## DEPARTMENT OF ENERGY

### Appliance Standards and Rulemaking Federal Advisory Committee

**AGENCY:** Office of Energy Efficiency and  
Renewable Energy, Department of  
Energy.

**ACTION:** Notice of charter renewal.

**SUMMARY:** Pursuant to the Federal  
Advisory Committee Act, and following  
consultation with the Committee  
Management Secretariat, General  
Services Administration, notice is  
hereby given that the Appliance  
Standards and Rulemaking Federal  
Advisory Committee's (ASRAC) charter  
is being renewed.

The Committee will provide advice  
and recommendations to the Secretary  
of Energy on matters concerning the  
DOE's Appliances and Commercial  
Equipment Standards Program's test  
procedures and rulemaking process.

Additionally, the renewal of the  
ARSAC has been determined to be  
essential to conduct business of the  
Department of Energy's and to be the in  
the public interest in connection with  
the performance of duties imposed upon  
the Department of Energy, by law and  
agreement. The Committee will  
continue to operate in accordance with  
the provisions of the Federal Advisory  
Committee Act, the rules and  
regulations in implementation of that  
Act.

**FOR FURTHER INFORMATION CONTACT:** John  
Cymbalsky, Designated Federal Officer  
at (202) 287-1692.

Issued in Washington, DC, on April 13,  
2018.

Wayne D. Smith,

Committee Management Officer.

## DEPARTMENT OF ENERGY

[FE Docket No. 12-32-LNG]

### Jordan Cove Energy Project, L.P.: Application To Amend Long-Term, Conditional Authorization To Export Liquefied Natural Gas to Non-Free Trade Agreement Nations and To Amend Application for Long-Term Authorization To Export Liquefied Natural Gas to Non-Free Trade Agreement Nations

**AGENCY:** Office of Fossil Energy, DOE.

**ACTION:** Notice of amendment.

**SUMMARY:** The Office of Fossil Energy  
(FE) of the Department of Energy (DOE)  
gives notice of receipt of an application  
for amendment (Amendment), filed on  
February 6, 2018, by Jordan Cove Energy  
Project, L.P. (JCEP or Jordan Cove) of  
both its Conditional Authorization  
(DOE/FE Order No. 3413) and pending  
Application in this proceeding.

Protests, motions to intervene, notices  
of intervention, and written comments  
addressing the Amendment are invited  
as described below.

**DATES:** Protests, motions to intervene or  
notices of intervention, as applicable,  
requests for additional procedures, and  
written comments are to be filed using  
procedures detailed in the Public  
Comment Procedures section no later  
than 4:30 p.m., Eastern time, May 9,  
2018.

**SUPPLEMENTARY INFORMATION:** JCEP's  
Application, filed on March 23, 2012,  
seeks authority to export domestically  
produced liquefied natural gas (LNG) in  
a volume equivalent to 292 billion cubic  
feet per year (Bcf/yr) of natural gas (0.8  
Bcf per day (Bcf/d)) from the proposed  
Jordan Cove LNG Terminal to be located  
on Coos Bay, Oregon, to nations with  
which the United States does not have  
a free trade agreement (FTA) requiring  
national treatment for trade in natural  
gas (non-FTA nations) (77 FR 33446).  
On March 24, 2014, DOE issued DOE/  
FE Order No. 3413, conditionally  
granting Jordan Cove's Application in  
the requested volume of 292 Bcf/yr for  
a term of 20 years (Conditional Non-  
FTA Authorization). On October 5,  
2015, JCEP filed an amendment to its  
Application (81 FR 11202), asking DOE/  
FE to increase its requested non-FTA  
LNG export volume from the equivalent  
of 292 Bcf/yr to 350 Bcf/yr of natural gas  
(0.96 Bcf/d). At that time, JCEP did not  
seek to amend its Conditional Non-FTA  
Authorization. DOE/FE has not yet  
issued a final order on JCEP's Non-FTA  
Application, and its requested 2015  
amendment remains pending as part of  
the Application proceeding.

In this Amendment, JCEP again seeks  
to increase its volume of LNG exports—to  
the equivalent of 395 Bcf/yr (1.08 Bcf/  
d) of natural gas—as approved in its  
Conditional Non-FTA Authorization  
(DOE/FE Order No. 3413) and as  
requested in its Non-FTA Application.  
JCEP states that the purpose of this  
Amendment is to conform its requested  
export volume to the proposed  
production capacity of the LNG  
Terminal in JCEP's current application  
at the Federal Energy Regulatory  
Commission (FERC). On September 21,  
2017, JCEP filed an application at FERC  
(FERC Docket No. CP17-495-000)  
requesting authorization to site,  
construct, and operate the LNG  
Terminal with a proposed maximum  
capacity of 7.8 million metric tons per  
annum of LNG, equivalent to 395 Bcf/  
yr of natural gas. JCEP states that this  
FERC application reflects changes to the  
production capacity of its proposed  
facilities at the LNG Terminal, as well  
as additional engineering analysis.  
Although JCEP's application at FERC  
remains pending, JCEP states that it  
wishes to align its requested export  
volume with its requested facilities at  
FERC.

Additionally, JCEP asks that, if and  
when DOE/FE issues an order granting  
the requested Amendment to the  
Conditional Non-FTA Authorization,

DOE/FE also amend or “re-set” the dates by which JCEP must commence exports of LNG to non-FTA countries.

Additional details can be found below and in JCEP’s Amendment, posted on the DOE/FE website at: [https://fossil.energy.gov/ng\\_regulation/sites/default/files/programs/gasregulation/authorizations/JCEP\\_Amendment02\\_6\\_18.pdf](https://fossil.energy.gov/ng_regulation/sites/default/files/programs/gasregulation/authorizations/JCEP_Amendment02_6_18.pdf).

Because the Amendment represents a substantive and material change in the Application, DOE has determined to publish this notice in the **Federal Register**, thereby providing the public with an opportunity to intervene, comment, and/or protest the Amendment. JCEP states that it has served the Amendment on each of the parties that have previously intervened in this proceeding.

**Scope of Notice.** The Amendment subject to this Notice pertains only to JCEP’s Conditional Non-FTA Authorization and Application under section 3(a) of the Natural Gas Act (NGA), 15 U.S.C. 717b(a). In the Amendment, JCEP also seeks to amend its existing FTA authorization issued in DOE/FE Order No. 3041 in FE Docket No. 11–127–LNG (Dec. 7, 2011).<sup>1</sup> However, that requested FTA amendment is outside the scope of this Notice, and DOE/FE will review it separately pursuant to NGA section 3(c), 15 U.S.C. 717b(c). Additionally, in the Amendment, JCEP notifies DOE/FE of a change in corporate ownership.<sup>2</sup> DOE likewise will review this change in corporate ownership separately, consistent with DOE/FE’s normal procedures.<sup>3</sup>

**Request for an Amended Commencement of Export Period.** Under the Conditional Non-FTA Authorization (DOE/FE Order No. 3413), JCEP currently must commence exports within seven years of the date of the order, or by March 24, 2021. JCEP states that, as detailed in the FERC application, exports from the proposed LNG Terminal are not expected to commence until the first half of 2024, which would be beyond the March 24, 2021 date. Therefore, JCEP requests that, in conjunction with the requested

Amendment, DOE/FE grant JCEP a new seven-year commencement of export period from the date of any amendment to the Conditional Non-FTA Authorization.<sup>4</sup>

**Public Interest Analysis.** JCEP asserts that its proposed amendment to the Conditional Non-FTA Authorization (DOE/FE Order No. 3413) and the Application are not inconsistent with the public interest under NGA section 3(a) and should be approved.<sup>5</sup>

**Action on Pending Amendments.** DOE/FE will review and take appropriate action on any requested amendments to the Application—including the pending 2015 amendment and the Amendment at issue in this Notice—as part of its final review of JCEP’s Application.

### DOE/FE Evaluation

The Application will be reviewed pursuant to section 3 of the NGA, 15 U.S.C. 717b. In reviewing this Application, DOE will consider domestic need for the natural gas, as well as any other issues determined to be appropriate, including whether the arrangement is consistent with DOE’s policy of promoting competition in the marketplace by allowing commercial parties to freely negotiate their own trade arrangements. Parties that may oppose this application should comment in their responses on these issues.

The National Environmental Policy Act (NEPA), 42 U.S.C. 4321 *et seq.*, requires DOE to give appropriate consideration to the environmental effects of its proposed decisions. No final decision will be issued in this proceeding until DOE has met its NEPA responsibilities.

### Public Comment Procedures

In response to this Notice, any person may file a protest, comments, or a motion to intervene or notice of intervention, as applicable. Interested parties will be provided 20 days from the date of publication of this Notice in which to submit comments, protests, motions to intervene, or notices of intervention.

Comments and protests should address JCEP’s Amendment filed on February 6, 2018. The public previously was given an opportunity to intervene in, protest, and comment on JCEP’s Application, as well as on JCEP’s requested amendment to the Application filed in 2015 (discussed *supra*). Therefore, DOE/FE may disregard comments or protests on the

Application that do not bear directly on the current Amendment—namely, JCEP’s requested increase in its LNG export volume to 395 Bcf/yr of natural gas (1.08 Bcf/d), for purposes of both its Conditional Non-FTA Authorization and its pending non-FTA Application.

Any person wishing to become a party to the proceeding must file a motion to intervene or notice of intervention. The filing of comments or a protest with respect to the Application will not serve to make the commenter or protestant a party to the proceeding, although protests and comments received from persons who are not parties will be considered in determining the appropriate action to be taken on the Application. All protests, comments, motions to intervene, or notices of intervention must meet the requirements specified by the regulations in 10 CFR part 590.

Filings may be submitted using one of the following methods: (1) Emailing the filing to [fergas@hq.doe.gov](mailto:fergas@hq.doe.gov), with FE Docket No. 12–32–LNG in the title line; (2) mailing an original and three paper copies of the filing to the Office of Regulation and International Engagement at the address listed in **ADDRESSES**; or (3) hand delivering an original and three paper copies of the filing to the Office of Regulation and International Engagement at the address listed in **ADDRESSES**. All filings must include a reference to FE Docket No. 12–32–LNG. *Please Note:* If submitting a filing via email, please include all related documents and attachments (e.g., exhibits) in the original email correspondence. Please do not include any active hyperlinks or password protection in any of the documents or attachments related to the filing. All electronic filings submitted to DOE must follow these guidelines to ensure that all documents are filed in a timely manner. Any hardcopy filing submitted greater in length than 50 pages must also include, at the time of the filing, a digital copy on disk of the entire submission.

A decisional record on the Application will be developed through responses to this notice by parties, including the parties’ written comments and replies thereto. Additional procedures will be used as necessary to achieve a complete understanding of the facts and issues. If an additional procedure is scheduled, notice will be provided to all parties. If no party requests additional procedures, a final Opinion and Order may be issued based on the official record, including the Application and responses filed by parties pursuant to this notice, in accordance with 10 CFR 590.316.
