j. Description of Proceeding: The licensee, Erie Boulevard Hydropower, L.P., requests that the Commission amend the license terms for two of its projects to synchronize the license expiration dates with the licensee's four other projects, so that they can be relicensed concurrently. The other four projects' licenses expire on December 31, 2033. All six projects are located on the Raquette River.

In order to align the expiration dates, the licensee requests that the Commission extend the license for the Yaleville Project No. 9222, approximately 12 years, from January 31, 2022 to December 31, 2033. In addition, the licensee requests that the Commission accelerate the license expiration term for the Piercefield Project No. 7387 by 10 years, from October 31, 2045 to October 31, 2035.

The licensee states that amending the license terms for the two projects would allow for better coordination during project relicensing for all of its projects on the Raquette River. The licensee's request includes letters of support for the amendments of the license terms from the U.S. Fish and Wildlife Service, New York State Department of Environmental Conservation, and Adirondack Mountain Club.
