

expects the first 2,400 applications filed on January 1 (which represent approximately 40,000 worker positions) will be processed for first actions by next week, with the remainder of all filed applications processed for first actions in the weeks that follow.

Employers receiving Notices of Acceptance can proceed to meet the additional regulatory requirements, including recruitment of U.S. workers and submission of recruitment reports. Employers receiving Notices of Deficiency that are corrected, and who then receive a Notice of Acceptance, can also proceed to meet the additional regulatory requirements. In order to promote fairness for employers in accessing the H-2B program and due to the unprecedented volume of applications on January 1, OFLC is making a change to its process regarding the issuance of final labor certification decisions. This process change will better reflect the sequential order in which employers filed applications. Thus, OFLC will not begin releasing certified H-2B applications (Form ETA-9142B *Application for Temporary Employment Certification*) until February 20, 2018. On that day, OFLC will release certified H-2B applications that have met all regulatory requirements as of that day *in sequential order based on the original calendar day and time the application was filed (i.e., receipt time)*. Thereafter, OFLC will continue to release certified H-2B applications in a sequential manner until all applications are released. OFLC will continue to issue rejections, withdrawals, and denials of labor certification applications in accordance with standard procedures. This process change will allow employers who filed promptly on January 1, 2018, sufficient time to meet regulatory requirements, including the recruitment and hiring of qualified and available U.S. workers, thus preserving the sequential order of filing that took place on January 1, 2018, to the extent possible.

As required, OFLC will grant temporary labor certification only after the employer's H-2B application has met all the requirements for approving labor certification under 20 CFR 655.50 and the subpart. In accordance with regulatory requirements, OFLC will send all certified H-2B applications to the employer, or the employer's authorized attorney or agent, by means normally assuring next day delivery.

Signed in Washington, DC, this 18th day of January 2018.

William W. Thompson, II,
Administrator, Office of Foreign Labor Certification.
