Bonneville Power Administration: Notice of Filing

Take notice that on August 7, 2017, Bonneville Power Administration submitted an errata to its July 31, 2017 tariff filing per: BP-18 Power and Transmission Rates.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. On or before the comment date, it is not necessary to serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the

eFiling link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 5 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please email FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Comment Date: 5:00 p.m. Eastern Time on August 30, 2017.

Dated: August 23, 2017.

Kimberly D. Bose,
Secretary.

[Docket No. RM98-1-000]

Records Governing Off-the-Record Communications; Public Notice

This constitutes notice, in accordance with 18 CFR 385.2201(b), of the receipt of prohibited and exempt off-the-record communications.

Order No. 607 (64 FR 51222, September 22, 1999) requires Commission decisional employees, who make or receive a prohibited or exempt off-the-record communication relevant to the merits of a contested proceeding, to deliver to the Secretary of the Commission, a copy of the communication, if written, or a summary of the substance of any oral communication.

Prohibited communications are included in a public, non-decisional file associated with, but not a part of, the decisional record of the proceeding. Unless the Commission determines that the prohibited communication and any responses thereto should become a part of the decisional record, the prohibited off-the-record communication will not be considered by the Commission in reaching its decision. Parties to a proceeding may seek the opportunity to respond to any facts or contentions made in a prohibited off-the-record communication, and may request that the Commission place the prohibited communication and responses thereto in the decisional record. The Commission will grant such a request only when it determines that fairness so requires. Any person identified below as having made a prohibited off-the-record communication shall serve the document on all parties listed on the official service list for the applicable proceeding in accordance with Rule 2010, 18 CFR 385.2010.

Exempt off-the-record communications are included in the decisional record of the proceeding, unless the communication was with a cooperating agency as described by 40 CFR 1501.6, made under 18 CFR 385.2201(e)(1)(v).

The following is a list of off-the-record communications recently received by the Secretary of the Commission. The communications listed are grouped by docket numbers in ascending order. These filings are available for electronic review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the eLibrary link. Enter the docket number, excluding the last three digits, in the docket number field to access the document. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659.

BILLING CODE 6717-01-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-RCRA-2015-0147; FRL-9966-76-OLEM]

AES Filing Compliance Date for Hazardous Waste Exports

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of announcement of compliance date.

SUMMARY: This action announces that the Automated Export System (AES) filing compliance date for export shipments of hazardous waste and certain other materials is December 31, 2017. Under the "Hazardous Waste Export-Import Revisions" final rule published on November 28, 2016, that became effective on December 31, 2016, Environmental Protection Agency (EPA) provided flexibility to the regulated community by establishing a transition period prior to the required filing of EPA information into the AES for these export shipments. EPA had stated in the final rule that during the transition period, either paper processes or electronic processes at the port could be used until a future AES filing compliance date, which would be announced in a separate **Federal Register** action. EPA is making this announcement of the AES filing compliance date of December 31, 2017 in this action. On or after this AES filing compliance date, all exporters of manifested hazardous waste, universal waste, and spent lead-acid batteries for recycling or disposal, and all exporters of cathode ray tubes for recycling will be required to file EPA information in the AES or AESDirect for each export shipment. Paper processes will no longer be allowed on or after the compliance date.

DATES: The AES filing compliance date is December 31, 2017.

ADDRESSES: The EPA established a docket for the "Hazardous Waste Export-Import Revisions" under Docket ID No. EPA-HQ-RCRA-2015-0147, which includes this announcement. All documents in the docket are listed on the <https://www.regulations.gov> Web site. Although listed in the index, some information is not publicly available, e.g., CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available electronically through <https://www.regulations.gov>.

FOR FURTHER INFORMATION CONTACT:

Laura Coughlan, Materials Recovery and Waste Management Division, Office of Resource Conservation and Recovery (5304P), Environmental Protection Agency, 1200 Pennsylvania Avenue NW., Washington, DC 20460; telephone number: (703) 308-0005; fax number: 703-308-0514; email address: coughlan.laura@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Background

On November 28, 2016, EPA finalized revisions to the Resource Conservation and Recovery Act (RCRA) regulations governing imports and exports of hazardous waste and certain other materials in 40 CFR part 262 (81 FR 85696). These revisions included a stepwise conversion from a paper process for export shipments at the port to an electronic process to fulfill the direction set forth in Executive Order 13659 concerning the electronic management of international trade data by the U.S. Government as part of the International Trade Data System (ITDS).

Under Executive Order 13659, agencies were required to have capabilities, agreements, and other requirements in place by December 31, 2016, to utilize the ITDS and supporting systems, such as the Automated Export

System (AES) or its successor system, as the primary means of receiving from users the standard set of data and other relevant documentation (exclusive of applications for permits, licenses, or certifications) required for the release of imported cargo and clearance of cargo for export. The AES resides in the U.S. Customs and Border Protection's (CBP's) Automated Commercial Environment (ACE). With respect to RCRA waste exports subject to consent requirements, EPA's regulatory revisions and CBP's changes to AES were established to utilize electronic processes in AES, or its successor system, in place of existing paper processes at the port or border crossing required to clear export shipments for departure. Currently, exports of hazardous waste, including those eligible for the alternate management standards of 40 CFR part 273 (i.e., universal waste) or 40 CFR part 266 (e.g., spent lead acid batteries being shipped for recycling), and exports of cathode ray tubes for recycling are subject to RCRA consent requirements. EPA's final rule had allowed exporters to choose whether to follow the existing paper process or the new electronic procedure at the border during an initial transition period until the "AES filing compliance date" defined in 40 CFR 260.10, and to be announced in a future **Federal Register** action.

With this announcement, starting on the AES filing compliance date of December 31, 2017, exporters or their authorized agents will no longer be able to use a paper process, and will have to file certain EPA data in the AES, or its successor system. The data they must file is set forth in 40 CFR 261.39(a)(5)(v)(B) for cathode ray tube exports and in 40 CFR 262.83(a)(6)(ii) for hazardous waste exports. A detailed description of the electronic process is available in Section III.B of the "Hazardous Waste Export-Import Revisions" (81 FR 85696, November 28, 2016) final rule.

II. EPA Outreach

EPA has held three webinars for exporters on how to file the EPA
