Title: Third Access, Participation, Eligibility and Certification Study Series (APEC III).

OMB Control Number: 0584–0530.

Summary of Collection: The National School Lunch Program (NSLP) and the School Breakfast Program (SBP), administered by the Food and Nutrition Service (FNS) of the U.S. Department of Agriculture (USDA), are authorized under sections 10 and 4, respectively, of the Richard B. Russell National School Lunch Act of 1966 (42 U.S.C. 1766). The Improper Payment Information Act (IPIA) of 2002 (Pub. L. 107–300), the Improper Payments Elimination and Recovery Act (IPERA) of 2010 (Pub. L. 111–204), the Improper Payments Elimination and Recovery Improvement Act (IPERIA) of 2012 (Pub. L. 112–248), and Executive Order 13520—Reducing Improper Payments set forth the priority, mandate, and requirements for FNS to identify, estimate, and reduce erroneous payments in these programs, including both underpayments and overpayments. The APEC III study will provide FNS with the information needed to reduce improper payments in the school meals programs.

Need and Use of the Information: This study will survey a nationally representative sample of School Food Authorities (SFAs) in the contiguous 48 states and the District of Columbia, a stratified sample of schools within each SFA, and a random sample of students within each sampled school that applied for free and reduced-price meals, were categorically eligible for free meals or were directly certified for free meals. FNS will use the data to develop national estimates of the annual error rates and erroneous payments for the NSLP and SBP in school year 2017–2018, to identify characteristics that may be related to the error rates, and to identify strategies and guidance for reducing these errors.

Description of Respondents: State, Local, or Tribal Government; Individuals and Households.

Number of Respondents: 9,452.

Frequency of Responses: Reporting: Annually.

Total Burden Hours: 13,042.

SUPPLEMENTARY INFORMATION:

Title: Supplemental Nutrition Assistance Program Repayment Demand and Program Disqualification.

OMB Number: 0584–0492.

Form Number: None.

Expiration Date: August 31, 2017.

Type of Request: Revision of a currently approved collection.

Abstract: Section 13(b) of the Food and Nutrition Act of 2008, as amended (7 U.S.C. 2022(b)), and Supplemental Nutrition Assistance Program (SNAP) regulations at 7 CFR 273.18 require State agencies to initiate collection action against households that have been overissued benefits. To initiate collection action, State agencies must provide an affected household with written notification informing the household of the claim and demanding repayment. This process is automated in most State agencies. Note that for overissuance claims, this information collection only covers the activities associated with initiating collection. The burden associated with reporting collections and other claims management information on the FNS–209 form is covered under currently approved under the Food Program Reporting System OMB number 0584–0594, expiration date 6/30/2019. The burden associated with referring delinquent claims and receiving collections through the Treasury Offset Program is covered under currently approved OMB number 0584–0446, expiration date 9/30/2019.

SNAP regulations at 7 CFR 273.16(e)(3) require State agencies to investigate any case of suspected fraud and, where applicable, make an intentional Program violation (IPV) determination either administratively or judicially. Notifications and activities involved in the IPV process include:

- The State agency providing written notification informing an individual

suspected of committing an IPV of an impending administrative disqualification hearing or court action;

- An individual opting to accept the disqualification and waiving the right to an administrative disqualification hearing or court action by signing either a waiver to an administrative disqualification hearing or a disqualification consent agreement in cases of deferred adjudication and returning it to the State agency; and

- Once a determination is made regarding an IPV, the State agency sending notification to the affected individual of the action taken on the administrative disqualification hearing or court decision.

SNAP regulations at 7 CFR 273.16 require State agencies to use disqualified recipient data to ascertain the correct penalty for IPV, based on prior disqualifications. State agencies determine this by accessing and reviewing records located in the Electronic Disqualified Recipient System (eDRS). eDRS is an automated system developed by FNS that contains records of disqualifications in every State. State agencies are also responsible for updating the system, as required at 7 CFR 237.16, which includes reporting disqualifications in eDRS as they occur and updating eDRS when records are no longer accurate, relevant, or complete.

Summary of Estimated Burden

The burden consists of two major components: The initiation of overissuance collection and actions associated with IPV determinations. The estimated total annual burden for this collection is 203, 079.82 hours (139,052.851 SA reporting hours + 32,372.096 SA recordkeeping hours + 31,654.835 household reporting hours). The net aggregate change to this collection is a decrease of 4,753.18 total burden hours from the currently approved burden of 207,833 hours. The estimated total annual responses for this collection is 3,046,653.32 responses (1,083,671.320 SA reporting total annual

response + 971,260.00 SA recordkeeping total annual records + 991,722.00 household reporting total annual responses). The burden hours associated with overissuance collection initiation have increased due to an increase in the amount of claims established in fiscal year (FY) 2015. The burden hours associated with IPV activity have decreased slightly as a result of a decreased number of SNAP households that States initiated IPV activity against in FY2015.
