

Trade Commission (the ITC) have determined that revocation of the antidumping duty order on certain in-shell (raw) pistachios (pistachios) from the Islamic Republic of Iran (Iran) would likely lead to a continuation or recurrence of dumping and material injury to an industry in the United States. Therefore, the Department is publishing a notice of continuation of this order.

DATES: Effective July 13, 2017.

FOR FURTHER INFORMATION CONTACT: Madeline Heeren, AD/CVD Operations, Office VI, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230; telephone (202) 482-9179.

SUPPLEMENTARY INFORMATION:

Background

On July 17, 1986, the Department published the antidumping duty order on certain in-shell pistachios from Iran.¹ On April 1, 2016, the Department initiated² and the ITC instituted³ the second five-year (sunset) review of the *Order* pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act). No respondent interested party submitted a timely substantive response. Pursuant to section 751(c)(3)(B) of the Act and 19 CFR 351.218(e)(1)(ii)(C)(2), the Department conducted an expedited (120-day) sunset review of the *Order*. As a result of this sunset review, the Department determined that revocation of the *Order* would likely lead to a continuation or recurrence of dumping and, therefore, notified the ITC of the magnitude of the margins of dumping likely to prevail should the order be revoked, pursuant to sections 751(c)(1) and 752(b) and (c) of the Act.⁴

On June 30, 2017, the ITC published its determination, pursuant to section 751(c) and 752 of the Act, that revocation of the *Order* would likely lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.⁵

Scope of the Order

The products covered by the order are raw, in-shell pistachio nuts from which the hulls have been removed, leaving the inner hard shells, and edible meats from Iran.⁶ This merchandise is provided for in subheading 0802.51.00.00 of the Harmonized Tariff Schedule of the United States (HTSUS). Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of this order is dispositive.

Continuation of the Order

As a result of the determinations by the Department and the ITC that revocation of the *Order* would likely lead to a continuation or recurrence of dumping and material injury to an industry in the United States, pursuant to section 751(d)(2) of the Act and 19 CFR 351.218(a), the Department hereby orders the continuation of the *Order*. U.S. Customs and Border Protection will continue to collect cash deposits at the rates in effect at the time of entry for all imports of subject merchandise.

The effective date of the continuation of the *Order* will be the date of publication in the **Federal Register** of this notice of continuation. Pursuant to section 751(c)(2) of the Act, the Department intends to initiate the next five-year review of this order not later than 30 days prior to the fifth anniversary of the effective date of continuation notice.

This five-year (sunset) review and this notice are in accordance with sections 751(c) and 751(d)(2) of the Act and published pursuant to section 777(i)(1) of the Act and 19 CFR 351.218(f)(4).

Dated: July 7, 2017.

Gary Taverman,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR 222–226).

The proposed permit would authorize takes of the above listed species during vessel surveys to gather information currently lacking regarding their ecology, behavior and population status to enable information-based resource management in southeastern Alaska especially Glacier Bay National Park & Preserve (GBNPP). The core study area is Glacier Bay/Icy Strait, but includes all nearshore waters of the mainland and Alexander Archipelago. Takes by harassment may occur by close approach for vessel surveys, photo-identification, behavioral observation, collection of feces/sloughed skin, biopsy sampling and passive acoustic recording. The maximum number of annual approaches to whales (risking Level B harassment) will be 2500 humpback whales, 500 killer whales, 20 minke whales and 20 gray whales. Biopsy takes on 50 humpback and 50 killer whales are also requested. The permit would be valid for five years.
