A person or party who wishes to protest one or more plats of survey identified above must file a written notice of protest with the State Director for Alaska, BLM. The notice of protest must identify the plat(s) of survey that the person or party wishes to protest. The notice of protest must be filed before the scheduled date of official filing for the plat(s) of survey being protested. Any notice of protest filed after the scheduled date of official filing will not be considered. A notice of protest is considered filed on the date it is received by the State Director for Alaska during regular business hours; if received after regular business hours, a notice of protest will be considered filed the next business day. A written statement of reasons in support of a protest, if not filed with the notice of protest, must be filed with the State Director for Alaska within 30 calendar days after the notice of protest is filed. If a notice of protest against a plat of survey is received prior to the scheduled date of official filing, the official filing of the plat of survey identified in the notice of protest will be stayed pending consideration of the protest. A plat of survey will not be officially filed until the dismissal or resolution of all protests of the plat. Before including your address, phone number, email address, or other personal identifying information in a notice of protest or statement of reasons,

you should be aware that the documents you submit, including your personal identifying information, may be made publicly available in their entirety at any time. While you can ask us to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Authority: 43 U.S.C. Chap. 3.

Notice of Availability of the Draft Transportation Plan and Environmental Impact Statement for Acadia National Park, Maine

AGENCY: National Park Service, Interior.

ACTION: Notice of availability.

SUMMARY: The National Park Service (NPS) announces the availability of the Draft Transportation Plan and Environmental Impact Statement (Draft Plan/EIS) for Acadia National Park. The purpose of the Transportation Plan is to determine how best to provide safe and efficient transportation and a variety of high quality experiences to visitors within Acadia National Park while ensuring the protection of park resources and values. The Draft Plan/EIS describes four alternatives for consideration, including a no-action alternative.

DATES: Comments will be accepted for a period of 60 days following publication of the Environmental Protection Agency's (EPA) Notice of Availability of the Draft Plan/EIS in the **Federal Register**. After the EPA Notice of Availability is published, the NPS will schedule public meetings to be held during the comment period. The comment period and dates, times, and locations of these public meetings will be announced through social media and local media outlets, and on the NPS Planning, Environment, and Public Comment (PEPC) website at <http://parkplanning.nps.gov/ACADTransportationPlan>, and Acadia National Park's website at <https://www.nps.gov/acad/index.htm>.

ADDRESSES: The Draft Plan/EIS will be available electronically on the NPS PEPC website at <http://parkplanning.nps.gov/>

ACADTransportationPlan. Comments may be submitted electronically through the PEPC website at <http://parkplanning.nps.gov/ACADTransportationPlan>. Comments will also be accepted in hardcopy by mail to: Acadia National Park, Attn: Transportation Plan, P.O. Box 177, Bar Harbor, ME 04609.

FOR FURTHER INFORMATION CONTACT: John Kelly, Management Assistant, Acadia National Park, P.O. Box 177, Bar Harbor, ME 04609, (207) 288–8703, John_T_Kelly@nps.gov.

SUPPLEMENTARY INFORMATION: The National Park Service (NPS) is preparing a transportation plan for Acadia National Park to determine ways to provide safe and efficient transportation for visitors while ensuring the protection of park resources and values. Transportation issues at Acadia National Park are diverse and complex. Visitors travel to and within the park by private vehicle, tour bus, bicycle, ferry, Island Explorer bus, and other modes. In 2016, park visitation reached a record 3.3 million visitors, which is an increase of 58 percent from 2006.

High volumes of visitors accessing popular visitor destinations during peak times is causing gridlock, visitor conflicts, crowding, emergency response delays, and resource trampling. Concentrated volumes and mixture of traffic, particularly on the Park Loop Road and Cadillac Mountain Road, create critical visitor safety issues, severe crowding and congestion, impacts on the road systems, and challenges to the park's operational efficiency and sustainability. Further, the interdependent relationship between Acadia National Park and diverse gateway communities increases the complexity of managing visitor use and access, especially given the importance of the park to the local economy. The transportation plan will determine ways to improve safety, reduce congestion and crowding, avoid impacts to park resources, and provide visitors with a high-quality experience through a variety of mechanisms such as visitor management strategies, enhancements to alternative transportation services, restrictions on vehicle size, and expanded access to parking.

The Draft Plan/EIS evaluates four alternatives:

Alternative A: No Action—reflects current transportation management direction and serves as a baseline for comparison with the other alternatives. Current management (as outlined in the park's 1992 General Management Plan) would continue with no major changes
