These measures constitute the Department's indicator of success for this program. Consequently, we advise an applicant for a grant under this program to give careful consideration to these measures in conceptualizing the approach and evaluation for its proposed project. Each grantee will be required to provide, in its annual performance and final reports, data about its progress in meeting these measures.

5. *Continuation Awards:* Grants awarded under this competition may be for a project period of up to three years. The Department will either award grantees their entire three-year award at the time of the initial award, or will award grantees only the first-year portion of their award. If the Department awards grantees only the first-year portion of their award, depending on the availability of funds, the Department will make continuation awards for years two and three in accordance with 34 CFR 75.253. In making a continuation award under 34 CFR 75.253, the Secretary considers, among other things: whether a grantee has made substantial progress in achieving the goals and objectives of the project; whether the grantee has expended funds in a manner that is consistent with its approved application and budget; and, if the Secretary has established performance measurement requirements, the performance targets in the grantee's approved application.

In making a continuation award, the Secretary also considers whether the grantee is operating in compliance with the assurances in its approved application, including those applicable to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).

Abstract: In response to grant monitors need for a better reporting mechanism for grantee budgets, the G5 team developed a new electronic budget form for grantees to complete. This new electronic form requires grantees to detail the budget categories from which they are expending funds in order for Department grant monitors to track more carefully the drawdowns and financial management systems of grantees. Although this form may be used by all grantees, at this time only grantees on cost reimbursement or route

payment status will be required to use this form when reporting their budget, requesting funds, and accessing funds. Current Department regulations sections 74.20–74.28 and 74.50–74.53 address the financial management and reporting requirements of grantees. The new form developed in G5 serves as the mechanism for grantees to report expenditures and track their spending in order to ensure compliance with Department regulations. The currently used budget form, the SF 524, is not comprehensive enough to meet the needs of grant monitors to efficiently and effectively monitor this sub-set of grantees. This new data collection will enhance the ability of grant monitors to track the budgeting of grantees and the management of their funds.
