

One commenter asked Treasury to consider eliminating from the data call the lines of coverage that are less likely to be triggered in the event of an act of terrorism, noting that Treasury is not obligated to collect data on all TRIP-eligible lines.²² Treasury is not making this change. Treasury notes that the types of insurance subject to the Program are set forth in the statute,²³ and in order to obtain a comprehensive understanding of the Program's effectiveness, it is necessary to collect data on all TRIP-eligible lines to achieve a complete view of Program participation. In addition, the information concerning these lines would also be relevant for assessing any risk-spreading policyholder surcharges levied by Treasury,²⁴ and in connection with the calculation of the insurance marketplace aggregate retention for calendar year 2020.²⁵

E. Training Webinar

One commenter requested that Treasury hold training for the 2018 data call within two (2) weeks following the issuance of the templates, and recommended holding four (4) separate training sessions corresponding to the four (4) reporting templates that will be used by insurers (Alien Surplus Lines Insurers, Captive Insurers, Insurer (Non-Small) Groups or Companies, and Small Insurers).²⁶ In response to this comment, Treasury will hold four webinars on April 10 and April 11, 2018 to assist reporting insurers in responding to the proposed collection, with each webinar focusing on a specific reporting template. Specific times and details concerning participation in the webinar will be made available on the TRIP data collection website, and recordings of each webinar will be made available on the website following each training session.

III. 2018 Data Call

For the 2018 TRIP Data Call, which covers the reporting period of January 1, 2017 to December 31, 2017, Treasury will continue to use four different data collection templates.²⁷ Insurers will fill out the template for "Insurer (Non-Small) Groups or Companies," unless the insurer meets the definition of a small insurer, captive insurer, or alien surplus insurer, as set forth in 31 CFR 50.4. Such small insurers, captive

insurers, and alien surplus lines insurers are required to complete an alternate template.

Similar to last year, Treasury, through an insurance statistical aggregator, will accept group or insurer registration forms through <https://tripsection111data.com/>. Upon registration, the aggregator will transmit individualized data collection forms (in Excel format) to the reporting group or insurer via a secure file transfer portal. The reporting group or insurer may transmit a complete data submission using either the provided Excel forms, or (for the first time this year) in a .csv file.²⁸

Copies of the instructions and data collection forms are available on Treasury's website in read-only format. Reporting insurers will obtain the fillable reporting forms directly from the data aggregator after registering for the data collection process.

Reporting insurers are required to register and submit complete data to Treasury no later than May 15, 2018. Because of the timing and content of Treasury's 2018 report to Congress, no extensions will be granted. Reporting insurers can ask the data aggregator questions about registration, form completion, and submission through tripsection111data@iso.com. Treasury, as identified above, may also be contacted directly with questions. Questions regarding submission of data to state insurance regulators or the property supplement should be directed to the appropriate state insurance regulator or the NAIC.

All data submitted to the aggregator is subject to the confidentiality and data protection provisions of TRIA and the Program Rules, as well as to section 552 of title 5, United States Code, including any exceptions thereunder. In accordance with the Paperwork Reduction Act, (44 U.S.C 3501 *et seq.*), the information collected through the web portal has been approved by OMB under Control Number 1505-0257. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a valid OMB control number.
