BILLING CODE 4910-13-P

INTERNATIONAL TRADE COMMISSION

19 CFR Part 201

Rules of General Application

AGENCY: International Trade Commission.

ACTION: Final rule.

SUMMARY: The United States International Trade Commission (“Commission”) amends provisions of its Rules of Practice and Procedure concerning the Privacy Act. The amendment is designed to delete certain exemptions that pertain only to systems of records that the Commission has removed and to add exemptions that pertain to a new system of records.

DATES: This final rule is effective January 25, 2018.

FOR FURTHER INFORMATION CONTACT: Lisa R. Barton, Secretary, telephone (202) 205-2000, or Clara Kuehn, Office of the General Counsel, telephone (202) 205-3012, United States International Trade Commission. Hearing-impaired individuals are advised that information on this matter can be obtained by contacting the Commission’s TDD terminal at (202) 205-1810. General information concerning the Commission may also be obtained by accessing its internet server at <https://www.usitc.gov>.

SUPPLEMENTARY INFORMATION: Section 335 of the Tariff Act of 1930 (19 U.S.C. 1335) authorizes the Commission to adopt such reasonable procedures, rules, and regulations as it deems necessary to carry out its functions and duties. This rulemaking amends provisions of the Commission’s existing Rules of Practice and Procedure that concern the Privacy Act.

On September 27, 2017, the Commission published a Notice of Proposed Rulemaking (NPRM) in the **Federal Register**, 82 FR 44982, September 27, 2017. In the NPRM, the Commission proposed to revise 19 CFR 201.32, which governs exemptions to certain Privacy Act requirements. Pursuant to 5 U.S.C. 552a(k), the Commission proposed to delete two exemptions that pertain only to Privacy Act systems of records that were being removed, add exemptions for a new Privacy Act system of records, and correct a typographical error.

In the NPRM, the Commission requested public comment on the proposed revisions to its rules, but no comments were received. The Commission found no reason to change the proposed rules before adopting them as final rules, which are republished below. A more detailed analysis of the

rules can be found at 82 FR 44982 (September 27, 2017).

Regulatory Analysis of Amendments to the Commission's Rules

The Commission certifies that these amendments to the Commission's rules will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) because it does not create an economic impact and does not affect small entities. The amendments are concerned only with the administration of Privacy Act systems of records within the Commission.

The amendments to the Commission's rules do not contain any information collection requirements subject to the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*).

No actions are necessary under title II of the Unfunded Mandates Reform Act of 1995, Public Law 104-4 (2 U.S.C. 1531-1538) because the amendments to the Commission's rules will not result in the expenditure by State, local, and tribal governments, in the aggregate, or by the private sector, of \$100,000,000 or more in any one year (adjusted annually for inflation), and will not significantly or uniquely affect small governments.

The Commission has determined that these rules do not meet the criteria described in section 3(f) of Executive Order 12866 (58 FR 51735, October 4, 1993) and thus do not constitute a "significant regulatory action" for purposes of the Executive Order.

The amendments to the Commission's rules do not have Federalism implications warranting the preparation of a federalism summary impact statement under Executive Order 13132 (64 FR 43255, August 10, 1999).

The amendments to the Commission's rules are not "major rules" as defined by section 251 of the Small Business Regulatory Enforcement Fairness Act of 1996 (5 U.S.C. 801 *et seq.*).

List of Subjects in 19 CFR Part 201

Administrative practice and procedure.

For the reasons stated in the preamble, under the authority of 19 U.S.C. 1335, the United States International Trade Commission amends 19 CFR part 201 as follows:

PART 201—RULES OF GENERAL APPLICATION

■ 1. The authority citation for part 201 continues to read as follows:

Authority: 19 U.S.C. 1335; 19 U.S.C. 2482, unless otherwise noted.

■ 2. In § 201.32, remove paragraphs (a) and (b); redesignate paragraph (c) as paragraph (a); revise the first sentence of newly redesignated paragraph (a); and add paragraph (b) to read as follows:

§ 201.32 Specific exemptions.

(a) Pursuant to 5 U.S.C. 552a(k)(1), (5) and (6), records contained in the system entitled "Personnel Security Investigative Files" have been exempted from subsections (c)(3), (d), (e)(1), (e)(4)(G) through (I) and (f) of the Privacy Act. * * *

(b) Pursuant to 5 U.S.C. 552a(k)(1) and (k)(2), records contained in the system entitled "Freedom of Information Act and Privacy Act Records" have been exempted from subsections (c)(3), (d), (e)(1), (e)(4)(G) through (I) and (f) of the Privacy Act. Pursuant to section 552a(k)(1) of the Privacy Act, the Commission exempts records that contain properly classified information pertaining to national defense or foreign policy. Application of exemption (k)(1) may be necessary to preclude individuals' access to or amendment of such classified information under the Privacy Act. Pursuant to section 552a(k)(2) of the Privacy Act, and in order to protect the effectiveness of Inspector General investigations by preventing individuals who may be the subject of an investigation from obtaining access to the records and thus obtaining the opportunity to conceal or destroy evidence or to intimidate witnesses, the Commission exempts records insofar as they include investigatory material compiled for law enforcement purposes. However, if any individual is denied any right, privilege, or benefit to which he is otherwise entitled under Federal law due to the maintenance of this material, such material shall be provided to such individual except to the extent that the disclosure of such material would reveal the identity of a source who furnished information to the Government under an express promise that the identity of the source would be held in confidence.

By order of the Commission.

Issued: December 19, 2017.

Lisa R. Barton,

Secretary to the Commission.

BILLING CODE 7020-02-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR Part 868

[Docket No. FDA-2017-N-6568]

Medical Devices; Anesthesiology Devices; Classification of the External Negative Pressure Airway Aid

AGENCY: Food and Drug Administration, HHS.

ACTION: Final order.

SUMMARY: The Food and Drug Administration (FDA or we) is classifying the external negative pressure airway aid into class II (special controls). The special controls that apply to the device type are identified in this order and will be part of the codified language for the external negative pressure airway aid's classification. We are taking this action because we have determined that classifying the device into class II (special controls) will provide a reasonable assurance of safety and effectiveness of the device. We believe this action will also enhance patients' access to beneficial innovative devices, in part by reducing regulatory burdens.

DATES: This order is effective December 26, 2017. The classification was applicable on December 23, 2015.

FOR FURTHER INFORMATION CONTACT:

Todd Courtney, Center for Devices and Radiological Health, Food and Drug Administration, 10903 New Hampshire Ave., Bldg. 66, Rm. 2530, Silver Spring, MD 20993-0002, 301-796-6371, Todd.Courtney@fda.hhs.gov.

SUPPLEMENTARY INFORMATION:

I. Background

Upon request, FDA has classified the external negative pressure airway aid as class II (special controls), which we have determined will provide a reasonable assurance of safety and effectiveness. In addition, we believe this action will enhance patients' access to beneficial innovation, in part by reducing regulatory burdens by placing the device into a lower device class than the automatic class III assignment.

The automatic assignment of class III occurs by operation of law and without any action by FDA, regardless of the level of risk posed by the new device. Any device that was not in commercial distribution before May 28, 1976, is automatically classified as, and remains within, class III and requires premarket approval unless and until FDA takes an action to classify or reclassify the device
