I. Introduction

On June 8, 2017, the Postal Service filed a petition pursuant to 39 CFR 3050.11 requesting that the Commission initiate an informal rulemaking proceeding to consider changes to an analytical method relating to periodic reports.¹ The Petition identifies the

proposed analytical method changes filed in this docket as Proposal Two.

II. Proposal Two

Background. During the FY 2016 Annual Compliance Determination (ACD) process, in response to an information request, the Postal Service developed a methodology for revising the International Cost and Revenue Analysis report (ICRA) by changing the costing methodology for the treatment of Inbound mail, including Letter Post, Parcel Post and Express Mail Service to adjust for the increasingly difficult task of maintaining statistical reliability of reporting UPU Target and Transition Countries separately. Proposal Two at 1–2. Proposal Two is presented in response to Commission discussion in the FY 2016 ACD regarding those revisions.² Although the methodology was used provisionally for assessing compliance in the FY 2016 ACD, the Commission stated that the methodology must be reviewed by the Commission through a docketed proceeding before it may be used in future ACDs. Proposal Two at 2; *see* FY 2016 ACD at 64.

Proposal. Proposal Two implements the costing methodology developed in response to Chairman's Information Request No. 12, question 1, in the FY 2016 ACD process and consolidates the cost estimates for Target and Transition Countries. Proposal Two at 6. Proposal Two would also combine Inbound Letter Post from Target and Transition Countries at UPU rates reporting into a single ICRA Inbound Letter Post at UPU rates line separate from Canada. There would no longer be a need for the In-Office Cost System analysis to separate costs into Target and Transition Countries in the Cost and Revenue Analysis Cost Segments tab of the Inputs file. The Canada and UPU separation remains in place. *Id.*

Rationale and impact. The Postal Service states that continuing the Target Country and Transition Country distinction is not consistent with the current Mail Classification Schedule (MCS) and produces increasingly unreliable or misleading cost estimates due to the shrinking Transition Country classification. *Id.* The MCS makes no distinction between Target and Transition Countries regarding Inbound

Letter Post. *Id.* The Postal Service believes that the current MCS classification is consistent with the fact that there is no costing reason to maintain a distinction between Target and Transition Countries. *Id.* at 7. The differences arising from the proposed modification are presented in a non-public file which was filed under seal with the Petition. *Id.*

III. Notice and Comment

The Commission establishes Docket No. RM2017–6 for consideration of matters raised by the Petition. Clendenin is designated as officer of the Commission (Public Representative) to represent the interests of the general public in this proceeding.

IV. Ordering Paragraphs
