

year approval as an NHSC service site has lapsed or whose HPSA designation has been withdrawn or proposed for withdrawal, will be removed from the priority listing.

Sites wishing to request an additional scholar must complete an Additional Scholar Request form available at <http://nhsc.hrsa.gov/downloads/additionalrequestform.pdf>. NHSC-approved sites that do not meet the authorized threshold HPSA score of 17 may post job openings on the Health Workforce Connector; however, scholars seeking placement between October 1, 2017, and September 30, 2018, will be advised that they can only apply for open positions at sites that meet the threshold placement HPSA score of 17. While not eligible for scholar placements in the 2017–2018 cycle, vacancies in HPSAs scoring less than 17 will be used by the NHSC in evaluating the HPSA threshold score for the next annual scholarship placement cycle.

The program is not subject to the provisions of Executive Order 12372, Intergovernmental Review of Federal Programs (as implemented through 45 CFR part 100).

Dated: April 27, 2017.

Information Collection Request Title: Evaluation of the Certified Community Behavioral Health Clinic Demonstration.

Abstract: The Office of the Assistant Secretary for Planning and Evaluation (ASPE) at the U.S. Department of Health and Human Services (HHS) is requesting Office of Management and Budget (OMB) approval for data collection activities to support the evaluation of the Certified Community Behavioral Health Clinic (CCBHC) demonstration program.

In April 2014, Section 223 of the Protecting Access to Medicare Act (PAMA) mandated the CCBHC demonstration to address some of the challenges of access, coordination, financing, and quality facing community mental health centers (CMHCs) across the country. The CCBHC demonstration is intended to improve the availability, quality, and

outcomes of CMHC ambulatory care by establishing a standard definition and criteria for CCBHCs, and developing a new payment system that accounts for the total cost of providing comprehensive services to all individuals who seek care. The demonstration also aims to more fully integrate primary and behavioral health care services; ensure more consistent use of evidence-based practices; and, through enhanced standardized reporting requirements, offer an opportunity to assess the quality of care provided by CCBHCs across the country.

Need and Proposed Use of the Information: Section 223 of PAMA requires the Secretary of HHS to provide annual reports to Congress that include an assessment of access to community-based mental health services under Medicaid, the quality and scope of CCBHC services, and the impact of the demonstration on federal and state costs of a full range of mental health services. In addition, PAMA requires the Secretary to provide recommendations regarding continuation, expansion, modifications, or termination of the demonstration no later than December 31, 2021. The data collected under this submission will help ASPE address research questions for the evaluation, and inform the required reports to Congress.

Likely Respondents: Respondents include the following: Certified Community Behavioral Health Clinic demonstration grantees; State Medicaid Officials; State Mental Health Officials; and State Consumer/Family Representatives.

The total annual burden hours estimated for this ICR are summarized in the table below.

TOTAL ESTIMATED ANNUALIZED BURDEN—HOURS

Respondents/activity	Number of sites	Number of respondents per site	Responses per respondent	Total responses	Hours per response	Total hour burden

OS specifically requests comments on (1) the necessity and utility of the proposed information collection for the

proper performance of the agency’s functions, (2) the accuracy of the estimated burden, (3) ways to enhance

the quality, utility, and clarity of the information to be collected, and (4) the use of automated collection techniques

or other forms of information technology to minimize the information collection burden.
