Administration, 10903 New Hampshire Ave., Bldg. 32, Rm. 5154, Silver Spring, MD 20993, 240-402-3838, email: marieann.brill@fda.hhs.gov, or FDA Advisory Committee Information Line, 1-800-741-8138 (301-443-0572 in the Washington, DC area). A notice in the Federal Register about last minute modifications that impact a previously announced advisory committee meeting cannot always be published quickly enough to provide timely notice. Therefore, you should always check the Agency's website at https:// www.fda.gov/AdvisoryCommittees/ default.htm and scroll down to the appropriate advisory committee meeting link, or call the advisory committee information line to learn about possible modifications before coming to the meeting.

#### SUPPLEMENTARY INFORMATION:

Agenda: The PAC and EMDAC will meet to discuss the major objectives of a phase 3 drug development program indicated for the treatment of children with achondroplasia (ACH). The following elements of a phase 3 program should be considered for discussion: Evidence required to establish doseresponse, study design, e.g., placebo control, study duration, intended population, e.g., infants and toddlers and/or older children and adolescents, and endpoints that have a clinically meaningful impact on the patient's functional or psychological well-being. Comments about the upcoming advisory committee meeting should be submitted to Docket No. FDA-2018-N-0045.

FDA intends to make background material available to the public no later than 2 business days before the meeting. If FDA is unable to post the background material on its website prior to the meeting, the background material will be made publicly available at the location of the advisory committee meeting, and the background material will be posted on FDA's website after the meeting. Background material is available at https://www.fda.gov/ AdvisoryCommittees/Calendar/ default.htm. Scroll down to the appropriate advisory committee meeting link.

Procedure: On March 22, 2018, from 10:30 a.m. to 5:30 p.m., the meeting is open to the public. Interested persons may present data, information, or views, orally or in writing, on issues pending before the committee. Written submissions may be made to the contact person on or before March 15, 2018. Oral presentations from the public will be scheduled between approximately 1 p.m. and 2 p.m. Those individuals interested in making formal oral

presentations should notify the contact person and submit a brief statement of the general nature of the evidence or arguments they wish to present, the names and addresses of proposed participants, and an indication of the approximate time requested to make their presentation on or before March 7, 2018. Time allotted for each presentation may be limited. If the number of registrants requesting to speak is greater than can be reasonably accommodated during the scheduled open public hearing session, FDA may conduct a lottery to determine the speakers for the scheduled open public hearing session. The contact person will notify interested persons regarding their request to speak by March 8, 2017.

Closed Committee Deliberations: On March 22, 2018, from 8:30 a.m. to 10 a.m., the meeting will be closed to permit committee review and discussion of trade secret and/or confidential commercial information (5 U.S.C. 552b(c)(4)) included in an Investigational New Drug application for an investigational product indicated for the treatment of children with ACH.

Persons attending FDA's advisory committee meetings are advised that FDA is not responsible for providing access to electrical outlets.

FDA welcomes the attendance of the public at its advisory committee meetings and will make every effort to accommodate persons with disabilities. If you require accommodations due to a disability, please contact Marieann Brill (See, FOR FURTHER INFORMATION CONTACT) at least 7 days in advance of the meeting.

FDA is committed to the orderly conduct of its advisory committee meetings. Please visit our website at https://www.fda.gov/Advisory Committees/AboutAdvisoryCommittees/ucm111462.htm for procedures on public conduct during advisory committee meetings.

Notice of this meeting is given under the Federal Advisory Committee Act (5 U.S.C. app. 2).

Dated: January 17, 2018.

Food and Drug Administration [Docket No. FDA-2011-N-0021]

Watson Laboratories, Inc.; Withdrawal of Approval of Abbreviated New Drug Applications for Prescription Pain Medications Containing More Than 325 Milligrams of Acetaminophen

**AGENCY:** Food and Drug Administration, HHS.

**ACTION:** Notice.

SUMMARY: The Food and Drug Administration (FDA and Agency) is withdrawing approval of an abbreviated new drug application (ANDA), held by Watson Laboratories, Inc. (Watson), for prescription pain medications that contain more than 325 milligrams (mg) of acetaminophen. Watson has voluntarily requested that approval of this application be withdrawn and has waived its opportunity for a hearing.

**DATES:** Approval is withdrawn as of January 23, 2018.

FOR FURTHER INFORMATION CONTACT: Jane Baluss, Center for Drug Evaluation and Research, Food and Drug Administration, 10903 New Hampshire Ave., Bldg. 51, Rm. 6278, Silver Spring, MD 20993–0002, 301–796–3469.

SUPPLEMENTARY INFORMATION: In the Federal Register of January 14, 2011 (76 FR 2691), FDA announced its plans to reduce the maximum dosage unit strength of acetaminophen in prescription drug products. The document announced FDA's conclusion that, based on a reevaluation of the relative risks and benefits of prescription acetaminophen products, fixed-combination prescription drugs containing more than 325 mg of acetaminophen per dosage unit (tablet or capsule) do not provide a sufficient margin of safety to protect the public against the serious risk of acetaminophen-induced liver injury. Accordingly, we asked product sponsors to limit the maximum amount of acetaminophen per dosage unit to 325 mg and, for those products containing more than 325 mg of acetaminophen per dosage unit, to submit requests that FDA withdraw approval of their applications under § 314.150(d) (21 CFR 314.150(d)). FDA asked that all such requests be made before January 14, 2014, after which date the Agency planned to initiate proceedings under section 505(e) of the Federal Food, Drug, and Cosmetic Act (FD&C Act) (21 U.S.C. 355(e)). In a Federal Register document dated March 27, 2014 (79 FR 17613),

FDA withdrew the approval of multiple applications containing more than 325 mg of acetaminophen whose sponsors voluntarily requested withdrawal and waived their opportunity for a hearing on or before that date.

In a letter dated November 22, 2016, Watson voluntarily requested that FDA withdraw approval of its ANDA 074699 for Pentazocine and Acetaminophen Tablets, 25 mg/650 mg, and waived its opportunity for a hearing. The letter also stated that the product was not manufactured or distributed after January 14, 2014.

Therefore, under § 314.150(d), approval of this ANDA, and all amendments and supplements thereto, is withdrawn (see **DATES**). Distribution of this product in interstate commerce without an approved application is illegal and subject to regulatory action (see sections 505(a) and 301(d) of the FD&C Act (21 U.S.C. 355(a) and 331(d)).

The safety issue discussed in this document and the January 14, 2011, Federal Register document is limited to products containing more than 325 mg of acetaminophen per dosage unit. Thus, the withdrawal of approval of this product does not change the approval status of any product with 325 mg or less of acetaminophen per dosage unit that is approved under the same application, or that refers to or relies on the withdrawn application.

Dated: January 17, 2018.
