

Friday. More information on the planning process can also be found on the Pike and San Isabel National Forests Web site at <https://www.fs.usda.gov/project/?project=51098>.

SUPPLEMENTARY INFORMATION: The National Forest Management Act (NFMA) of 1976 requires that every National Forest System (NFS) unit develop a land management plan. On April 9, 2012, the Forest Service finalized its land management planning rule (2012 Planning Rule), which provides broad programmatic direction to National Forests and National Grasslands for developing and implementing their land management plans.

Forest plans describe the strategic direction for management of forest resources for fifteen to twenty years, and are adaptive and amendable as conditions change over time. Under the 2012 Planning Rule, the assessment of ecological, social, and economic trends and conditions is the first stage of the planning process. The second stage is a development and decision process guided, in part, by the NEPA and includes the preparation of a draft environmental impact statement and revised Forest Plan for public review and comment, and the preparation of the final environmental impact statement and revised Forest Plan. The third stage of the process is monitoring and feedback, which is ongoing over the life of the revised forest plans. With this notice, the agency invites other governments, non-governmental parties, and the public to contribute to the development of the assessment report.

The assessment will rapidly evaluate the sustainability of existing ecological, economic, and social conditions and trends within the context of the broader landscape. It will help inform the planning process through the use of Best Available Scientific Information, while also taking into account other forms of knowledge, such as local information, national perspectives, and native knowledge. Lastly, the assessment will help identify the need to change the existing 1984 plan.

The Pike/San Isabel National Forests and Cimarron/Comanche National Grasslands and Bureau of Land Management Royal Gorge Field Office, with lands administered in Chaffee County, Colorado are initiating the Browns Canyon National Monument (NM) planning assessment and management plan process pursuant to Proclamation 9232, establishing the monument specifically states: *In the development and implementation of the management plan, the Secretaries*

(USDA and Department of Interior) shall maximize opportunities, pursuant to applicable legal authorities, for shared resources, operational efficiency, and cooperation. A joint agency assessment process will be performed in cooperation with the BLM and National Conservation Lands. The assessment process and results are to be used to inform a Browns Canyon NM Management Plan describing the strategic direction for management of monument resources, objects, and values for the next 15 to 20 years on the Pike/San Isabel National Forests and Cimarron/Comanche National Grasslands and BLM Royal Gorge Field Office.

The Browns Canyon NM Management Plan will amend the PSICC's Land and Resource Management Plan and be incorporated into the BLM's Royal Gorge Field Office Eastern Colorado Resource Management Plan during revision. The first phase of the process, the assessment phase, has begun and interested parties are invited to contribute to the development of the assessment (36 CFR 219.12–17).

Additional information on public participation opportunities will be available on the project Web site: <https://www.fs.usda.gov/project/?project=51098> and BLM Browns Canyon National Monument RMP link at <https://eplanning.blm.gov/epl-front-office/eplanning/planAndProjectSite.do?methodName=renderDefaultPlanOrProjectSite&projectId=69924&dctmId=0b0003e880dda953>. The trends and conditions identified in the assessment will help in identifying the need for change, in the development of plan components.

Collaboration as part of the assessment phase supports the development of relationships of key stakeholders throughout the plan revision process, and is an essential step to understanding current conditions, available data, and feedback needed to support a strategic, efficient planning process. As public meetings, other opportunities for public engagement, and public review and comment opportunities are identified to assist with the development of the forest plan revision, public announcements will be made, and notifications will be posted on the Browns Canyon National Monument Project Web page at <https://www.fs.usda.gov/project/?project=51098> and information will be sent out to the Forest's mailing list. If anyone is interested in being on the Forest's mailing list to receive these notifications, please contact John Dow, Forest Planner at 719–553–1476 or Joseph Vieira, BLM Planner-Project

Manager at (719) 246–9966 at the mailing address identified above, or by sending an email to: blm_co_browncanyon@blm.gov (subject heading titled Browns Canyon National Monument—Planning Assessment).

Responsible Official: The responsible official for the Browns Canyon National Monument management plan for the Pike/San Isabel National Forests and Cimarron/Comanche National Grasslands is Erin Connelly, Forest Supervisor, Pike/San Isabel National Forests and Cimarron/Comanche National Grasslands, 2840 Kachina Drive, Pueblo, CO 81008.

Economic Development Administration

Notice of Petitions by Firms for Determination of Eligibility To Apply for Trade Adjustment Assistance

AGENCY: Economic Development Administration, Department of Commerce.

ACTION: Notice and opportunity for public comment.

Pursuant to Section 251 of the Trade Act 1974, as amended (19 U.S.C. 2341 *et seq.*), the Economic Development Administration (EDA) has received petitions for certification of eligibility to apply for Trade Adjustment Assistance from the firms listed below. Accordingly, EDA has initiated investigations to determine whether increased imports into the United States of articles like or directly competitive with those produced by each of these firms contributed importantly to the total or partial separation of the firm's workers, or threat thereof, and to a decrease in sales or production of each petitioning firm.
