Clean Air Act Operating Permit Program; Petition for Objection To Proposed Permit for Chevron USA Inc.—7Z Steam Plant, San Joaquin Valley Unified Air Pollution Control District

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of final action.

SUMMARY: This document announces that the Environmental Protection Agency (EPA) Administrator has responded to a citizen petition asking the EPA to object to the proposed issuance of an Authority to Construct/Certificate of Conformity (Permit) issued by the San Joaquin Valley Unified Air Pollution Control District (SJVUAPCD). Specifically, the Administrator has denied the July 7, 2016 petition (Petition), submitted by the Climate Change Law Foundation, Association of Irrigated Residents, Center for Biological Diversity, and Sierra Club to object to SJVUAPCD's proposed issuance of the Permit for the Chevron USA Inc.—7Z Steam Plant in Kern County, California.

ADDRESSES: Copies of the final Order, the Petition, and other supporting information is available electronically at the following Web site: <https://www.epa.gov/title-v-operating-permits/title-v-petition-database>.

The EPA requests that you contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section to view copies of the final Order, Petition, and other supporting information. You may view the hard copies Monday through

Friday, from 9 a.m. to 3 p.m., excluding Federal holidays. If you wish to examine these documents, you should make an appointment at least 24 hours before the visiting day. Additionally, the final Order is available electronically at: https://www.epa.gov/sites/production/files/2017-04/documents/chevron_response2016_0.pdf.

FOR FURTHER INFORMATION CONTACT: Laura Yannayon, EPA Region IX, (415) 972-3534, yannayon.laura@epa.gov.

SUPPLEMENTARY INFORMATION: SJVUAPCD Rule 2201 affords the EPA a 45-day period to review and object to, as appropriate, a proposed permit. Rule 2201 § 5.9.1. If the EPA does not object, Rule 2201 allows any person to petition the EPA, within 60 days, to object to the proposed permit. Petitions must be based only on objections to the permit that were raised with reasonable specificity during the public comment period, unless the petitioner demonstrates that it was impracticable to raise these issues during the comment period, or the grounds for the issue arose after this period.

The EPA received the Petition dated July 7, 2016, requesting that the EPA object to the proposed issuance of the Permit to Chevron USA Inc., for modifications to its 7Z Steam Plant, located in Kern County, California. In summary, the Petition claimed that certain emission reduction credits used in the permitting process were invalid.

On April 24, 2017, the Administrator issued an order denying the Petition. The EPA's rationale for denying the claims raised in the petition are described in the Order.

Dated: August 11, 2017.

Alexis Strauss,

Acting Regional Administrator, Region IX.

Abstract: Under the provisions of the Clean Air Act (CAA), the Administrator is required to promulgate regulations to control air pollutant emissions from motor vehicles and nonroad engines, as defined in the CAA. Per Sections 207(c)(1) and 213 of the CAA, when a substantial number of properly maintained and used engines produced by a manufacturer do not conform to emission standards, the manufacturer is required to recall the engines. Engine manufacturers are required to submit Defect Information Reports (DIRs) if emission-related defects are found on engines of the same model year that may cause the engines' emissions to exceed the standards. EPA uses these reports to target potentially nonconforming classes of engines for future testing, to monitor compliance with applicable regulations and to order a recall, if necessary. Manufacturers can also initiate a recall voluntarily by submitting a Voluntary Emission Recall Report (VERR). VERRs and VERR updates allow EPA to determine whether the manufacturer conducting the recall is acting in accordance with the CAA and to examine and monitor the effectiveness of the recall campaign.

Forms: The forms associated with this ICR are form 5900–300 (Voluntary Emissions Recall Report); form 5900–301 (Emissions Defect Information Report); and form 5900–302 (Voluntary Emission Recall Quarterly Progress Report).

Respondents/affected entities: Manufacturers of heavy-duty highway and nonroad engines.

Respondent's obligation to respond: Mandatory under the Clean Air Act and 40 CFR parts 85, 89, 90, 91, 92, 94, 1035, 1039, 1042, 1045, 1048, 1051, 1054, 1068.

Estimated number of respondents: 29 (total).

Frequency of response: On occasion, bi-annual or quarterly.

Total estimated burden: 9,827 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$936,157 (per year), includes \$5,475 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is decrease of 5,258 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease is due to: (1) A correction on previous estimates, and

(2) a significant decrease in the estimated number of respondents.

Courtney Kerwin,

Director, Regulatory Support Division.

Product Cancellation Order To Voluntarily Cancel Certain Pesticide Registrations and Amend Registrations To Terminate Certain Uses

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's order for the cancellations and amendments to terminate uses, voluntarily requested by the registrants and accepted by the Agency, of the products listed in Table 1 and Table 2 of Unit II, pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). This cancellation order follows an April 10, 2017 **Federal Register** Notice of Receipt of Requests from the registrants listed in Table 3 of Unit II to voluntarily cancel and amend to terminate uses of these product registrations. In the April 10, 2017 notice, EPA indicated that it would issue an order implementing the cancellations and amendments to terminate uses, unless the Agency received substantive comments within the 30-day comment period that would merit its further review of these requests, or unless the registrants withdrew their requests. The Agency received two comments on the notice from registrants to withdraw the cancellation request for registrations 1839–189 & 10324–89, therefore these registrations are not listed in this order and will not be cancelled. Accordingly, EPA hereby issues in this notice a cancellation order granting the requested cancellations and amendments to terminate uses. Any distribution, sale, or use of the products subject to this cancellation order is permitted only in accordance with the terms of this order, including any existing stocks provisions.

DATES: The cancellations and amendments are effective August 29, 2017.
