

surveys will be reported in aggregate and not identify individuals.

Description of the Need for the Information and Proposed Use of the Information: NHTSA was established to reduce the number of deaths, injuries, and economic losses resulting from motor vehicle crashes on the nations' highways. As part of this statutory mandate, NHTSA is authorized to conduct research as a foundation for the development of motor vehicle standards and traffic safety programs. In support of this mission, NHTSA proposes to collect information from LELs and their State and/or sponsoring agency sponsors to improve NHTSA's understanding of LEL programs in the United States and to evaluate the programmatic and cost effectiveness of existing LEL approaches. Study outcomes will be used to inform funding agencies and LEL programs about LEL best practices and what is required to maintain maximum LEL program effectiveness. The information will support States and other agencies and organizations in their efforts to reduce and prevent injuries among the motoring public through the use of traffic safety programs promoted by the LELs.

Description of the Likely Respondents (Including Estimated Number, and Proposed Frequency of Response to the Collection of Information): NHTSA proposes to conduct two one-time surveys. The first survey will include the approximately 240 LELs across the country. The second survey will include the sponsoring agencies from the 49 States that use LELs, either State Highway Safety Office (SHSO) or other sponsoring agency personnel that supervise the LELs. Potential participants will be sent an advance letter to inform them of the survey and how to access the questionnaire along with a request for their participation. Both surveys will be administered using an online survey format.

Estimate of the Total Annual Reporting and Record Keeping Burden Resulting From the Collection of Information: Each of the approximately 240 LELs and the LEL supervisors from the 49 sponsoring agencies will take the a single web-based online survey, which will take approximately 45 minutes to complete. Data collection is expected to take place over a 2 month period of time in the spring of 2018. The estimated annual burden is approximately 217 total hours for both surveys combined. The participants will not incur any record keeping burden nor record keeping cost from the information collection.

Authority: 44 U.S.C. Section 3506(c)(2)(A).

Section 17A(c) of the Security Exchange Act of 1934 (the Act) requires all transfer agents for securities registered under section 12 of the Act or, if the security would be required to be registered except for the exemption from registration provided by section 12(g)(2)(B) or section 12(g)(2)(G), to "fil[e] with the appropriate regulatory

agency . . . an application for registration in such form and containing such information and documents . . . as such appropriate regulatory agency may prescribe as necessary or appropriate in furtherance of the purposes of this section.”¹ In general, an entity performing transfer agent functions for a qualifying security is required to register with its appropriate regulatory agency (ARA). The OCC’s regulations at 12 CFR 9.20 implement these provisions of the Act.

To accomplish the registration of transfer agents, Form TA–1 was developed in 1975 as an interagency effort by the Securities and Exchange Commission (SEC) and the federal banking agencies (the OCC, the Board of Governors of the Federal Reserve System, and the Federal Deposit Insurance Corporation). The agencies primarily use the data collected on Form TA–1 to determine whether an application for registration should be approved, denied, accelerated, or postponed, and the agencies use the data in connection with their supervisory responsibilities. In addition, when a national bank or federal savings association no longer acts as a transfer agent for covered corporate securities or when the national bank or federal savings association is no longer supervised by the OCC, *i.e.*, liquidates or converts to another form of financial institution, the national bank or federal

savings association must file Form TA–W with the OCC requesting withdrawal from registration as a transfer agent. In 2007, the OCC removed Form TA–W from this information collection and began use of the SEC’s Form TA–W (OMB Control No. 3235–0151). The OCC is now reinstituting use of Form TA–W by national banks and federal savings associations to alleviate any confusion created by the use of the SEC form.

The OCC has determined that Forms TA–1 and TA–W are mandatory and that their collection is authorized by sections 17A(c), 17(a)(3), and 23(a)(1) of the Act, as amended (15 U.S.C. 78q–1(c), 78q(a)(3), and 78w(a)(1)). Additionally, section 3(a)(34)(B) of the Act (15 U.S.C. 78c(a)(34)(B)(ii)) provides that the OCC is the ARA in the case of a national banks, federal savings associations, and subsidiaries of such institutions. The registrations are public filings and are not considered confidential.

The OCC needs the information contained in this collection to fulfill its statutory responsibilities. Section 17A(c) of the Act (15 U.S.C. 78q–1(c)), as amended, provides that all those authorized to transfer securities registered under section 12 of the Act (transfer agents) shall register “by filing with the appropriate regulatory agency . . . an application for registration in such form and containing such information and documents . . . as such appropriate regulatory agency may

prescribe to be necessary or appropriate in furtherance of the purposes of this section.”

Request for Comment

The OCC issued a notice for 60 days of comment on May 5, 2017, 82 FR 21300. No comments were received. Comments continue to be invited on:

(a) Whether the information collections are necessary for the proper performance of the OCC’s functions, including whether the information has practical utility;

(b) The accuracy of the OCC’s estimates of the burden of the information collections, including the validity of the methodology and assumptions used;

(c) Ways to enhance the quality, utility, and clarity of the information to be collected;

(d) Ways to minimize the burden of information collections on respondents, including through the use of automated collection techniques or other forms of information technology; and

(e) Estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information.

Dated: July 18, 2017.

Karen Solomon,
Deputy Chief Counsel, Office of the
Comptroller of the Currency.
