

comments from eight commenters in relation to the Draft EIS.

The NOA for the Final EIS was published in the **Federal Register** on December 8, 2017.

Decision

TVA has chosen a phased decision-making approach for CCR Management at SHF. TVA has decided to construct and operate an onsite CCR Landfill at SHF. This decision would achieve a portion of the purpose and need of the project and avoid offsite transfer of CCR along public roads, thus eliminating the long-term impacts associated with air emissions, increased traffic and associated safety risks, and disruptions to the public that would be associated with such offsite transport under Alternative C—CCR Disposal at a Permitted Offsite Landfill.

TVA is continuing to review and consider the alternatives regarding closure of Ash Impoundment 2 and the former SWL and will issue a decision and any additional documentation at a future date.

Mitigation Measures

TVA would use appropriate best management practices during all phases of construction and operation of the landfill. Mitigation measures, actions taken to reduce adverse impacts associated with proposed action, include:

- Due to the loss of potentially suitable foraging and roosting habitat for endangered bat species, TVA completed Section 7 consultation with the United States Fish and Wildlife Service (USFWS). Any tree removal would be scheduled so that all tree clearing would be conducted between October 15 and March 31, outside of the bats' breeding season.

- Prior to disturbing a 0.7-acre wetland on the Shawnee East Site, TVA would obtain a Clean Water Act Section 404 permit for impacts that could occur in conjunction with clearing, excavating, or grading during landfill construction. Where impacts to wetlands cannot be avoided, TVA would mitigate impacts in accordance with the Section 404 permit, as determined in consultation with the USACE.

- To minimize visual and noise impacts, TVA would plant and maintain a vegetative buffer around the proposed CCR Landfill as a natural screen.

- TVA would avoid the sites in the vicinity of the Shawnee East Site that are eligible for the National Register of Historic Places.

Notice To Rescind a Notice of Intent To Prepare an Environmental Impact Statement: Dane County, Wisconsin

AGENCY: Wisconsin Department of Transportation (WisDOT), Federal Highway Administration (FHWA), DOT.

ACTION: Notice to Rescind a Notice of Intent to prepare an Environmental Impact Statement.

SUMMARY: A Notice of Intent (NOI) to prepare an Environmental Impact Statement (EIS) was published in the **Federal Register** Vol. 80, No. 65, April 6, 2015 to advise the public that FHWA and WisDOT would prepare an Environmental Impact Statement (EIS) for a proposed freeway interchange improvement project on Interstate I-39/90 at the I-39/90 and US 12/18 interchange (Beltline Interchange) and adjacent local road systems in the City of Madison, Dane County, Wisconsin. The FHWA is issuing this notice to advise the public that FHWA and WisDOT will no longer prepare an EIS for this interchange improvement project. FHWA and WisDOT will prepare an Environmental Assessment (EA) for a proposed improvement project with reduced scope and impacts.
