the Under Secretary of Defense for Acquisition, Technology, and Logistics; and a briefing on Department of Defense Space Policy, from Mr. John Hill, Office of the Secretary of Defense, Space Policy. The remainder of this day will be the Long Range Effects 2017 Summer Study Task Force's four panel break-out sessions: Architecture; Intelligence, Surveillance, and Reconnaissance (ISR); Basing, Delivery, and Weapons; Command, Control, Communications, and Cyber. These panels will meet simultaneously to discuss topics to analyze in support of the study. Day Two activities will be the Long Range Effects 2017 Summer Study Task Force's four panel break-out sessions: Architecture; Intelligence, Surveillance, and Reconnaissance (ISR); Basing, Delivery, and Weapons; Command, Control, Communications, and Cyber. These panels will meet simultaneously to discuss topics to analyze in support of the study. The Day Two will close with discussion of the four panels' work.

In accordance with section 10(d) of the FACA and 41 CFR 102–3.155, the DoD has determined that the Long Range Effects 2017 Summer Study Task Force meeting will be closed to the public. Specifically, the Under Secretary of Defense (Acquisition, Technology, and Logistics), in consultation with the DoD Office of General Counsel, has determined in writing that the meeting will be closed to the public because matters covered by 5 U.S.C. 552b(c)(1) will be considered. The determination is

based on the consideration that it is expected that discussions throughout will involve classified matters of national security concern. Such classified material is so intertwined with the unclassified material that it cannot reasonably be segregated into separate discussions without defeating the effectiveness and meaning of the overall meetings. To permit the meeting to be open to the public would preclude discussion of such matters and would greatly diminish the ultimate utility of the DSB's findings and recommendations to the Secretary of Defense and to the Under Secretary of Defense for Acquisition, Technology, and Logistics.

In accordance with section 10(a)(3) of the FACA and 41 CFR 102–3.105(j) and 102–3.140, interested persons may submit a written statement for consideration by the Long Range Effects 2017 Summer Study Task Force members at any time regarding its mission or in response to the stated agenda of a planned meeting. Individuals submitting a written statement must submit their statement to the DSB's DFO—Ms. Karen D.H. Saunders, Executive Director, Defense Science Board, 3140 Defense Pentagon, Room 3B888A, Washington, DC 20301, via email at karen.d.saunders.civ@mail.mil or via phone at (703) 571–0079 at any point; however, if a written statement is not received at least 3 calendar days prior to the meeting, which is the subject of this notice, then it may not be provided to or considered by the Long Range Effects 2017 Summer Study Task Force until the next meeting of this task force. The DFO will review all submissions with the Long Range Effects 2017 Summer Study Task Force Co-Chairs and ensure they are provided to Long Range Effects 2017 Summer Study Task Force members prior to the end of the two day meeting on April 27, 2017.
